Management Discussion & Analysis

ADH is pleased to present its report on the performance of the Group for the year ended 31 December 2023. This report should be read in conjunction with the consolidated audited financial statements for the same period.

Profit & loss analysis for the period ending December 2023

<i>Income Statement Summary (AED'Bn)</i>	FY 2023	FY 2022	YOY %
Revenue	45.4	40.0	14%
Gross profit	9.3	9.7	-4%
EBITDA	16.5	13.1	26%
Net profit	13.3	10.6	25%
<i>EBITDA margin</i>	36%	33%	
<i>Net margin</i>	29%	27%	

Revenue: The Group generated revenue of AED 45.4 Bn during the year ended 31 December 2023, equivalent to 14% YOY growth, driven by the following:

- Increased revenue across the major business segments.
- Growth also reflects the contribution of strategic acquisitions and investments made since 2022.

Gross Profit: The Group reported a gross profit of AED 9.3 Bn with a gross margin of 20% reflecting the impact of both organic growth and acquisitions.

Expense Analysis: General and administrative expenses for the year were AED 4.0 Bn versus AED 4.8 Bn for year 2022, with the decrease arising from cost control measures implemented and the derecognition of Pure Health.

Other Income:

- During the year, the group derecognized its ownership interest in Pure Health Holding resulting in a fair value gain of AED 7.5 Bn.

Net Profit: The group reported a net profit of AED 13.3 Bn against AED 10.6 Bn during the comparable period in 2022, with a year-on-year growth of 25%.

Earnings per share: Earnings per share for the year was AED 1.06 per share, as compared to AED 0.73 for year 2022, an increase of 45%.

Balance Sheet Analysis as at December 2023

Balance Sheet Summary (AED'Bn)	FY 2023	FY 2022	YOY %

Total assets were AED 140.4 Bn compared to total assets of AED 131.0 Bn for year ended 31 December 2022. The change is in-line with the Group's derecognition of subsidiary (Pure Health Holding) to investment in joint venture and including the performance of existing portfolio in the current year.

Total Liabilities were AED 64.4 Bn compared to total liabilities of AED 61.0 Bn for FY 22, with a YOY increase of 6%.

Equity reported for the year ended 31 December 2023 was AED 76.0 Bn comprised of owner's equity at 42.0 Bn, hybrid equity instruments at AED 1.8 Bn and non controlling interests at AED 32.2 Bn.

Cash Balance reported as on 31 December 2023 was AED 20.2 Bn.

Segment Performance

The 8 operating segments of the group is segregated into 5 Accounting segments

Segmental Revenue Bridge (AED Bn)

- All the segments delivered a notable performance for the year 2023.
- The decrease in healthcare segment is due to a difference in accounting treatment for Pure Health from subsidiary to an investment in associate.
- All the segments were profitable for the reporting period.
- A summary of segmental performance is shown in the table below:

Segments (AED Bn)	Industrial	Real Estate	Services & Others *	Construction	Healthcare	Total
Revenue	16.7	10.5	6.9	8.6	2.7	45.4
Proportion to total	37%	23%	15%	19%	6%	100%
Net Profit	2.1	2.0	8.3	0.9	-	13.3
Proportion to total	16%	15%	78%	7%	0%	100%
Total Assets	21.8	72.8	22.4	10.1	13.3	140.4
Proportion to total	16%	52%	31%	7%	9%	100%

***Services & Others** includes other small segments such as Energy, Hospitality, Climate Capital, one time gain as a result of the derecognition of Pure Health and consolidation eliminations

****Pure Health** was derecognized in Q1 23

Key Investments and Subsequent Events

Key Investments

MICAD Credit JV	The group and Mubadala Investment Company (“Mubadala”) formed a joint venture to co-invest in credit opportunities. Alpha Dhabi and Mubadala aim to collectively deploy up to ~AED 9 billion (approximately US \$2.5 billion) over the next five years, leveraging Mubadala’s long-term and strategic partnership with Apollo (NYSE: APO), one of the world’s largest alternative asset managers, to access high-quality private credit investment opportunities. Mubadala holds 80% ownership in the JV, with the remaining 20% being held by Alpha Dhabi.
National Corporation for Tourism and Hotels (“NCTH”)	The Group acquired 36.39% NCTH for a purchase consideration of AED 730 million. NCTH shares are listed on ADX and it owns, manages and operates a number of hotels in Abu Dhabi and this deal makes Alpha Dhabi the single largest shareholder of NCTH.
Eltizam Asset Management Estate - Sole Proprietorship L.L.C. (“Eltizam”)	Aldar Properties PJSC, a subsidiary of the Group acquired a 65% equity interest in Etizam, for a consideration of AED 1,013 million. Etizam is a limited liability company, registered and incorporated in Abu Dhabi and is engaged in real estate lease and management services.
Virginia International Private School – SP LLC. (“Virginia”)	Aldar Properties PJSC, a subsidiary of the Group acquired a 100% equity interest in Virginia, for a consideration of AED 210.5 million. Virginia is a limited liability company, registered and incorporated in Abu Dhabi and is engaged in education.
Kent College LLC - FZ. And Kent Nursery LLC - FZ (“Kent”)	Aldar Properties PJSC, a subsidiary of the Group acquired a 100% equity interest in Kent, for a consideration of AED 120 million. Kent is a limited liability company, registered and incorporated in Dubai and is engaged in education.
Mais Interior Design L.L.C. (“Mais”)	Trojan Construction Group, a subsidiary of the Group acquired a 60% equity interest in Mais, for a consideration of AED 24 million.

Key Investments and Subsequent Events Continue

Key Investments

Fab Properties - Sole Proprietorship LLC ("FABP")

Aldar Properties PJSC, a subsidiary of the Group acquired a 100% equity interest in FABP, for a consideration of AED 335 million. FABP is a limited liability company, registered and incorporated in Abu Dhabi and is engaged in property rental.

London Square Developments (Holdings) Limited ("LSQ")

Effective 30 November 2023, Aldar Properties PJSC, a subsidiary of the Group acquired a 100% equity interest in LSQ, for a consideration of AED 498 million. LSQ is a limited liability company, registered and incorporated in England and is engaged in real estate development.

Subsequent Events

Alpha Mind Holding Limited ('Alpha Mind')

Acquisition of a 51 % stake in Alpha Mind Holding Limited ('Alpha Mind'), a company incorporated in Abu Dhabi, UAE on Abu Dhabi Global Market ('ADGM') for an amount of AED 254.2 million by ADMO Lifestyle Holding Ltd.. Alpha Mind is involved in the hospitality business.

Enersol Rsc Ltd

The Group has formed a joint venture entity, Enersol Rsc Ltd in November 2023, in collaboration with ADNOC Drilling Company PJSC (referred to as 'ADNOC Drilling'), wherein ownership stakes are distributed as 49% and 51% respectively. The principal objective of this venture is to spearhead the development of an oil field services technology platform, with a total commitment amounting to US\$ 1,500 million. As an integral part of this endeavor, the Group has contributed its 25% stake in Gordon Technologies LLC to Enersol Rsc Ltd, for a consideration of US\$ 87 million.

Future Plans

Management confirms its commitment to support and enhance the core investment activities of the company to drive continuous growth via:

- The addition of exciting new operating assets through acquisitions and geographic diversification
- Implementing robust and exemplary corporate governance across the ADH portfolio of businesses to ensure strong growth is supported by an effective framework of controls.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the consolidated financial statements of Alpha Dhabi Holding PJSC (“the Company”) and its subsidiaries (together referred to as “the Group”), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code) together with the other ethical requirements that are relevant to our audit of the Group’s consolidated financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of consolidated financial statements of the current period. These matters were discussed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters are stated below:

**INDEPENDENT AUDITOR’S REPORT
TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)**

Key audit matters (continued)

Revenue recognition	How our audit addressed the key audit matters
<p>The Group recognized revenue of AED 45,416 million for the year ended 31 December 2023. Revenue recognition is considered to be a key area of focus given there are multiple revenue streams associated with the Group which come from various decentralized operational locations.</p> <p>The Group’s business involves entering into contractual relationships with customers to provide a range of services with a significant proportion of the Group’s revenues and profits derived from long term contracts. Also, revenue is quantitatively significant to the consolidated financial statements and requires management to apply significant judgements and make significant estimates when determining the amount of revenue to be recognised.</p> <p>The significant judgements applied and estimates made include determining the stage of completion, the timing of revenue recognition and the calculation of the percentage of completion in applying the Group’s revenue recognition policies to long-term contracts entered into by the Group.</p> <p>The nature of these judgements results in them being susceptible to management override and risk that revenue recognized is incorrect.</p> <p>The Group’s revenue recognition accounting policy is included in Note 2 to the consolidated financial statements. Critical accounting judgements and key sources of estimation uncertainty are disclosed in Note 4 and details of the amount of revenue recognized during the year are included in Note 32.</p>	<p>We performed the following procedures, inter alia, in respect of revenue recognition:</p> <ul style="list-style-type: none"> • We obtained an understanding of the business process flow and performed walkthroughs to understand the key processes and identify key controls; • We assessed the key controls over revenue to determine if they had been designed and implemented appropriately and tested controls, for significant revenue streams and, where we planned to rely on controls, we determined if they were operating effectively; • We performed a range of audit procedures which included obtaining a sample of contracts, reviewing for variation orders, retrospectively reviewing estimated profit and costs to complete and enquiring of key personnel regarding potential contract losses; • For material contracts identified, we have reviewed the contract terms and verified assumptions made in determining the amount of revenue to be recognised, including consideration of discounts, performance penalties and other cost implications of the contract; • We performed analytical procedures by comparing the current year project margins for certain projects with their prior year margin. If we identified an unexpected margin, we carried out more focused testing on these contracts; • We performed procedures to assess whether the revenue recognition criteria adopted by Group is appropriate and is in accordance with the Group’s accounting policy and the requirements of IFRSs; • We performed testing over manual journal entries posted to revenue to assist us in identifying unusual or irregular transactions; and • We assessed the disclosure in the consolidated financial statements relating to revenue recognition against the requirements of IFRSs.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)

Key audit matters (continued)

Recoverability and impairment of trade receivables and contract assets	How our audit addressed the key audit matters
<p>At 31 December 2023, gross trade receivables and contract assets were AED 9,885 million and AED 9,088 million respectively against which expected credit loss (“ECL”) allowances of AED 455 million and AED 152 million respectively were recorded. These assets represent 13% of the total assets presented in the consolidated financial statements and include trade receivable balances of AED 1,566 million which has been outstanding for more than 120 days. Further, contract assets include balances of AED 822 million relating to unsigned or verbal contracts.</p> <p>The Group assesses at each reporting date whether the financial assets carried at amortised cost are credit-impaired. Management has applied the simplified approach for measurement of ECL allowances for trade receivables and contract assets. The ECL model involves the use of various assumptions, macro-economic factors and study of historical trends relating to the Group’s trade collections experience.</p> <p>The directors exercise significant judgement when determining both when and how much to record as the ECL allowance. Because of the significance of these judgements and the size of trade receivables and contract assets, the audit of the allowance for ECL is a key area of focus.</p> <p>We have considered the above matter as a Key Audit Matter due to the identification of significant delays in the collection of receivables which results in the application of significant auditor judgement regarding the accounting estimates made by management in determining the ECL allowance.</p> <p>The Group disclosures are included in Notes 2 and 4 of the consolidated financial statements which outline the accounting policy and critical estimates made and judgements applied for determining the allowance for ECL.</p>	<p>We performed the following procedures in relation to the allowance for expected credit loss:</p> <ul style="list-style-type: none"> • We obtained an understanding of the process and identified the relevant controls over the measurement and determination of the allowance for ECL; • We assessed the design of these controls and determined if they had been implemented appropriately; • We compared the ECL model developed by management against the requirements of IFRSs and reviewed the methodology against accepted best practice; • We tested the arithmetical accuracy of the model; • We performed procedures on individually significant projects, such as substantiating transactions with underlying documents, including contracts and third-party correspondence, final settlement agreements, requests submitted for extension of time, to obtain evidence for the accuracy and valuation of the recorded receivables. • We tested key assumptions, such as those used to calculate the likelihood of default and the subsequent loss on default, by comparing to historical data. We also considered the incorporation of forward-looking factors to reflect the impact of future events on expected credit losses; • We agreed the results of the output of the ECL model developed by management to the amounts reported in the consolidated financial statements; and • We assessed the disclosure in the consolidated financial statements relating to this matter against the requirements of IFRSs.

**INDEPENDENT AUDITOR’S REPORT
TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)**

Key audit matters (continued)

Business acquisitions and purchase price allocation	How our audit addressed the key audit matters
<p>During the year, the Group acquired control over the entities disclosed in note 42 of the consolidated financial statements, which were determined to be business combinations as defined by IFRSs, for a total purchase price of AED 2,067 million. Management engaged independent professional valuers to perform the purchase price allocation exercise, to assist them in the determination of fair valuation and identification of assets acquired and liabilities assumed. This includes the identification and valuation of intangible assets which requires judgements to be made. A customer related intangible asset of AED 464.7 million was identified which had not been recorded by the entities acquired.</p> <p>These transactions require management to apply significant judgement and make significant estimates in determining the acquisition-date fair values of identifiable assets acquired and liabilities assumed.</p> <p>Key estimates applied in the determination of provisional fair values include, inter alia, discount rates, revenue growth rates, gross margins and useful life of assets. Any significant changes in these key estimates may give rise to material changes in the provisional fair value of the acquired assets and liabilities including intangible assets, which directly impact the goodwill recognised.</p> <p>We have considered business acquisitions and purchase price allocations as a key audit matter due to the level of judgements applied and estimates made in the process of performing the purchase price allocation.</p> <p>Refer to note 2 for the accounting policy and note 42 for disclosures related to this matter.</p>	<p>We performed the following procedures in relation to the review of business acquisitions and purchase price allocation:</p> <ul style="list-style-type: none"> • Assessed the controls over the accounting of the transactions to determine if they had been appropriately designed and implemented; • Assessed whether management’s assumptions in relation to the accounting for the transactions are in accordance with the requirements of IFRSs; • Reviewed the purchase agreements to assess if the recording of the acquisitions were in accordance with the requirements of IFRSs. • Assessed the skills, independence and qualifications of the independent valuers engaged by management in relation to this matter and reviewed their terms of engagement with the Group to determine if the scope of their work was sufficient for audit purposes; • As part of our audit procedures in respect of the review of purchase price allocation, we have: <ul style="list-style-type: none"> ○ assessed the completeness and accuracy of the assets acquired and liabilities assumed in the provisional purchase price allocation; ○ evaluated, with involvement of our internal experts, the methodologies and significant inputs used by the Group including the identification of intangible assets and the determination of the useful lives of the identified intangible assets;

**INDEPENDENT AUDITOR’S REPORT
TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)**

Key audit matters (continued)

Business acquisitions and purchase price allocation (continued)	How our audit addressed the key audit matters
	<ul style="list-style-type: none"> ○ assessed the adequacy of fair values of the assets acquired and liabilities assumed. Where we identified estimates that were outside acceptable parameters, we discussed these with the valuers and management to understand the rationale behind the estimates made; ○ analysed the fair value adjustments recognized by management and evaluated whether the adjustments made were in accordance with the requirements of IFRSs; ○ reperformed the mathematical accuracy of the determination of the provisional fair values of assets acquired and liabilities assumed; ○ agreed the fair values of assets acquired and liabilities assumed that were determined by the professional valuers to the amounts disclosed in the consolidated financial statements; ○ assessed, with involvement of our internal experts, goodwill recognised by management and evaluated whether it was accounted for in accordance with the requirements of IFRSs; and ● Assessed the disclosures in the consolidated financial statements relating to this matter against the requirements of IFRSs.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)

Key audit matters (continued)

Derecognition of Pure Health Holding (PHH) as a subsidiary and related Purchase Price Allocation	How our audit addressed the key audit matters
<p>The shareholders of PHH amended the shareholders agreement during the year. One of the amendments made was that any decisions about the relevant activities of PHH require the unanimous consent of all the shareholders. Consequently, as a result of this amendment, the Group lost control over PHH and derecognized all assets and liabilities relating to PHH at the date of the agreement. The Group recognized its interest in PHH at fair value at this date. Subsequently, the investment in PHH is accounted for using the equity method of accounting whereby the Group recognizes its share of PHH's earnings as a single line item in profit or loss.</p> <p>The Group recognised a gain on derecognition of PHH's assets and liabilities of AED 7,457 million, being the difference between the carrying value of assets and liabilities of PHH on the date of derecognition of AED 4,501 million and the fair value of the retained interest of AED 11,958 million. This gain has been recognized in profit or loss.</p> <p>Management engaged independent professional valuer for the valuation to determine the fair value of the remaining portion of PHH and to perform the purchase price allocation exercise, to assist them in the identification of assets acquired and liabilities assumed, to allocate the goodwill and account for any other intangible assets, for example brands or customer relationships, with finite useful lives which will adjust future earnings with an amortization charge.</p> <p>In estimating the fair value of PHH, the valuer valued PHH on a Sum of the Parts ("SOTP") approach, considering the Discounted Cash Flow ("DCF") methodology under the Income Approach as the primary valuation methodology to arrive at the Enterprise Value of each business. Further, where appropriate, the valuer performed a market cross check of the value using trading multiples of publicly listed comparable companies, for each cash-generating unit.</p>	<p>We performed the following procedures in relation to the key audit matter.</p> <ul style="list-style-type: none"> • Assessed the controls over the accounting of the transactions to determine if they had been appropriately designed and implemented; • Reviewed the amended shareholders' agreement to assess if the derecognition of PHH and subsequent accounting of the investment as a joint venture was in accordance with the requirements of IFRSs; • Involved our internal specialist valuation team who: <ul style="list-style-type: none"> ○ assessed the valuation method used to value the business and analyzed the projections, assumption used in the valuation; and ○ performed an independent assessment against external market data of key inputs used by management in calculating appropriate discount rates, principally risk-free rates, country risk premium and inflation rates. • Performed audit procedures described in the preceding key audit matter, in respect of the review of valuation of business and purchase price allocation; and • Assessed the disclosure in the consolidated financial statements relating to this matter against the requirements of IFRSs.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)

Key audit matters (continued)

Derecognition of Pure Health Holding (PHH) as a subsidiary and related Purchase Price Allocation (continued)	How our audit addressed the key audit matters
<p>We have identified the business valuation of PHH and the exercise of PPA, as a key audit matter due to the overall size of the transaction and the use of significant judgements applied and estimates made by management.</p> <p>The key judgements and estimates involved are described in note 4, and details of the transaction and amount involved is explained in more detail in note 43 to the consolidated financial statements.</p>	

Other Information

The Board of Directors are responsible for the other information. The other information comprises the Directors' report, which we obtained prior to the date of this auditor's report, and the Group Annual Report, which is expected to be made available to us after that date. The other information does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we will read the Group's Annual Report, if we conclude that there is material misstatement therein, we will be required to communicate the matter to those charged with governance and consider whether a reportable irregularity exists in terms of the auditing standards, which must be reported.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards (IFRS Accounting Standards) and their preparation in compliance with the Articles of Association of the Company, applicable provisions of UAE Federal Decree Law No. (32) of 2021, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations or has no realistic alternative but to do so.

Those Charged with Governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ALPHA DHABI HOLDING PJSC (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

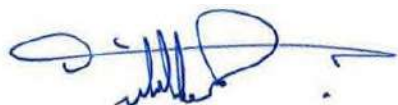

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law and regulations preclude public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by the UAE Federal Decree Law No. (32) of 2021, we report that for the year ended 31 December 2023:

- We have obtained all the information we considered necessary for the purposes of our audit;
- The consolidated financial statements of the Group have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Decree Law No. (32) of 2021;
- The Company has maintained proper books of accounts;
- The financial information included in the Directors' report is consistent with the Group's books of account;
- Note 2, 10 and 12 to the consolidated financial statements discloses the purchases and investments in shares made by the Group during the financial year ended 31 December 2023;
- Note 18 to the consolidated financial statements of the Group discloses material related party balances, transactions and the terms under which they were conducted;
- Based on the information that has been made available to us nothing has come to our attention which causes us to believe that the Company has contravened during the financial year ended 31 December 2023 any of the applicable provisions of the UAE Federal Decree Law No. (32) of 2021 or of its Articles of Association which would materially affect its activities or its consolidated financial position as at 31 December 2023; and
- Note 34 reflects the disclosure related to social contributions made during the year.

- Security services;
- Manufacturing of motor vehicles;
- Facilities management services;
- Renewable energy power plant installation and maintenance of energy equipment;
- Digital banking services;
- Health insurance solutions; and
- Chemicals production

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies****2.1 Basis of preparation****Statement of compliance**

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS Accounting Standards) and the applicable provisions of U.A.E. Federal Decree Law No. (32) of 2021.

Accounting convention

These consolidated financial statements have been prepared on the historical cost basis except for financial assets carried at fair value through other comprehensive income, fair value through profit and loss, derivative financial instruments and biological assets that have been measured at fair value at the end of each reporting period, as explained in the accounting policies given below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received on sale of an asset or paid on transfer of a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of a financial asset or liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realizable value ('NRV') in IAS 2 or value in use in IAS 36.

Functional and presentation currency

These consolidated financial statements are presented in United Arab Emirates Dirhams (AED) which is the functional and presentation currency of the Group and all values are rounded to the nearest thousand only except when otherwise indicated.

Going concern

The directors have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group have adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. Control is achieved where the Company has:

- power over the investee;
- is exposed, or has rights, to variable returns from its involvement; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.1 Basis of preparation (continued)****Basis of consolidation (continued)**

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not its voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of non-controlling shareholders that are present ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.1 Basis of preparation (continued)

Basis of consolidation (continued)

When the Group loses control of a subsidiary, a gain or loss is recognised in consolidated statement of profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in consolidated statement of comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e., reclassified consolidated statement of to profit or loss or transferred to another category of equity as specified / permitted by applicable IFRS). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

These consolidated financial statements include the financial performance and position of the following subsidiaries, all of which are incorporated in the UAE:

There are certain joint operations which are inoperative and have insignificant balances at year end.

2.2 Summary of material accounting policies

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in the consolidated statement of profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except:

- Deferred tax assets or liabilities in accordance with IAS 12;
- Assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 19;
- Liabilities or equity instruments related to share-based payment arrangements measured in accordance with IFRS 2; and
- Assets (or disposal groups) that are classified as held-for-sale in accordance with IFRS 5.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Business combinations (continued)**

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), then the excess is recognised immediately in the consolidated statement of profit or loss as a bargain purchase gain.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained within one year from the acquisition date about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is re-measured to fair value at subsequent reporting dates with changes in fair value recognised in the consolidated statement of profit or loss.

When a business combination is achieved in stages, the Group's previously held interests (including joint operations) in the acquired entity are re-measured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in the consolidated statement of profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in the consolidated statement of comprehensive income are reclassified to the consolidated statement of profit or loss, where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Business combinations under common control

Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

A business combination involving entities or businesses under common control is a business combination in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the combination and that control is not transitory.

Transactions giving rise to transfer of interests in entities, which are under the common control of the Group are accounted for using the pooling of interest method at the date of transfer. Such transactions are presented without restatement of prior periods and are outside the scope of IFRS 3. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the books of the transferor entity at the transfer date. The components of equity of the acquired entities are added to the same components within Group equity, except those which are eliminated on consolidation. Any difference between the consideration paid and capital of the acquiree is recognised directly in merger reserve.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment is its purchase cost together with any incidental expense of acquisition.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the consolidated statement of profit or loss during the financial period in which they are incurred.

Depreciation is charged so as to write off the cost of the property, plant and equipment using the straight-line method over their estimated useful lives as follows:

	Years
Buildings and base facilities	5-47
Dredgers, machinery and equipment	1-30
Barges, support vessels and vehicles	1-40
Furniture, equipment and leasehold improvements	2-20

Land is not depreciated.

2.2 Summary of material accounting policies (continued)

Property, plant and equipment (continued)

The estimated useful lives, residual values and depreciation methods are reviewed annually, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit or loss.

Capital work-in-progress

Properties or assets in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes all direct costs attributable to the design and construction of the asset including related staff costs, and for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. When the assets are ready for its intended use, the cost is transferred to the appropriate asset category and is depreciated in accordance with the Group's accounting policies.

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses, if any. Amortisation is recognised on a straight-line basis over the assets estimated useful lives as follows:

	Years
Software and license	3-10
Customer related intangibles	5-20
Trademarks	3-8
Brand	10

The estimated useful life and amortisation method are reviewed annually, with the effect of any changes in estimate being accounted for on a prospective basis. Customer related intangibles include customer relationships and customer contracts.

Intangible assets with indefinite useful lives i.e., brand that are acquired separately are tested for impairment and carried at cost less accumulated impairment losses, if any.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are recognised initially at their fair value at the acquisition date.

Subsequent to initial recognition, they are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Intangible assets acquired separately (continued)**

An intangible asset is de-recognised on disposal, or when no future economic benefits are expected to arise. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in consolidated statement of profit or loss.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the consolidated statement of profit or loss in the period in which they are incurred.

Biological assets

Biological assets are measured on initial recognition and at end of each reporting period at fair value less estimated costs to sell, unless at initial recognition that fair value cannot be measured reliably. In such cases, the entity measures the biological asset at historic cost less any accumulated depreciation and any accumulated impairment losses unless / until fair value becomes reliably measurable. The fair values are determined based on current market prices of similar type of assets. Costs to sell include commission to brokers and dealers.

A gain or loss on initial recognition of biological assets at fair value less estimated costs to sell and from a change in fair value less estimated costs to sell of biological assets shall be included in the consolidated statement of profit or loss in the period in which it arises.

Goodwill

Goodwill is initially recognised and measured as mentioned in the business combination policy.

Goodwill is not amortised but is tested for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a cash-generating unit, the attributable amount of goodwill is included in the determination of profit or loss on disposal.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Investment properties**

Investment property, which is property held to earn rental income and / or for capital appreciation (including property under construction for such purposes), is measured initially at cost, including transaction costs.

Depreciation is calculated using the straight-line method over their expected useful life which ranges from 15 to 47 years. The estimated useful life, residual value and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the asset. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss.

Leases*The Group as a lessee*

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The incremental borrowing rate depends on the term, currency and start date of the lease and is determined based on a series of inputs including: the risk-free rate based on government bond rates; a country-specific risk adjustment; a credit risk adjustment based on bond yields; and an entity-specific adjustment when the risk profile of the entity that enters into the lease is different to that of the Group and the lease does not benefit from a guarantee from the Group.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Leases (continued)

The Group as a lessee (continued)

- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group re-measures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is re-measured by discounting the revised lease payments using a revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is re-measured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is re-measured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets

The value right-of-use assets comprise the initial measurement of the corresponding lease liability, plus lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses. Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the asset. If a lease transfers ownership of the underlying asset or the cost of the asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Depreciation is charged so as to write off the cost of the assets using the straight-line method over their estimated useful lives or lease term, whichever is shorter, as follows:

	Years
Land	1-65
Buildings	1-50
Machinery	1-7

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Leases (continued)***Right-of-use assets (continued)*

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for an identified impairment loss as described in the 'Property, plant and equipment' policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Group has not used this practical expedient. For contracts that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group as a lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head lease and the sub-lease as two separate contracts. The sub-lease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term. Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Subsequent to initial recognition, the Group regularly reviews the estimated unguaranteed residual value and applies the impairment requirements of IFRS 9, recognising an allowance for expected credit losses ("ECL") on the lease receivables.

Finance lease income is calculated with reference to the gross carrying amount of the lease receivables, except for credit-impaired financial assets for which interest income is calculated with reference to their amortised cost (i.e., after a deduction of the loss allowance).

When a contract includes both lease and non-lease components, the Group applies IFRS 15 to allocate the consideration under the contract to each component.

Notes to the consolidated financial statements for the year ended 31 December 2023 (continued)

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Impairment of non-financial assets excluding goodwill

At each reporting date, the Group reviews the carrying amounts of its non-financial assets including property, plant and equipment, investment property, right-of-use assets and intangible assets to determine whether there is any indication that those non-financial assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with an indefinite useful life are tested for impairment at least annually and whenever there is an indication at the end of a reporting period that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised immediately in the consolidated statement of profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease with any excess impairment loss recognised in the consolidated statement of profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised in prior years. A reversal of an impairment loss is recognised immediately in the consolidated statement of profit or loss to the extent that it eliminates the impairment loss which has been recognised for the asset in prior years. Any increase in excess of this amount is treated as a revaluation increase.

Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Investments in associates and joint ventures (continued)**

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held-for-sale, in which case it is accounted for in accordance with IFRS 5.

Under the equity method, an investment in an associate or a joint venture is recognised initially in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in the consolidated statement of profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture. When the Group retains an interest in the former associate or a joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IFRS 9. The difference between the carrying amount of the associate or a joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or a joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Investments in associates and joint ventures (continued)**

In addition, the Group accounts for all amounts previously recognised in the consolidated statement of comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in the consolidated statement of comprehensive income by that associate or joint venture would be reclassified to the consolidated statement of profit or loss on disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to the consolidated statement of profit or loss (as a reclassification adjustment) at that time.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, it reclassifies to the consolidated statement of profit or loss the proportion of gain or loss previously recognised in the consolidated statement of comprehensive income relating to that reduction in ownership, if that gain or loss would be reclassified to the consolidated statement of profit or loss on the disposal of the related assets or liabilities.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from it are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

The Group applies IFRS 9, including the impairment requirements, to long-term interests in an associate or joint venture to which the equity method is not applied and which forms part of the net investment in the investee. Furthermore, in applying IFRS 9 to long-term interests, the Group does not take into account adjustments to their carrying amount required by IAS 28 (i.e. adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with IAS 28).

Interests in joint operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When a Group entity undertakes its activities under joint operations, the Group as a joint operator recognises in relation to its interest in a joint operation:

- its assets, including its share of any assets held jointly;
- its liabilities, including its share of any liabilities incurred jointly;
- its share of the revenue from the sale of the output by the joint operations; and
- its expenses, including its share of any expenses incurred jointly.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Interests in joint operations (continued)**

The Group accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the applicable IFRSs. When a Group entity transacts with a joint operation in which a group entity is a joint operator (such a sale or contribution of assets), the Group is considered to be conducting the transaction with the other parties to the joint operations, and gains and losses resulting from the transactions are recognised in the Group's consolidated financial statements only to the extent of other parties' interests in the joint operation.

When a Group entity transacts with a joint operation it does not recognise its share of the gains or losses.

Insurance contracts*Classification*

The Group issues contracts that transfer insurance risk.

Contracts under which the Group accepts significant insurance risk from another party (*the policy holder*) by agreeing to compensate the policyholder if a specified uncertain future event (*the insured event*) adversely affects the policyholder are classified as insurance contracts. Insurance risk is significant if an insured event could cause the Group to pay significant additional benefits due to occurrence of the insured event as compared to non – occurrence. Once a contract is classified as an insurance contract it remains classified as an insurance contract until all rights and obligations are extinguished or expired.

Premium and unearned premium reserve

The contracts allow the Group's policy holders to obtain healthcare coverage and protect them against medical expenditures and related costs in accordance with an agreed medical plan. The healthcare coverage pays for medical and surgical expenses that are incurred by the insured customers. For all these insurance contracts, premiums are recognised as revenue (*earned premiums*) proportionally over the period of coverage. The portion of premium received on in-force contracts that relates to unexpired risks at the reporting date is reported as the unearned premium reserve.

Claims

Claims and loss adjustment expenses are charged to the consolidated statement of profit or loss as incurred based on the estimated liability for compensation owed to policy holders or third parties damaged by the policy holders. They include direct and indirect claims settlement costs i.e., unallocated loss adjustment expense (ULAE) and arise from events that have occurred up to the reporting date even if they have not yet been reported to the Group.

Taking into consideration the fact that significant time lags may exist between loss events and notification of the claims to the Group, incurred but not reported claims ("IBNR") are established on the basis of the Group's own estimates for claims that have already been incurred but not yet reported. These are guided by the principle of best estimate using actuarial methods. Such estimates are based upon both past experience and assessments of the future development.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Insurance contracts (continued)**

The Group does not discount its liabilities for unpaid claims. Liabilities for unpaid claims are estimated using the input of assessments for individual cases reported to the Group and statistical analyses for the claims incurred but not reported (“IBNR”).

Reinsurance contracts

The Group cedes reinsurance in the normal course of business for the purpose of limiting its net loss potential through the diversification of its risks. Assets, liabilities and income and expense arising from ceded reinsurance contracts are presented separately from the assets, liabilities, income and expense from the related insurance contracts because the reinsurance arrangements do not relieve the Group from its direct obligations to its policyholders.

Amounts due to and from reinsurers are accounted for in a manner consistent with the related insurance policies and in accordance with the relevant reinsurance contracts. Reinsurance premiums are deferred and expensed using the same basis as used to calculate unearned premium reserves for related insurance policies. The deferred portion of ceded reinsurance premiums is included in reinsurance assets.

Reinsurance assets are assessed for impairment at each consolidated statement of financial position date. A reinsurance asset is deemed impaired if there is an objective evidence, as a result of an event that occurred after its initial recognition, that the Group may not recover all amounts due, and that event has a reliably measurable impact on the amounts that the Group will receive from the reinsurer.

Impairment losses on reinsurance assets are recognised in the consolidated statement of profit or loss in the period in which they are incurred.

Liability adequacy test

Where necessary, a provision is made when the expected value of claims and administrative expenses attributable to the unexpired periods of policies in force at the consolidated statement of financial position date exceeds the unearned premiums provision in relation to such policies.

The assessment of whether a provision is necessary is made separately considering each category of business accounted for annually, on the basis of information available as at the consolidated statement of financial position date, taking into account related expenses and attributable future investment return. Any deficiency is immediately charged to the consolidated statement of profit or loss by establishing a provision for losses arising from the liability adequacy tests.

Deferred commission income and expense

At the end of each reporting period, commission income and expenses as well as other income and expenses related to underwriting activities are deferred to cover for unexpired risks. The reserves are calculated on a time-proportion basis over the effective period of the policy.

Notes to the consolidated financial statements for the year ended 31 December 2023 (continued)

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Financial instruments

Financial assets and financial liabilities are recognised in the Group's consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables that do not have a significant financing component which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in consolidated statement of profit or loss.

Financial assets

Purchases or sales of financial assets are recognised or derecognised on a trade date basis. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Financial assets that meet the following conditions are measured subsequently at amortised cost:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are measured subsequently at fair value through other comprehensive income ("FVTOCI"):

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss ("FVTPL").

Despite the foregoing, the Group may make the following irrevocable election / designation at initial recognition of a financial asset:

- The Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met; and
- The Group may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial assets (continued)**(i) Amortised cost and effective interest method*

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at FVTOCI. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

For purchased or originated credit-impaired financial assets, the Group recognises interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired. Interest income is recognised in the consolidated statement of profit or loss.

Cash and short-term deposits

Cash and short-term deposits in the consolidated statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Financial instruments (continued)

Financial assets (continued)

(ii) Debt instruments classified as at FVTOCI

Debt instruments that meet the following conditions are measured subsequently at FVTOCI:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at FVTPL. For financial instruments other than purchased or originated credit-impaired financial assets (i.e. assets that are credit-impaired on initial recognition), the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding ECL, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including ECL, to the amortised cost of the debt instrument on initial recognition.

(iii) Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held-for-trading or if it is contingent consideration recognised by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investment revaluation reserve. The cumulative gain or loss is not reclassified to the consolidated statement of profit or loss on disposal of the equity investments, instead, it is transferred to retained earnings.

Dividends on these investments in equity instruments are recognised in the consolidated statement of profit or loss in accordance with IFRS 9, unless the dividends clearly represent a recovery of part of the cost of the investment.

The Group designated all investments in equity instruments that are not held-for-trading as at FVTOCI on initial recognition. A financial asset is held-for-trading if either:

- It has been acquired principally for the purpose of selling it in the near term;
- On initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Financial instruments (continued)

Financial assets (continued)

(iv) *Financial assets at FVTPL*

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI (see (i) to (iii) above) are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held-for-trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition (see (iii) above); and
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria (see (i) and (ii) above) are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency (so called ‘accounting mismatch’) that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instruments at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in the consolidated statement of profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in the consolidated statement of profit or loss includes any dividend or interest earned on the financial asset and is included in ‘Dividend income’. Fair value is determined in the manner described in Note 45.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. Specifically:

- For financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in the consolidated statement of profit or loss in the foreign exchange gain;
- For debt instruments measured at FVTOCI that are not part of a designated hedging relationship, exchange differences on the amortised cost of the debt instrument are recognised in the consolidated statement of profit or loss in foreign exchange gain. As the foreign currency element recognised in profit or loss is the same as if it was measured at amortised cost, the residual foreign currency element based on the translation of the carrying amount (at fair value) is recognised in other comprehensive income in the investment revaluation reserve;
- For financial assets measured at FVTPL that are not part of a designated hedging relationship, exchange differences are recognised in the consolidated statement of profit or loss as foreign exchange gain; and
- For equity instruments measured at FVTOCI, exchange differences are recognised in the consolidated statement of comprehensive income in the investment revaluation reserve.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial assets (continued)**Impairment of financial assets*

The Group recognises a loss allowance for ECL on investments in debt instruments that are measured at amortised cost or at FVTOCI, trade receivables, contract assets, and other financial assets as well as on financial guarantee contracts. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables, contract assets, and lease receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months from the reporting date.

i) Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

i) Significant increase in credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- An actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- Significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;
- Existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- An actual or expected significant deterioration in the operating results of the debtor;
- Significant increases in credit risk on other financial instruments of the same debtor; and
- An actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- The financial instrument has a low risk of default;
- The debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

i) Significant increase in credit risk (continued)

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a financial guarantee contract, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

ii) Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- When there is a breach of financial covenants by the debtor; and
- Information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is past due for 365 days unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial assets (continued)**Impairment of financial assets (continued)**iii) Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- Significant financial difficulty of the issuer or the borrower;
- A breach of contract, such as a default or past due event (see (ii) above);
- The lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; and
- The disappearance of an active market for that financial asset because of financial difficulties.

iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the consolidated statement of profit or loss.

v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount of guaranteed debt that has been drawn down as at the reporting date, together with any additional guaranteed amounts expected to be drawn down by the borrower in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the ECL is consistent with the cash flows used in measuring the lease receivable in accordance with IFRS 16.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial assets (continued)**Impairment of financial assets (continued)**v) Measurement and recognition of ECL (continued)*

For a financial guarantee contract, as the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed, the expected loss allowance is the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which the simplified approach was used.

The Group recognises an impairment gain or loss in the consolidated statement of profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the consolidated statement of profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to the consolidated statement of profit or loss. In contrast, on derecognition of an investment in an equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to the consolidated statement of profit or loss but is transferred to retained earnings.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial liabilities and equity**Classification as debt or equity*

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL. However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, and financial guarantee contracts issued by the Group, are measured in accordance with the specific accounting policies set out below.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading or (iii) it is designated as at FVTPL.

A financial liability is classified as held-for-trading if either:

- It has been acquired principally for the purpose of repurchasing it in the near term;
- On initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; and
- It is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

A financial liability other than a financial liability held-for-trading or contingent consideration of an acquirer in a business combination may be designated as at FVTPL upon initial recognition if either:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial liabilities (continued)**Financial liabilities at FVTPL (continued)*

- The financial liability forms part of a group of financial assets or financial liabilities or both, which is managed, and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- It forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at FVTPL.

Financial liabilities at FVTPL are measured at fair value, with any gains or losses arising on changes in fair value recognised in consolidated statement of profit or loss to the extent that they are not part of a designated hedging relationship (see Hedge accounting policy). The net gain or loss recognised in the consolidated statement of profit or loss incorporates any interest paid on the financial liability.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in the consolidated statement of profit or loss. The remaining amount of change in the fair value of liability is recognised in the consolidated statement of profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in the consolidated statement of comprehensive income are not subsequently reclassified to the consolidated statement of profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

Gains or losses on financial guarantee contracts issued by the Group that are designated by the Group as at FVTPL are recognised in the consolidated statement of profit or loss.

Fair value is determined in the manner described in Note 45.

Financial liabilities measured subsequently at amortised cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for trading, or (iii) designated as at FVTPL, are measured subsequently at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Financial liabilities (continued)**Sukuk*

Sukuks are stated at amortised cost using the effective profit rate method. The profit attributable to the sukuk is calculated by applying the prevailing market profit rate, at the time of issue, for similar sukuk instruments and any difference with the profit distributed is added to the carrying amount of the sukuk.

Financial guarantee contract liabilities

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contract liabilities are measured initially at their fair values and, if not designated as at FVTPL and do not arise from a transfer of an asset, are measured subsequently at the higher of:

- The amount of the loss allowance determined in accordance with IFRS 9 (see financial assets above); and
- The amount recognised initially less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies set out above.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in the consolidated statement of profit or loss for financial liabilities that are not part of a designated hedging relationship. For those which are designated as a hedging instrument for a hedge of foreign currency risk, exchange gains and losses are recognised in the consolidated statement of comprehensive income and accumulated in a separate component of equity.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in the consolidated statement of profit or loss for financial liabilities that are not part of a designated hedging relationship.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Financial instruments (continued)***Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the consolidated statement of profit or loss. When the Group exchanges with the existing lender one debt instrument into another one with substantially different terms, such exchange is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, the Group accounts for substantial modification of terms of an existing liability or part of it as an extinguishment of the original financial liability and the recognition of a new liability. It is assumed that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. If the modification is not substantial, the difference between: (1) the carrying amount of the liability before the modification; and (2) the present value of the cash flows after modification is recognised in the consolidated statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. A provision is recognised for those matters for which the tax determination is uncertain, but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the Group supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Taxation (continued)***Deferred tax*

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, a deferred tax liability is not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax for the year

Current and deferred tax are recognised in the consolidated statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax is also recognised in the consolidated statement of comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Taxation (continued)***Value added tax (VAT)*

Expenses and assets are recognised net of the amount of VAT, except:

- When VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, VAT is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable; and
- When receivables and payables are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

Fair-value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarised in Note 45.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Inventories**

Inventories are stated at the lower of cost and NRV. Cost comprises direct materials and, where applicable, direct labour costs, cost of land and related infrastructure costs with respect to plots land and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average cost method. NRV represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Development work-in-progress

Development work in progress consists of property being developed principally for sale and is stated at the lower of cost or NRV. Cost comprises all direct costs attributable to the design and construction of the property including direct staff costs. NRV is the estimated selling price in the ordinary course of the business less estimated costs to complete and applicable variable selling expenses.

For single

development projects, the Group allocates the cost of land in proportionate basis of the Gross Floor Area (“GFA”) and for multi-segment development projects, the Group allocates the cost of land in proportionate basis of the residual value of each respective segment of the development project. The residual value of each segment is determined by the management of the Group using recognised valuation methods. These methods comprise the residual value method and the income capitalisation method. The residual value method requires the use of estimates such as future cash flows from assets (comprising of selling and leasing rates, future revenue streams, construction costs and associated professional fees, and financing cost, etc.), targeted internal rate of return and developer’s risk and targeted profit. These estimates are based on local market conditions existing at the end of the reporting period.

In respect of consideration for plots of land which is variable and dependent on actual returns from the development projects, the Group recognises amounts actually paid as part of development work in progress. The costs of the plots of land are subsequently either increased or decreased based on actual payments made and returns on the development projects in line with the arrangement with third parties.

Share-based payments

The Group makes cash-settled share-based payments to eligible employees, for which a liability is recognised for the services acquired. The liability is initially measured at fair value at the grant date and at each reporting date up to and including the settlement date. Changes in fair value, net of any changes in investments held, are recognised in the consolidated statement of profit or loss. The Group does not have any equity-settled share-based payments.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continue****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Discontinued operations and non-current assets held-for-sale**

The Group classifies non-current assets and subsidiaries as held-for-sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and subsidiaries classified as held-for-sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held-for-sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held-for-sale.

Assets and liabilities classified as held-for-sale are presented separately as current items in the consolidated statement of financial position.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held-for-sale, and:

- represents a separate major line of business or geographical area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the consolidated statement of profit or loss.

Employee benefits*Short-term employee benefits*

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Employee benefits (continued)***Defined contribution plan*

Monthly pension contributions are made in respect of UAE National employees, who are covered by the Law No. 2 of 2000. The pension fund is administered by the Government of Abu Dhabi, Finance Department, represented by the Abu Dhabi Retirement Pensions and Benefits Fund. Obligations for contributions to defined contribution plans are expensed as the related service is provided.

Monthly pension contributions are made in respect of other GCC National employees, who are covered by the Circular no. 3 of 2007 issued by the General Authority of Pension and Social Security. The contribution made by the Group is charged to the consolidated statement of profit or loss. The pension contribution is made according to the laws of the respective GCC nation.

Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group currently operates an unfunded scheme for defined benefits in accordance with the applicable provisions of the UAE Federal Labour Law and is based on periods of cumulative service and levels of employees' basic salaries at the end of their employment contract. The Group's net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods discounted to determine present value. Any unrecognised past service costs are deducted.

The calculation of defined benefit obligation is performed periodically by an actuary using the projected unit credit method. When benefits of the plan are improved, the portion of the increased benefit related to past service by employees is recognised in the consolidated statement of profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the consolidated statement of profit or loss. The Group recognises all actuarial gains and losses arising from defined benefit plans in the consolidated statement of other comprehensive income and all expenses related to defined benefit plans within consolidated statement of profit or loss.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Government grants (continued)**

Government grants that are receivable as compensation for expenses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in the consolidated statement of profit or loss in the period in which they become receivable. The benefit of a government loan at a concessional rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at nominal amounts.

Derivative financial instruments

The Group enters into derivative financial instruments to manage exposure to variable interest rate fluctuations. Further details of derivative financial instruments are disclosed in Note 29.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the consolidated statement of profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of recognition in consolidated statement of profit or loss depends on the nature of the hedging relationship.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability. Derivatives are not offset in the consolidated financial statements unless the Group has both a legally enforceable right and intention to offset. The impact of the master netting agreements on the Group's financial position is disclosed in Note 29. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not due to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Hedge accounting

The Group designates derivatives as hedging instruments in respect of foreign currency risk and interest rate risk in fair value hedges, cash flow hedges, or hedges of net investments in foreign operations, as appropriate. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements:

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Hedge accounting (continued)**

- There is an economic relationship between the hedged item and the hedging instrument;
- The effect of credit risk does not dominate the value changes that result from that economic relationship; and
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group adjusts the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.

Cash flow hedges

The effective portion of changes in the fair value of derivatives and other qualifying hedging instruments that are designated and qualify as cash flow hedges is recognised in the consolidated statement of comprehensive income and accumulated under the heading of cash flow hedging reserve, limited to the cumulative change in fair value of the hedged item from inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in the consolidated statement of profit or loss.

Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to the consolidated statement of profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in equity are removed from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability. This transfer does not affect comprehensive income. Furthermore, if the Group expects that some or all of the loss accumulated in the cash flow hedging reserve will not be recovered in the future, that amount is immediately reclassified to the consolidated statement of profit or loss.

The Group discontinues hedge accounting only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria (after rebalancing, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised. The discontinuation is accounted for prospectively. Any gain or loss recognised in the consolidated statement of comprehensive income and accumulated in cash flow hedge reserve at that time remains in equity and is reclassified to the consolidated statement of profit or loss when the forecast transaction occurs. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in the cash flow hedge reserve is reclassified immediately to profit or loss.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

Notes to the consolidated financial statements for the year ended 31 December 2023 (continued)

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Provisions (continued)

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities acquired in a business combination are initially measured at fair value at the acquisition date.

At the end of subsequent reporting periods, such contingent liabilities are measured at the higher of the amount that would be recognised in accordance with IAS 37 and the amount recognised initially less cumulative amount of income recognised in accordance with IFRS 15.

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

Warranties

Provisions for the expected cost of warranty obligations under the terms of the sale of goods are recognised at the date of sale of the relevant products, at the terms of the best estimate of the expenditure required to settle the Group's obligation.

Contingencies

Contingent liabilities are not recognised in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognised in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Current versus non-current classification

The Group presents assets and liabilities in the statement of consolidated financial position based on current / non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months of the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Current versus non-current classification (continued)**

All other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months of the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring to the customer.

The Group recognises revenue from the following major sources:

- Rendering of services i.e., construction contracts, industrial service, laboratory and other services, insurance premium, sale of properties, rental income, management fee income, insurance revenue and income from education services, which is recognised over period of time, and
- Sale of goods i.e., laboratory and hospital management services, revenue from hotel operations and investment income which is recognised at point of time.

Revenue from construction, industrial and dredging contracts

The Group provides construction and dredging activities and associated land reclamation works to its customers. Such contracts are entered into before rendering of services begins. Under the terms of the contracts, the Group has enforceable right to payment for work done. Revenue is therefore recognised over time on a cost-to-cost method based the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. The management consider that this input method is an appropriate measure of the progress towards complete satisfaction of the performance obligations under IFRS 15.

In case of contracts, where revenue is recognised on the basis of surveys of work performed, revenue is measured by applying contractual rates, or the minimum recoverable rates expected, to the actual quantities dredged or the related works performed. Revenue is adjusted subsequently based on final customer approval if rates approved are different from those originally used.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Revenue recognition (continued)***Revenue from construction, industrial and dredging contracts (continued)*

When the outcome of a contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable; and contract costs should be recognised as an expense in the period in which they are incurred.

When it is possible that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Costs of contracts include all direct costs of labour, materials, depreciation of property, plant and equipment and costs of subcontracted works, plus an appropriate portion of construction overheads and general and administrative expenses of the year allocated to construction contracts in progress during the year at a fixed rate of the value of work done on each contract.

Contract assets and liabilities

Amounts relating to contract assets are balances due from customers under construction contracts that arise when the Group receives payments from customers in line with a series of performance related milestones. The Group will previously have recognised a contract asset for any work performed. Any amount previously recognised as a contract asset is reclassified to trade receivables at the point at which it is invoiced to the customer.

Contract costs represents costs incurred on projects for which the Group is required to meet specific contractual obligations such as joint inspections, milestone completion and customer acceptance/handover, prior to billing the customer. Those obligations are expected to progressively be met over time, resulting in a winding down of the balance throughout the remaining contractual period.

The Group has determined that contract assets and liabilities are to be recognised at the performance obligation level and not at the contract level and both contract assets and liabilities are to be presented separately in the consolidated financial statements. The Group classifies its contract assets and liabilities as current and non-current based on the timing and pattern of flow of economic benefits.

Sale of properties and provision of services

Under the terms of the contracts in the UAE and England and Wales, the Group is contractually restricted from redirecting the properties to another customer and has an enforceable right to payment for work done. Therefore, revenue from construction of residential properties in the UAE and England and Wales is recognised over time on a cost-to-cost method, i.e. based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. The Group consider that this input method is an appropriate measure of the progress towards complete satisfaction of these performance obligations under IFRS 15.

In respect of the Group's contracts for development of certain residential properties in Egypt, the Group has assessed that transfer of control happens only at the time of handover of completed units to customers and accordingly the related revenue is recognised at that time.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Revenue recognition (continued)***Laboratory diagnostics distribution*

The Group sells medical equipment and consumables to end-user laboratories across the UAE. Revenue is recognised when control of the goods has transferred, being when goods have been delivered to end-user laboratories location. A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Laboratory and hospital management services

The Group provides certain specialized services like laboratory management services, hospital management services, manpower supply and other maintenance and operational support services. Revenue from such services are recognised as a performance obligation satisfied at a point in time or over the contract period or period of service, as applicable in accordance with the requirements of IFRS 15.

Insurance contracts revenue and insurance commission income

Premiums are recognised as revenue (earned premium) on time-proportion basis over the effective period of policy coverage. The portion of premium received on in-force contracts that relates to unexpired risks at the end of the reporting period is reported as the unearned premium liability.

Insurance commission income is recognised when the policies are written based on the terms and percentages agreed with the reinsurers.

Revenue from hotel operations

Hotel operations represents the sale of hotel rooms, food and beverages, catering and other ancillary services. These are invoiced upon provision of the service or delivery of goods. Revenue is stated net of allowances and rebates.

Management fee income

The Group manages construction of properties under long term contracts with customers, for which it earns a management fee. Such management fee income is recognised over time using the input method to recognise revenue upon the satisfaction of performance obligations. Where the outcome of a contract cannot be estimated reliably, revenue is recognised based on the consideration to which the Group expects to be contractually entitled based on its performance obligations completed up to the reporting date.

Service charges and expenses recoverable from tenants

For investment properties held primarily to earn rental income, the Group enters into lease agreements that fall within the scope of IFRS 16. Such lease agreements generally include common area services (security, maintenance, utilities, health and safety etc.) as well as management and customer care services. The Group has determined that these services constitute distinct non-lease components (distinct from the right-to-use the underlying asset) and are within the scope of IFRS 15.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****2 Material accounting policies (continued)****2.2 Summary of material accounting policies (continued)****Revenue recognition (continued)***Service charges and expenses recoverable from tenants (continued)*

The consideration charged to tenants for these services are separately specified in the lease agreements and invoiced accordingly. The Group applies the time elapsed method to recognise revenue over time for such services. Income arising from cost recharged to tenants is recognised in the period in which the cost can be contractually recovered. The Group records revenue on a gross basis, being the principal controlling the services before transferring them to the customer.

Rental income

Rental income is recognised on a straight-line basis over the term of the lease rental agreement. Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Income from education services

Registration fee is recognised as income when it is received. Tuition fee income is recognised over the period of time over which tuition services are rendered. Tuition fees received in advance are recorded as deferred revenue.

Sale of goods

Revenue from sale of goods is recognised when control of the goods has transferred, being when the goods have been shipped to the customer's specific location (delivery) or at the point the customer purchases the goods at the warehouse or outlet. Following delivery, the customer has full discretion over the manner of distribution and/or utilization and price to sell the goods and has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods.

A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefit will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a timely basis by reference to the principal outstanding and at the interest rate applicable.

Dividend income

Dividend income from investments is recognised when the right to receive payment has been established.

Notes to the consolidated financial statements for the year ended 31 December 2023 (continued)

2 Material accounting policies (continued)

2.2 Summary of material accounting policies (continued)

Foreign currencies

In preparing the financial statements of the Group entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At each reporting date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Nonmonetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in consolidated statement of profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- Exchange differences on transactions entered into to hedge certain foreign currency risks (see below under financial instruments / hedge accounting); and
- Exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur in the foreseeable future (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to the consolidated statement of profit or loss on disposal or partial disposal of the net investment.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated at exchange rates prevailing on the reporting date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a foreign exchange translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in a foreign exchange translation reserve in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in consolidated statement of profit or loss. For all other partial disposals (i.e., partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to the consolidated statement of profit or loss.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in consolidated statement of comprehensive income.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

3 Application of new and revised International Financial Reporting Standards (IFRSs)

3.1 New and revised IFRSs applied with no material effect on the consolidated financial statements

The following new and revised IFRSs, which became effective for annual periods beginning on or after 1 January 2023, have been adopted in these consolidated financial statements. The application of these revised IFRSs has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

IFRS 17 Insurance Contracts (including the June 2020 and December 2021 Amendments to IFRS 17)

The Group has adopted IFRS 17 and the related amendments for the first time in the current year. IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4 Insurance Contracts.

IFRS 17 outlines a general model, which is modified for insurance contracts with direct participation features, described as the variable fee approach. The general model is simplified if certain criteria are met by measuring the liability for remaining coverage using the premium allocation approach. The general model uses current assumptions to estimate the amount, timing and uncertainty of future cash flows and it explicitly measures the cost of that uncertainty. It takes into account market interest rates and the impact of policyholders' options and guarantees.

The Group adopted IFRS 17 retrospectively from 1 January 2023. During the transition on 1 January 2023, the Group identified, recognised, and measured each group of insurance contracts and assets for insurance acquisition cash flows as if IFRS 17 had always applied. Existing balances that would not exist under IFRS 17 were derecognised. The measurement categories under IFRS 4 and the new measurement categories under IFRS 17 for each class of the IFRS 17-line item as of 1 January 2023 were not presented separately as they are not material.

Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements - Disclosure of Accounting Policies

The Group has adopted the amendments to IAS 1 for the first time in the current year. The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

**3 Application of new and revised International Financial Reporting Standards (IFRS)
(continued)**

**3.1 New and revised IFRSs applied with no material effect on the consolidated financial
statements (continued)**

The IASB has also developed guidance and examples to explain and demonstrate the application of the ‘four-step materiality process’ described in IFRS Practice Statement 2.

*Amendments to IAS 12
- Deferred Tax related
to Assets and
Liabilities arising from
a Single Transaction*

The Group has adopted the amendments to IAS 12 for the first time in the current year. The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences. Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting profit nor taxable profit.

Following the amendments to IAS 12, an entity is required to recognise the related deferred tax asset and liability, with the recognition of any deferred tax asset being subject to the recoverability criteria in IAS 12.

*Amendments to IAS 12
Income Taxes -
International Tax
Reform - Pillar Two
Model Rules*

The Group has adopted the amendments to IAS 12 for the first time in the current year. The IASB amends the scope of IAS 12 to clarify that the Standard applies to income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the OECD, including tax law that implements qualified domestic minimum top-up taxes described in those rules.

The amendments introduce a temporary exception to the accounting requirements for deferred taxes in IAS 12, so that an entity would neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

Following the amendments, the Group is required to disclose that it has applied the exception and to disclose separately its current tax expense (income) related to Pillar Two income taxes.

*Amendments to IAS 8
Accounting Policies,
Changes in
Accounting Estimates
and Errors -
Definition of
Accounting Estimates*

The Group has adopted the amendments to IAS 8 for the first time in the current year. The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. The definition of a change in accounting estimates was deleted.

Notes to the consolidated financial statements for the year ended 31 December 2023 (continued)

3 Application of new and revised International Financial Reporting Standards (IFRS) (continued)

3.2 New and revised IFRS in issue but not yet effective

The Group has not yet applied the following new and revised IFRSs that have been issued but are not yet effective:

- Amendments to IAS 1 *Presentation of Financial Statements—Non-current Liabilities with Covenants* (effective from 1 January 2024);
- Amendments to IAS 7 *Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures—Supplier Finance Arrangements* (effective from 1 January 2024);
- Amendment to IFRS 16 *Leases—Lease Liability in a Sale and Leaseback* (effective from 1 January 2024);
- Amendments to IAS 1 *Presentation of Financial Statements—Classification of Liabilities as Current or Non-current* (effective from 1 January 2024);
- IFRS S1 *General Requirements for Disclosure of Sustainability-related Financial Information* (effective from 1 January 2024, subject to adoption by the jurisdiction);
- IFRS S2 *Climate-related Disclosures* (effective from 1 January 2024, subject to adoption by the jurisdiction);
- Amendment to IAS 21—*Lack of Exchangeability* (effective from 1 January 2025);
- Amendments to IFRS 10 *Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (Effective date not yet decided)

There are no other applicable new standards and amendments to published standards or IFRIC interpretations that have been issued that would be expected to have a material impact on the consolidated financial statements of the Group.

4 Critical accounting judgments and key sources of estimation of uncertainty

While applying the accounting policies as stated in Note 2, the management of the Group has made certain judgments, estimates and assumptions that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period that the revision is made, if the revision affects only that period, or in the period of the revision and future periods if it affects both current and future periods.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.1 Critical judgment in applying accounting policies**

The following critical judgments, apart from those involving estimations in Note 4.2 below, have been made in the process of applying the Group's accounting policies.

Determination of performance obligations

With respect to the sale of property, the Group concluded the goods and services transferred in each contract constitute a single performance obligation. In particular, the promised goods and services in contracts for the sale of property under development mainly include design work, procurement of materials and development of the property. Generally, the Group is responsible for all of these goods and services and the overall management of the project. Although these goods and services are capable of being distinct, the Group accounts for them as a single performance obligation because they are not distinct in the context of the contract. The Group uses those goods and services as inputs and provides a significant service of integrating them into a combined output, i.e., the completed property for which the customer has contracted.

Timing of satisfaction of performance obligations

The Group is required to assess each of its contracts with customers to determine whether performance obligations are satisfied over time or at a point in time in order to determine the appropriate method for recognising revenue. Accordingly, the Group has evaluated the timing of revenue recognition on the sale of properties based on a careful analysis of the rights and obligations under the terms of the contract and legal advice from the Group's legal counsel.

The majority of the Group's contracts relating to the sale of completed property are recognised at a point in time when control transfers. For unconditional exchanges of contracts, control is generally expected to transfer to the customer together with the legal title. For conditional exchanges, this is expected to take place when all the significant conditions are satisfied.

For contracts relating to the sale of property under development in the UAE and England, the Group has generally concluded that the overtime criteria are met and, therefore, recognises revenue over time. These are contracts either for property sold to one customer for the entire land and building or for a multi-unit property. The Group has considered the factors contained in the contracts for the sale of property and concluded that the control of the above-mentioned property(s) is transferred to the customer over time because:

- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. That is, the Group has considered various factors that indicate that the customer controls the part-constructed property as it is being constructed.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.1 Critical judgment in applying accounting policies (continued)***Timing of satisfaction of performance obligations (continued)*

- The Group's performance does not create an asset with alternative use. Furthermore, the Group has an enforceable right to payment for performance completed to date. It has considered the factors that indicate that it is restricted (contractually or practically) from readily directing the property under development for another use during its development. In addition, the Group is, at all times, entitled to an amount that at least compensates it for performances for performance completed to date (usually costs incurred to date plus a reasonable profit margin). In making this determination, the Group has carefully considered the contractual terms as well as any legislation or legal precedent that could supplement or override those contractual terms.

For contracts relating to the sale of property under development in Egypt, the Group has generally concluded that the overtime criteria are not met and, therefore, recognises revenue at a point in time.

Where contracts are entered into for construction (to construct an asset for the customer), the Group has assessed that based on the contracts entered into with customers and the provisions of relevant laws and regulations, the Group recognises revenue over time because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.

The Group has determined that the input method is the best method for measuring progress for these contracts because there is a direct relationship between the costs incurred by the Group and the transfer of goods and services to the customer.

Where contracts are entered into to provide services (property management and facility management), the Group has assessed that based on the contracts entered into with customers and the provisions of relevant laws and regulations, the Group recognises revenue over time because the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs.

Where the above criteria are not met, revenue is recognised at a point in time. Where revenue is recognised at a point of time, the Group assesses each contract with customers to determine when the performance obligation of the Group under the contract is satisfied.

Significant increase in credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased since initial recognition. IFRS 9 does not define what constitutes an increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.1 Critical judgment in applying accounting policies (continued)***Classification of properties*

In the process of classifying properties, the Group makes judgments. Judgment is needed to determine whether a property qualifies as an investment property, property plant and equipment and / or property held for resale. The Group develops criteria so that it can exercise that judgment consistently in accordance with the definitions of those asset categories. In making its judgment, the Group considers the detailed criteria and related guidance for the classification of properties as set out in IAS 2, IAS 16 and IAS 40, in particular, the intended usage of property at the reporting date.

Classification and measurement of financial assets (Business model assessment)

Classification and measurement of financial assets depends on the results of the sole payments of principal and interest (SPPI) and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or FVTOCI that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objectives of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if not, whether a prospective change to the classification of those assets is needed.

Determining whether unsigned (verbal) agreements meet the definition of contract under IFRS 15

Certain projects in the UAE or overseas, are executed on the basis of verbally agreed terms (including estimates of total project cost and timelines) in line with the Group's historical business practice. Such unsigned verbal agreements may meet the definition of a 'contract with customer' under IFRS 15 on the basis of external legal opinions. In addition, under Article 132 of the UAE Civil code and under the Supreme Administrative Court Ruling in Case no. 134 of 42 Judicial Year dated 22 July 1997 a contract can be oral or written and a contract can also result from acts which demonstrate the presence of mutual consent between the relevant parties.

Contract assets represent amounts relating to work performed which is yet to be billed to customers for signed and unsigned contracts. Judgement is applied to determine the amounts of revenue and contract assets recognised and recoverability related to unsigned contracts. These judgments are reviewed periodically, and adjustments are made accordingly any changes thereon may have an impact on the amount of revenue and contract assets recognized in these consolidated financial statements. Contract assets for unsigned contracts as at 31 December 2023 are AED 822 million (2022: AED 621 million).

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.1 Critical judgment in applying accounting policies (continued)***The ultimate liability arising from claims made under insurance contracts*

Estimates have to be made both for the expected ultimate cost of claims reported at the reporting date but not approved and for the expected ultimate cost of claims incurred but not yet reported at the reporting date (IBNR). It can take a significant period of time before the ultimate claims cost can be established with certainty.

The ultimate cost of claims incurred but not reported and claims reported but not approved (together referred to as “outstanding claims”) is estimated by a related party and reviewed by an independent qualified consultant using the chain ladder actuarial techniques. The main assumption underlying those techniques are that the Group’s past claims development experience which can be used to project future claims development and hence ultimate claims cost.

The carrying value at the reporting date of claims incurred but not reported and claims reported but not approved (net of related reinsurance receivable) is AED Nil (2022: AED 1,019,789 thousand).

Determining the lease term

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Joint arrangements

For assessing joint control, the Group considers the contractual agreement of sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. For the purpose of assessing whether a joint arrangement is a joint venture or joint operation, the Group considers whether it has joint rights to the net assets of the arrangement, in which case these are treated as joint ventures, or rights to the assets and obligations for the liabilities relating to the arrangement, in which case these are treated as joint operations.

Hybrid equity instruments

Judgment is applied to determine whether a financial instrument, or its component parts, on initial recognition should be classified as a financial liability, a financial asset or an equity instrument in accordance with their respective definitions and the substance of the contractual arrangement based on guidance as set out in IAS 32. Based on the criteria, the Group concluded that certain hybrid equity instruments are a part of equity.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.1 Critical judgment in applying accounting policies (continued)***Control over Aldar Properties PJSC (“Aldar”)*

Note 42 explains that the Group has attained control of Aldar through a business combination and classified it as a subsidiary of the Group, notwithstanding its ownership of less than half of the outstanding share capital. The Group determined that it controls Aldar based on the following criteria:

- a) the Group has appointed four out of the total seven members of Aldar’s board (“Board”) with effect from 11 April 2022;
- b) resolutions of the Board and therefore decisions, are issued based on a simple majority, thus giving the Group outright control over decision making by the Board;
- c) in accordance with Aldar’s articles of association, the Board is fully empowered to manage and carry out all acts and transactions on behalf of the entity, including supervision of Aldar's business affairs, ensuring the effectiveness of governance, overseeing management, as well as appointing and removing Aldar’s senior management; and
- d) the Group is the single largest shareholder of Aldar with almost 32% of the outstanding share capital.

In making this judgement, the Group considered the absolute size of its holding in Aldar, ability of other shareholders to limit its nominations to the Board, and the Group’s majority representation on the Board. Therefore, based on the above factors, the Group has clearly established control over Aldar and accordingly its results have been included in these consolidated financial statements.

Assessment of significant influence over OCI Clean Fuel Limited (‘OCI’)

The Group holds only 11% in OCI but has right to appoint one out of seven directors to the board of directors of OCI. To assess whether or not the Group exercises significant influence over OCI, the Group considered the absolute size of the holding in OCI, business objectives and the ability of the Group’s representative to exercise significant influence. Presently, the Group concluded its ability to exercise influence over the investee is not significant and accordingly is classified as an investment at fair value through other comprehensive income.

Principal versus agent consideration

The Group’s performance obligation in one of the subsidiaries is to arrange for the provision of the specified goods or services on behalf of another party. The Group does not control the specified goods or services provided by another party until those goods or services are transferred to the party. When the Group satisfies a performance obligation, the Group recognises revenue to the extent of management fee in exchange for arranging for the specified goods or services.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.1 Critical judgment in applying accounting policies (continued)***Principal versus agent consideration (continued)*

The Group's primary obligation is to arrange for development services for development projects, and accordingly, the Group acts as agent on those development projects since:

- the Group does not control the specified goods or services provided by other parties before the services are transferred to the customer;
- primary responsibility for the fulfilling the promise does not rest with the Group;
- the Group does not bear any inventory risk since the ownership of the infrastructure, as set out in the management contracts;
- the Group does not have the price risk on the development contracts; and
- customers retains the right to remove the Group as manager for the development projects based on its convenience without default from the Group.

Judgment related to derecognition of Pure Health Holding ('PHH')

As disclosed in Note 43, on the loss of control over PHH, the Group derecognised its carrying value of assets and liabilities. The results of the operations of PHH were not segregated on the face of the consolidated statement of profit or loss, considering there is no disposal of shares of PHH and absolute holding remains the same before and after the loss of control, and the Group will be able to recover investment principally through continuing use. Accordingly, the transaction was not considered as a discontinued operation under IFRS 5 Non-Current Assets Held for Sale and Discontinued Operations.

4.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year, are explained below:

Fair valuation of retained interest on loss of control

As disclosed in Note 43, the Group fair valued its retained interest and recognised it as an investment in a joint venture and derecognised its investment as a subsidiary on the loss of control of PHH. In estimating the fair value, the Group engaged a third-party valuation expert to perform the valuation. The underlying assumptions and estimates in assessing the fair value of retained interest are mentioned in Note 43.

Discount rate used for initial measurement of lease liability

The Group, as a lessee, measures a lease liability at the present value of the unpaid lease payments at the commencement date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If not on initial recognition of the lease, the Group uses its incremental borrowing rate. Incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with similar security, the funds necessary to obtain an asset of a similar value to the right-of-use assets in a similar economic environment.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.2 Key sources of estimation uncertainty (continued)***Percentage-of-completion*

The Group uses the input method to recognise revenue for the efforts or inputs towards satisfaction of a performance obligation in accounting for its construction contracts. This is done by measuring the costs incurred to date relative to the total expected costs to be incurred (forecast final costs).

At each reporting date, the Group is required to estimate the stage of completion and costs necessary to complete its construction contracts. These estimates require the Group to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date. These estimates also include the cost of potential claims by subcontractors and the cost of meeting outstanding contractual obligations to customers. Effects of any revision to these estimates are reflected when the estimates are revised. Factors such as delays in expected completion date, changes in the scope of work, changes in material prices, changes in labour and other costs, are included in the expected construction cost estimates.

Useful lives and residual values of property, plant and equipment, intangible assets, and investment properties

Management reviews the estimated useful lives and residual values of property and equipment, intangible asset and investment properties at the end of each annual reporting period in accordance with *IAS 16 Property, Plant and Equipment*, *IAS 38 Intangible Assets* *IAS 40 Investment properties*. Management determined that current year expectations do not differ from previous estimates based on its review.

Impairment of investment in associates and joint ventures

In testing for impairment, the Group evaluates the specific investee's profitability, liquidity, solvency and ability to generate operating cash flows for the foreseeable future. Any shortfall between the estimated recoverable amount and the carrying value of investment is recognised as an expense in the consolidated statement of profit or loss.

Fair value measurements and valuation processes

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group either engage third party qualified valuers to perform the valuation or use internal specialist to fair value the assets and liabilities. The valuations of private equity investments, contingent consideration in business combinations and nonderivative financial assets held for trading are particularly sensitive to changes in one or more unobservable inputs which are considered reasonably possible within the next financial year. Further information on the carrying amounts of these assets and the sensitivity of those amounts to changes in unobservable inputs are provided in Note 45.

Derivative financial instruments

The fair values of derivative financial instruments measured at fair value are generally obtained by reference to quoted market prices, discounted cash flow models and recognised pricing models as appropriate. When independent prices are not available, fair values are determined by using valuation techniques which refer to observable market data. These include comparison with similar instruments where market observable prices exist, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.2 Key sources of estimation uncertainty (continued)***Calculation of ECL*

When measuring ECL the Group uses reasonable and supportable forward-looking information and estimates, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL and is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Estimation of NRV for inventories and development work-in-progress

Properties classified as development work-in-progress are stated at the lower of cost or NRV. NRV is assessed with reference to sales prices, costs of completion, development plans and market conditions existing at the end of the reporting period. For certain properties, NRV is determined by the Group having taken suitable external advice and in the light of recent market transactions, where available.

The determination of NRV of plots of land held-for-sale is based on external valuations using various valuation methodologies and techniques that take into account property-specific information such as forecast selling prices, site planning (including planning consent), build costs, cost recoveries, sales rates (per square meter) and discount rates etc., all of which contain an element of judgement and uncertainty.

Forecasted selling prices have inherent uncertainty due to changes in market conditions. Forecasted building costs can vary with market conditions and may also be incorrectly estimated due to changes in site planning, style of build or unforeseen circumstances arising during construction.

NRV for completed properties is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Group, based on comparable transactions in the same market segment.

NRV in respect of development work-in-progress is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete the development and the estimated costs necessary to make the sale, taking into account the time value of money.

Allowance for slow moving and obsolete inventories

When inventories become old or obsolete, an estimate is made of their NRV. Inventory items are categorised based on their movements during the year, their physical condition and their expected future use, and accordingly an allowance for impairment is estimated. Revisions to the allowance for slow moving inventories would be required if the outcome of these indicative factors differ from earlier estimates.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****4 Critical accounting judgments and key sources of estimation of uncertainty (continued)****4.2 Key sources of estimation uncertainty (continued)***Impairment of goodwill*

Determining whether goodwill is impaired requires an estimation of the value-in-use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value which necessarily involves making numerous estimates and assumptions regarding revenue growth, operating margins, appropriate discount rates and working capital requirements. These estimates will likely differ from future actual results of operations and cash flows, and it is possible that these differences could be material.

The Group has conducted a sensitivity analysis of the impairment test by changing key assumptions used to determine the recoverable amount of cash-generating units to which goodwill is allocated. It concluded that any reasonably possible change in the key assumptions on which the recoverable amount of Goodwill is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the related cash-generating units.

Impairment of non-financial assets

Property, plant and equipment, right of use assets, biological assets and investment property are assessed for impairment based on assessment of cash flows on individual cash generating units when there is indication of impairment. Cash flows are determined based on contractual agreements and estimations over the useful life of the assets and discounted using a range of discounting rates representing the rate of return on such cash generating units. The net present values are compared to the carrying amounts to assess any probable impairment.

Legal claims and contingencies

When assessing the possible outcomes of legal claims and contingencies, the Group gathers all available facts, and seeks to ascertain the likely outcome using opinions of legal counsel where appropriate. The opinion of legal counsel is based on their professional judgment, interpretation of facts, current stage of proceedings and legal experience accumulated with respect to similar matters. As the results of the claims may ultimately be determined by courts or otherwise settled, they may be different from the Group's estimates.

Uncertain tax positions

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences may arise between the actual results and adjustments to tax income and expense already recorded. Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Assessing the recoverability of deferred income tax assets requires the Group to make assumptions related to expectations of future taxable income. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Group to realise the net deferred tax assets recorded at the reporting date could be impacted.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

4 Critical accounting judgments and key sources of estimation of uncertainty (continued)

4.2 Key sources of estimation uncertainty (continued)

Employee end of service benefits

The cost and the present value of the defined benefit plans obligation are generally determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and voluntary termination rate. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All significant assumptions and assets are reviewed at each reporting date.

Fair value of identifiable assets and liabilities

As stated in Note 42, the identifiable assets acquired, and the liabilities assumed in business combination are recognised at their fair value. In estimating the fair value of an asset or a liability, the Group engaged third party valuation specialists to perform the valuation. The underlying assumptions and estimates in assessing the fair values are as detailed within Note 6 and 7.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

5 Property, plant and equipment (continued)

The Group owns plots of land in the UAE and overseas on which assets are being constructed and / or operated.

Capital work-in-progress includes the costs incurred on construction of labour camps, buildings and other major assets, which will be capitalised to the respective asset categories on completion.

During the year, the Group carried out a review of the recoverable amount of its hotel properties due to changes in the estimates used to determine the hotel properties' recoverable amount. There was no reversal of impairment loss which has been recorded in the consolidated statement of profit or loss (2022: AED (312,362 thousand)).

Depreciation for the year has been allocated as follows:

	2023	2022
	AED'000	AED'000
Direct costs (Note 33)	739,065	786,388
General, administrative and selling expenses (Note 34)	459,546	369,662
	1,198,611	1,156,050

Assets pledged as security

Freehold land, buildings, vehicles, vessels and dredgers with a carrying amount of AED 2,771 million (2022: AED 5,825 million) have been pledged to secure bank borrowings of the Group (Note 27).

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

6 Intangible assets (continued)

Customer related intangibles and brand include intangible assets acquired through business combinations. The customer related intangibles have useful life of 2 to 20 years. The major assumptions used in the calculation include discount rate in the range of 5.8% to 20% and growth rate of up to 1.9%.

Amortisation for the year has been allocated as follows:

	2023	2022
	AED'000	AED'000
Direct costs (Note 33)	102,089	105,465
General, administrative and selling expenses (Note 34)	100,301	131,521
	202,390	236,986

7 Goodwill

	2023	2022
	AED'000	AED'000
At 1 January	4,007,444	451,672
Assets arising on acquisition of subsidiaries (Note 42)	1,373,751	3,573,733
Eliminated on derecognition of a subsidiary (Note 43)	(1,342,106)	-
Foreign currency translation differences	(10,231)	(17,696)
Other movements	(2,867)	(265)
At 31 December	4,025,991	4,007,444

For impairment testing goodwill acquired through business combination is allocated to cash generating units ('CGU') as follows:

	<u>Real estate</u>	<u>Healthcare</u>	<u>Hospitality</u>	<u>Others</u>	<u>Total</u>
	<u>AED'000</u>	<u>AED'000</u>	<u>AED'000</u>	<u>AED'000</u>	<u>AED'000</u>
At 31 December 2023					
Goodwill	2,149,367	-	760,792	1,115,832	4,025,991
At 31 December 2022					
Goodwill	2,159,598	1,341,841	451,672	54,333	4,007,444

The recoverable amounts have been computed based on value in use approach derived from financial projections made for a 5–10-year period plus a terminal value thereafter. The methodology used for the estimation of fair value was discounted cash flows.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

7 Goodwill (continued)

The following key assumptions were used in the discounted cash flow model:

	Real estate		Healthcare		Hospitality		Others	
	2023	2022	2023	2022	2023	2022	2023	2022
Terminal growth rate	2%	2%	-	1.1 - 2%	2 - 3%	-	2 - 4.2%	2 - 3%
Discount rate	14%	15%	-	9.7 - 10.8%	7.6 - 16.7%	-	9.7 - 27.5%	10%

At 31 December 2023	1,393,377	21,874,766	767,907	24,036,050
At 31 December 2022	623,715	22,324,005	114,763	23,062,483

Depreciation for the year has been allocated as follows:

	2023 AED'000	2022 AED'000
Direct costs (Note 33)	683,935	487,954
General, administrative and selling expenses (Note 34)	150	149
	684,085	488,103

Investment properties includes plots of land as well as commercial and residential properties in the United Arab Emirates, Iraq, Egypt, and Seychelles.

During the year, the Group acquired certain properties through business combinations, which were accounted for as asset acquisitions since substantially all assets were concentrated in a single identifiable asset.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

8 Investment properties (continued)

A description of the valuation techniques used and key inputs to the valuations of investment properties as at 31 December 2023 and 2022 is as follows:

Property	Valuation technique	Significant inputs	Sensitivity
Plots of land	Residual method	Sales rate and discount rate	Changes in micro and macro-economic conditions would cause a significant impact.
Completed properties	Income capitalisation method, discounted cashflow	Capitalisation approach, annual market rent, discount rate	Changes in multiple inputs could result in a significant impact on the value.
Property under construction	Income capitalisation method, discounted cashflow	Capitalisation of construction costs incurred	Changes in multiple inputs could result in a significant impact on the value.

Details of rental income relating to investment properties are as follows:

	2023	2022
	AED'000	AED'000
Rental income	2,180,487	1,527,938
Direct operating costs	833,568	510,822

Assets pledged as security

Investment properties with a carrying amount of AED 1,333 million (2022: AED 3,102 million) have been pledged to secure bank borrowings of the Group (Note 27).

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

9 Right-of-use assets and lease liabilities

Right-of-use assets

The Group leases several assets, with approximate lease terms ranging from 2 - 50 years (2022: 2 to 50 years).

Set out below are the carrying amounts and movement of right-of-use assets:

	Land AED '000	Building AED '000	Machinery AED '000	Total AED '000
Cost				
At 1 January 2022	472,319	199,776	-	672,095

Eliminated on disposal of subsidiaries (Note 38)	-	(1,133)
Foreign currency translation differences	272	(938)
Payment of lease liabilities	(135,975)	(126,374)
	<hr/>	<hr/>
At 31 December	1,530,366	2,507,887
	<hr/> <hr/>	<hr/> <hr/>

*Effective 2 May 2023, ADMO, a subsidiary of the Group acquired a 95% equity interest in Monterock Investments Nedafushi Maldives Private Limited (“MNIM”), for a consideration of AED 26.35 million. MNIM is a limited liability company, registered and incorporated in Maldives and is engaged in hotel and restaurant management. The Group has control over MNIM and accordingly it has been consolidated. The acquisition also resulted in recognition of AED 1,387 thousand of non-controlling interest and recognition of AED 56,947 thousand of right-of-use assets. In accordance with the requirements of IFRS 3 Business Combinations, it was accounted for as an asset acquisition since substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset.

**Numbers are presented net of elimination at the group level.

Lease liabilities are presented in the consolidated statement of financial position as follows:

	2023 AED '000	2022 AED '000
Amounts due for settlement within 12 months	102,679	141,989
Amounts due for settlement after 12 months	1,427,687	2,365,898
	<hr/>	<hr/>
	1,530,366	2,507,887
	<hr/> <hr/>	<hr/> <hr/>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

10 Investment in associates and joint ventures

Investment in associates and joint ventures are classified in the consolidated statement of financial position as follows:

	2023 AED '000	2022 AED '000
Investment in associates	17,103,990	3,942,867
Investment in joint ventures	1,060,165	771,409
	<u>18,164,155</u>	<u>4,714,276</u>

Share of results of associates and joint ventures are classified in consolidated statement of profit or loss:

	2023 AED '000	2022 AED '000
Investment in associates	71,347	(176,114)
Investment in joint ventures	188,646	(191,797)
	<u>259,993</u>	<u>(367,911)</u>

The movement in investment in associates is as follows:

	2023 AED '000	2022 AED '000
At 1 January	3,942,867	11,617,762
Additions	1,137,099	868,585
Assets arising on acquisition of subsidiaries (Note 42)	309,569	69,365
Transfers from property, plant, and equipment (Note 5)	-	23,637
Dividends received	(43,505)	(22,324)
Share of other comprehensive loss	70	(24,579)
Foreign exchange translation difference	2,552	(105,323)
Share of results	71,347	(176,114)
Share of results for the year from asset of the group held-for-sale	46,879	10,356
Partial disposal during the year	(15,914)	(381,393)
Asset of the group classified as held-for-sale (Note 38)	(626,061)	-
Transfer of an investment on loss of joint control	12,184,858	-
Increase in fair value of an associate on acquisition (a)	100,080	-
Derecognition of investment in an associate (b)	-	(9,483,875)
Increase in equity (c)	-	1,598,346
Gain arising on remeasurement (d) and (Note 10)	-	116,430
Reduction in investment in an associate (e)	-	(32,000)
Other movements (f)	(5,851)	(136,006)
At 31 December	<u>17,103,990</u>	<u>3,942,867</u>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

10 Investment in associates and joint ventures (continued)

- a) During the year, the Group acquired 36.39% of National Corporation for Tourism and Hotels ('NCTH') for a purchase consideration of AED 730 million which resulted in a gain of AED 100 million recorded in the consolidated financial statements on acquisition based on the finalisation of purchase price allocation ('PPA') exercise.

NCTH shares are listed on ADX with its fair value based on the quoted price as at 31 December 2023 being AED 772 million (2022: Nil).

- b) Note 42 explains how the Group's interest in Aldar previously treated as an investment in an associate was de-recognised and instead was consolidated in 2022 as a subsidiary under IFRS 10. The gain on derecognition of this investment is recognised in the consolidated statement of profit or loss as at 31 December 2022 as follows:

		2022 AED '000
Fair value of the investment on derecognition		12,104,510
Carrying value of the investment		(9,483,875)
		<hr/>
Gain on derecognition	A	2,620,635
		<hr/> <hr/>

- c) In 2022, Q Holding PSC ("Q Holding") acquired Reem Investments PJSC ("Reem") and issued new shares to the shareholders of Reem at a premium. This resulted in an increase in the Group's share of equity of Q Holding and diluted the Group's ownership interest in Q Holding from 25.24% to 20.61% but remained an associate. The gain on the partial disposal of investment in Q Holding on dilution of ownership interest is recognised on the consolidated statement of profit or loss as at 31 December 2022 as follows:

		2022 AED '000
Increase in Q Holding's equity		1,598,346
Carrying value of the investment on dilution		(339,081)
		<hr/>
Gain on disposal	B	1,259,265
		<hr/> <hr/>
	A+B	3,879,900
		<hr/> <hr/>

Q Holding shares are listed on ADX with its fair value based on the quoted price as at 31 December 2023 being AED 4,374 million (2022: AED 5,701 million).

- d) The Group has incorporated an entity which involved an in-kind contribution of some of its property, plant and equipment, employees and revenue contracts. The Group disposed 51% of its interest in the entity resulting in a gain of AED 237.6 million recognised in the consolidated statement of profit and loss. The Group retained a 49% interest in the entity, which is classified as an associate and was initially recognised at a cost of AED 23.6 million. Subsequently, the interest was remeasured at fair value, resulting in a gain of AED 116.4 million for the year ended 31 December 2023.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

10 Investment in associates and joint ventures (continued)

- e) In 2023, the share capital of an associate was reduced, consequently, the Group received AED 32 million which was recognised as reduction the Group's interest in the associate.
- f) In 2022, the Group performed an impairment review of an associate and recorded an impairment of AED 136 million.

The latest available financial information in respect of the Group's associates is summarised below:

10 Investment in associates and joint ventures (continued)

- a) On 26 October 2023, the shareholders of Pure Health Holding PJSC ('Purehealth') approved to change the legal status of Purehealth from limited liability company to public joint stock company. On 20 December 2023, the Purehealth shares were listed on Abu Dhabi Exchange ('ADX'), as a result the conditions for maintaining joint control, as originally stipulated in shareholders' agreement are no longer applicable. The Group has reassessed its investment based on its active participation on the board of directors and concluded that it possesses significant influence and accordingly reclassified its investment from investment in a joint venture to investment in an associate on 20 December 2023.

On listing on ADX, Purehealth has issued new shares, which resulted in increase in the equity of Purehealth and diluted the Group's ownership interest in Purehealth from 38.95% to 35.06%. The gain on the partial disposal of investment in Purehealth on dilution of ownership interest is recognized on the consolidated statement of profit or loss as at 31 December 2023 as follows:

	2023
	AED '000
Increase in Purehealth's equity	1,268,622
Carrying value of the investment on dilution	(1,212,915)
	<hr/>
Gain on disposal	55,707
	<hr/> <hr/>

Purehealth shares are listed on ADX with its fair value based on the quoted price as at 31 December 2023 being AED 22,222 million (2022: Nil).

The financial information in respect of the Group's interest in joint ventures are summarised below:

13 Contract assets

	2023	2022
	AED '000	AED '000
<i>Contract assets</i>		
Amounts due from customer – third parties	7,678,445	4,267,962
Amounts due from customers – related parties (Note 18)	425,859	953,512
Less: allowance for ECL	(152,062)	(81,873)
	<hr/>	<hr/>
	7,952,242	5,139,601
Contract costs	983,903	1,652,591
Reinsurance contract assets (Note 30)	-	394,127
	<hr/>	<hr/>
At 31 December	8,936,145	7,186,319
	<hr/> <hr/>	<hr/> <hr/>

At 31 December, allocation of total contract assets into current and non-current as follows:

	2023	2022
	AED '000	AED '000
Current	8,936,145	7,186,319
	<hr/> <hr/>	<hr/> <hr/>

The Group measures the ECL allowance on amounts due from customers at an amount equal to lifetime ECL, taking into account the historical default experience and the future prospects of the respective industries.

The following table shows the movement in lifetime ECL that has been recognised for contract assets in accordance with the simplified approach set out in IFRS 9:

	2023	2022
	AED '000	AED '000
At 1 January 2021	81,873	96,336
Assets arising on acquisition of subsidiaries (Note 42)	2,000	-
Charge / (reversal) during the year	68,189	(14,463)
	<hr/>	<hr/>
At 31 December	152,062	81,873
	<hr/> <hr/>	<hr/> <hr/>

There has not been any significant change in the gross amounts of contract assets that has affected the estimation of ECL.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

13 Contract assets (continued)

The following table details the risk profile of amounts due from customers based on the Group's provision matrix. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Group's different customer base.

	2023	2022
31 December		
ECL rate	1.88%	1.57%
Estimated total gross carrying amount at default – AED '000	8,104,304	5,221,474
Lifetime ECL – AED '000	152,062	81,873

14 Taxation

	2023 AED '000	2022 AED '000
Income tax		
Current year	118,574	116,937
Reversal of prior year provisions relating to foreign operations	(11,397)	(10,027)
	107,177	106,910
Deferred tax		
Origination and reversal of temporary differences	523,686	(38,378)
	630,863	68,532

The average rate of income tax applied on taxable profit ranges from 10% to 33%. The charge for the year reconciled to profit before tax is as follows:

	2023 AED '000	2022 AED '000

	2023 AED '000	2022 AED '000
Deferred tax assets (Note 15)	114,300	75,590
Deferred tax liabilities	(580,112)	(88)
	<hr/> (465,812) <hr/>	<hr/> 75,502 <hr/>

The net deferred tax liability position comprises of the following temporary differences:

	2023 AED '000	2022 AED '000
Goodwill	193,973	-
Intangible assets	227,174	-
Others	158,965	88
	<hr/> 580,112 <hr/>	<hr/> 88 <hr/>

Corporate Income Tax

On 3 October 2022, the United Arab Emirates (UAE) Ministry of Finance (“MoF”) issued Federal Decree Law No 47 of 2022 on the Taxation of Corporations and Businesses, Corporate Tax Law (“CT Law”) to implement a new CT regime in the UAE. The new CT regime is applicable for accounting periods beginning on or after 1 June 2023.

As per Cabinet of Ministers Decision No. 116 of 2022 UAE businesses will be subject to a 9% CT rate, however a rate of 0% could be applied to taxable income not exceeding a particular threshold or to certain types of entities, to be prescribed by way of a Cabinet Decision.

Furthermore, the UAE as a member of the OECD BEPS Inclusive Framework is committed to adopt Pillar Two rules (OECD Model Rules) in domestic legislation. OECD Pillar Two rules will apply to Multinational Enterprises (MNEs) such as the Group with consolidated revenues above EUR 750 million. The Pillar Two rules have not been yet adopted in the UAE or any foreign jurisdiction where the Group has presence.

Due to the uncertainties and on-going developments, the Group is not able to provide a reasonable estimation at the reporting date and is continuing to assess the impact of the Pillar Two income taxes legislation on its future financial performance. The Group is currently assessing the impact of these laws and regulations and will apply the requirements as further guidance is provided by the relevant tax authorities, which will be applicable for the Group for the financial year beginning 1 January 2024.

	<hr/>	<hr/>
Net other receivables	2,950,260	3,327,557
Subsidy receivable from Government	-	961,380
Government funded programs receivables	-	1,740,078
Prepayments and deposits	1,106,017	1,063,544
Derivative financial instruments (Note 29)	32,913	248,792
Deferred tax assets (Note 14)	114,300	75,590
	<hr/>	<hr/>
	18,525,746	21,500,070
	<hr/> <hr/>	<hr/> <hr/>

Allocation of total trade and other receivables into current and non-current is as follows:

	2023	2022
	AED '000	AED '000
Non-current	1,083,539	832,929
Current	17,442,207	20,667,141
	<hr/>	<hr/>
	18,525,746	21,500,070
	<hr/> <hr/>	<hr/> <hr/>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

15 Trade and other receivables (continued)

The average credit period on sale of goods and rendering of services is 30 to 90 days. Before accepting new customers, the Group generally assesses their credit quality.

Out of the trade receivables balance at the end of the reporting year, AED 2,284 million (2022: AED 2,244 million) representing 12 % (2022: 23%) of trade receivables are amounts due from five (2022: five) major customers of the Group.

The following table shows the movement in lifetime ECL that has been recognised for trade receivables, retention receivables and advances to suppliers in accordance with the simplified approach set out in IFRS 9.

	Collectively assessed AED '000	Individually assessed AED '000	Total AED '000
<i>Trade receivables</i>			
At 1 January 2022	123,452	92,587	216,039
Acquired in common control business combinations	260,487	-	260,487

At 31 December 2023	-	15,864	15,864

The following table details the risk profile of amounts due from customers based on the Group's provision matrix. The Group's historical credit loss experience does not show significantly different loss patterns for different customer segments.

	Collective and individual assessment					Total
	Not past due	31-60 days	61-90 days	91-120 days	> 120 days	
31 December 2023						
ECL rate	0.4%	2%	1%	2%	25%	5%
Estimated total gross carrying amount at default (AED '000)	6,294,180	1,104,643	633,576	286,720	1,565,635	9,884,754
Lifetime ECL (AED '000)	27,909	25,543	6,755	6,712	388,239	455,158
31 December 2022						
ECL rate	0.6%	1%	5%	5%	20%	6%
Estimated total gross carrying amount at default (AED '000)	5,792,429	712,858	542,074	600,113	2,533,897	10,181,371
Lifetime ECL (AED '000)	32,408	9,962	28,029	30,409	502,693	603,501

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

16 Inventories

	2023	2022
	AED '000	AED '000
Land plots held-for-sale	10,760,105	8,115,029
Completed properties	548,714	940,240
Goods held-for-trading and finished goods	35,002	1,002,106
Materials, parts, and consumables	1,014,320	774,721
	12,358,141	10,832,096
Less: allowance for obsolescence	(67,226)	(454,371)
	12,290,915	10,377,725

During 2023, AED 8,721 million (2022: AED 7,293 million) was recognised as an expense for inventories carried at net realisable value ('NRV'). This is recognised in cost of sales.

Land plots held-for-sale with a carrying amount of AED Nil (2022: AED 538 million) have been pledged to secure bank borrowings of the Group (Note 27).

The determination of NRV of plots of land held-for-sale is based on external valuations using various valuation methodologies and techniques. Plots of land held-for-sale are located in United Arab Emirates.

During 2023, borrowing costs included in the cost of land held-for-sale amounted to AED 145 million which arose on the unwinding of liability calculated by applying a capitalisation rate of 5.50% to expenditure on such assets.

The movement in the allowance for inventories obsolescence is as follows:

	2023	2022
	AED '000	AED '000
At 1 January	454,371	62,747
Acquired in common control business combinations	-	400,303
Charge for the year, net of reversals (Note 34)	50,048	6,168
Eliminated on derecognition of a subsidiary	(395,596)	-
Write-off	(41,597)	(14,847)
	67,226	454,371

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

16 Inventories (continued)

Charge for the year has been allocated as follows:

	2023	2022
	AED'000	AED'000
Direct costs (Note 33)	264	-
General, administrative and selling expenses (Note 34)	49,784	6,168
	50,048	6,168

17 Development work-in-progress

Development work-in-progress includes lands in the United Arab Emirates which the Group intends to develop, disaggregate and sell as individual smaller properties. Movement during the year is as follows:

	2023	2022
	AED '000	AED '000
At 1 January	4,139,938	147,012
Assets arising on acquisition of subsidiaries (Note 42)	1,152,558	3,673,726
Additions	4,851,176	2,419,362
Transfer from investment properties (Note 8)	-	416,450
Transfer to investment properties (Note 8)	(316,531)	-
Transferred from inventories	837,672	220,341
Write-down	(133,216)	(37,714)
Impairment	(480)	(73,333)
Foreign exchange translation differences	(443,680)	(824,046)
Recognised in direct costs of properties sold	(3,472,466)	(1,801,860)
At 31 December	6,614,971	4,139,938

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

18 Related party balances and transactions

Related parties are the shareholders, key management and the entities in which the shareholders have the ability to control or exercise significant influence in operating and financial decisions. The Group maintains balances with related parties as follows that arise from transactions at rates agreed between the parties.

	2023 AED '000	2022 AED '000
Due from related parties:		
Entities managed by key management personnel	401,489	1,149,482
Entities under common control	232,733	413,550

	<hr/>	<hr/>
Repayment of borrowings	201,996	900,638
	<hr/>	<hr/>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

18 Related party balances and transactions (continued)

Significant transactions with related parties include:

	2023	2022
	AED '000	AED '000
Capital contribution arising from common control transaction (Note 41)	-	741,360
Acquisition of assets from entities under common control	79,650	754,820
Consideration for acquisition of non-controlling interests (Note 43)	-	800,000
Revenue from contracts		
- Entities under common control	798,684	772,076
- Joint ventures	28,404	6,822
- Associates	428	1,382
Subcontracting costs / expenses		
- Entities under common control	260,365	721,708
- Associates	14,936	4,244
- Joint Ventures	13,260	3,759
General, administrative and selling expenses / staff costs	7,877	17,085

Revenue generated from related parties and purchases of goods and services are based on terms and conditions as mutually agreed between the parties.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

19 Cash and cash equivalents

	2023	2022
	AED '000	AED '000
Cash in hand and bank	12,956,933	15,219,324
Short term deposits and treasury bills	6,844,651	10,075,863
Wakala deposits	412,936	223,816
	20,214,520	25,519,003
Less: impairment loss allowance	(30,905)	(30,905)
Cash and bank balances	20,183,615	25,488,098
Less:		
Bank overdrafts (Note 27)	(11,879)	(20,520)
Restricted cash	(7,023,466)	(5,540,613)
Short term deposit having maturity more than three months	(1,152,938)	(3,012,688)
Add:		
Cash at banks and short-term deposits attributable to disposal group held-for-sale (Note 38)	34,346	-
Allowance for ECL	30,905	30,905
Cash and cash equivalents	12,060,583	16,945,182

Interest earned on short-term deposits and wakala deposits are at market rates.

Bank overdraft facilities were availed from various banks. Bank overdraft facilities were obtained from local banks which were secured by customers approved payment certificates. Bank overdrafts are repayable on demand.

As at 31 December 2023, restricted cash mainly includes cash at banks amounting to AED 270,255 thousand (2022: AED 243,456 thousand) held by the Group on behalf of third parties and AED 5,627,422 thousand (2022: AED 2,701,012 thousand) deposited into escrow accounts representing cash received from customers against sale of development properties.

The expected credit loss on 31 December 2023 and 2022 is AED 30,905 thousand.

Balances with banks are assessed to have low credit risk since they are highly regulated by the central banks of the respective countries. Accordingly, the Group estimates the loss allowance on balances with banks at an amount equal to 12-month ECL. None of the balances with banks are past due and taking into account the historical default experience and the current credit ratings of the bank. Impairment loss allowances of AED 30,905 thousand is considered sufficient.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

20 Share capital

	2023	2022
	AED '000	AED '000
Authorised, issued and fully paid 10,000 million shares of AED 1 each (31 December 2022: 10,000 million shares of AED 1 each)	10,000,000	10,000,000

21 Statutory reserve

In accordance with the U.A.E. Federal Decree Law No. (32) of 2021, and the Articles of Association, the Company has established a statutory reserve by appropriation of 5% of its net profits. Such transfers have to be made until the reserve equals 50% of the share capital. This reserve is not available for distribution except in the circumstances stipulated by law.

22 Merger reserve

	2023	2022
	AED '000	AED '000
At 1 January	11,539,393	8,723,368
Contribution in kind from a shareholder (Note 42)	-	2,440,523
Transfer of assets from entities under common control	79,650	754,820
Contribution arising from business combinations under common control (Note 41)	-	741,360
Transfer to non-controlling interests on dilution of ownership (Note 43)	-	(1,120,678)
At 31 December	11,619,043	11,539,393

During the year, a related party transferred a plot of land without consideration. Accordingly, it was recorded at fair value of AED 79.7 million as an investment property with the corresponding amount accounted for in the merger reserve.

In 2022, an additional 2% ownership interest in Aldar was transferred under common control without consideration by the parent company. Accordingly, it was recorded at the fair value of AED 754.8 million as an investment in a subsidiary with the corresponding amount accounted for in the merger reserve.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

23 Other reserves

The movements in other reserves are as follows:

	Investment revaluation reserve AED '000	Foreign exchange translation reserve AED '000	Hedging reserve AED '000	Reserves of a disposal group held- for-sale AED '000	Total AED '000
At 1 January 2022	(6,423)	(82)	3,597	13,788	10,880
Other comprehensive (loss) / income for the year	(155,953)	(379,276)	34,339	-	(500,890)
Transfer of fair value reserve of equity instruments designated at FVTOCI	(3,594)	-	-	-	(3,594)
Transfer arising from assets held-for-sale	10,610	3,178	-	(13,788)	-
At 31 December 2022	(155,360)	(376,180)	37,936	-	(493,604)
Other comprehensive (loss) / income for the year	(570,491)	(113,499)	15,119	-	(668,871)
Transfer of reserves	(10,515)	(367)	(338)	367	(10,853)
At 31 December 2023	(736,366)	(490,046)	52,717	367	(1,173,328)

24 Hybrid equity instruments

The Group had issued hybrid equity instruments worth AED 1,836 million (USD 500 million) (the "Notes") to an investor ("Noteholder") in two tranches. Proceeds from the first tranche of AED 1,140 million (USD 310.5 million) were received by the Group in March 2022 with the balance amount in a second tranche received in April 2022.

Issuance period	Issued amount	Coupon rate
March 2022	AED 1,140 million (USD 310.5 million)	Fixed interest rate with a reset after 15 years
April 2022	AED 696 million (USD 189.5 million)	Fixed interest rate with a reset after 15 years

The Notes do not have any maturity date and the Group may elect at its sole discretion not to pay interest on the Notes. In such event, the Noteholder does not have a right to claim any interest. Accordingly, these instruments have been classified under equity. Transaction costs amounting to approximately AED 20.6 million related to issuance of the Notes were recorded directly in equity.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

24 Hybrid equity instruments (continued)

The movement in hybrid equity instruments net off transaction costs is as follows:

	2023	2022
	AED '000	AED '000
At 1 January	1,815,646	-
Arising on acquisition of a subsidiary (Note 42)	-	1,126,639
Issuance of new tranche	-	689,007
At 31 December	1,815,646	1,815,646

During the year, the Group paid a coupon amounting to AED 103.3 million (2022: AED 51.6 million) on the hybrid instrument.

25 Material non-controlling interests

The summarised financial information in respect of the Group's subsidiaries that have material non-controlling interests is set out below. The summarised financial information below represents amounts before inter-group eliminations.

Summarised consolidated statement of financial position:

26 Provision for employees' end of service benefits

	2023 AED '000	2022 AED '000
Employees' end-of-service benefits	1,074,874	2,482,810
Long term incentive scheme	-	59,685
	<hr/>	<hr/>
At 31 December	1,074,874	2,542,495
	<hr/> <hr/>	<hr/> <hr/>

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

26 Provision for employees' end of service benefits (continued)

Movements in provision for employee's end of service benefits are as follows:

	2023	2022
	AED '000	AED '000
At 1 January	2,542,495	658,645
Liabilities arising on acquisition of subsidiaries (Note 42)	44,239	1,756,242
Charge for the year, net of reversal	247,546	256,167
Actuarial loss recognised in other comprehensive income	-	35,748
Acquired in common control business combinations (Note 41)	-	8,906
Transfer from a related party	681	551
Eliminated on derecognition of a subsidiary (Note 43)	(1,541,480)	-
Liabilities of group related to discontinued operations (Note 38)	-	(2,203)
Paid during the year	(218,607)	(171,561)
	<hr/>	<hr/>
At 31 December	1,074,874	2,542,495
	<hr/> <hr/>	<hr/> <hr/>

During the prior year, the Group performed actuarial valuation on employee's end of service benefits in one of the subsidiaries. The resulting provision is recognised based on the following significant assumptions:

	2023	2022
	AED'000	AED'000
Average period of employment (years)	-	10.6
Average annual rate of salary increase (percentage)	-	3%
Average annual voluntary termination rate (percentage)	-	8%
Discount rate (percentage)	-	5%

Demographic assumptions for mortality, withdrawal and retirement were used in valuing the liabilities and benefits under the plan. Because of the nature of the benefit, which is a lump sum payable on exit due to any cause, a combined single rate has been used.

Charge for the year includes current service cost of AED Nil thousand (2022: AED 27,129 thousand), net interest cost of AED Nil thousand (2022: AED 13,945 thousand).

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

26 Provision for employees' end of service benefits (continued)

Actuarial loss recognised in consolidated statement of other comprehensive income includes the following:

	2023	2022
	AED'000	AED'000
Actuarial gain arising from experience adjustments	-	11,821
Actuarial gain arising from changes in financial assumptions	-	23,927
	<u> </u>	<u> </u>
	-	35,748
	<u> </u>	<u> </u>

The weighted average duration of the defined benefit obligation is 5.9 years. The mortality rates for ages 18 to 59 range between 0.56 to 16.77 deaths per thousand of population.

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	Increase	Decrease
	AED '000	AED '000
31 December 2023		
Discount rate (0.5%)	-	-
Annual rate of salary increase (0.5%)	-	-
Voluntary termination rate (2%)	-	-
31 December 2022		
Discount rate (0.5%)	(360)	373
Annual rate of salary increase (0.5%)	(439)	517
Voluntary termination rate (2%)	3,109	(3,691)

Acquisition during the prior year

GenQore Drug store LLC (“GenQore”)

Effective 1 February 2022, the Group acquired a 90% equity interest in GenQore, for a consideration of AED 1 which was accounted for using the acquisition method under IFRS 3. From the date of acquisition, GenQore contributed revenue and loss to the Group amounting to AED 24,025 thousand and AED 1,077 thousand respectively. If the acquisition had taken place at the beginning of the year, GenQore would have contributed revenue and loss to the Group amounting to AED 29,134 thousand and AED 1,068 thousand respectively.

Aldar Properties PJSC (“Aldar”)

Effective 11 April 2022, the Group acquired another 2% ownership interest in Aldar. As a result, the Group was able to appoint four out of the seven board members at the annual general meeting held on 11 April 2022, giving the Group control over Aldar. Accordingly, this has been treated as a step acquisition under IFRS 3 and the investment in Aldar has been de-recognised as an investment in an associate and has instead been consolidated as a subsidiary under IFRS 10. As at 31 December 2023, the Group holds 31.63% of Aldar.

Aldar is a company registered and incorporated in the Emirate of Abu Dhabi and is engaged in various businesses primarily the development, sales, investment, construction, leasing, management and associated services for real estate. From the date of acquisition, Aldar contributed revenue and profit to the Group amounting to AED 8,516,822 thousand and AED 2,455,923 thousand respectively. If the acquisition had taken place at the beginning of the year, Aldar would have contributed revenue and profit to the Group amounting to AED 11,200,027 thousand and AED 3,143,733 thousand respectively.

Al Shohub Private School LLC (“Al Shohub”)

On 20 January 2022, the Group agreed to purchase Al Shohub, a limited liability company registered in Abu Dhabi, United Arab Emirates for a total consideration of AED 72 million. On 1 June 2022, the transaction was completed and is therefore the date on which the Group acquired control over Al Shohub. From the date of acquisition, Al Shohub contributed revenue and loss to the Group amounting to AED 13,738 thousand and AED 1,445 thousand respectively. If the acquisition had taken place at the beginning of the year, Al Shohub would have contributed revenue and loss to the Group amounting to AED 22,794 thousand and AED 5,373 thousand respectively.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****42 Business combination under IFRS 3 (continued)***Twafq Projects Development Property LLC (“Twafq”)*

On 18 April 2022, the Group signed an agreement for the acquisition of 70% of Twafq for a consideration of AED 331 million. Twafq is incorporated in Abu Dhabi, UAE and is involved in the development, investment, and management of industrial real estate. From the date of acquisition, Twafq contributed revenue and profit to the Group amounting to AED 47,638 thousand and AED 51,813 thousand respectively. If the acquisition had taken place at the beginning of the year, Twafq would have contributed revenue and profit to the Group amounting to AED 62,700 thousand and AED 56,994 thousand respectively.

Spark Security Services (“Spark”)

Effective 1 September 2022, the Group acquired 100% shares of Spark Securities Services Sole Proprietorship LLC, Abu Dhabi and Spark Securities Services LLC, Dubai (together referred to as “Spark”) for a consideration of AED 120 million. From the date of acquisition, Spark contributed revenue and profit to the Group amounting to AED 95,555 thousand and AED 5,855 thousand respectively. If the acquisition had taken place at the beginning of the year, Spark would have contributed revenue and profit to the Group amounting to AED 268,192 thousand and AED 11,308 thousand respectively.

Mace Macro Technical Services LLC (“Mace”)

Effective 1 August 2022, the Group acquired 100% shares of Mace for a consideration of AED 4.4 million. From the date of acquisition, Mace contributed revenue and profit to the Group amounting to AED 5,231 thousand and AED 523 thousand respectively. If the acquisition had taken place at the beginning of the year, Mace would have contributed revenue and profit to the Group amounting to AED 13,978 thousand and AED 1,669 thousand respectively.

Pactive Sustainable Solutions LLC (“Pactive”)

Effective 1 August 2022, the Group acquired 100% shares of Pactive for a consideration of AED 10 million. From the date of acquisition, Pactive contributed revenue and profit to the Group amounting to AED 6,257 thousand and AED 832 thousand respectively. If the acquisition had taken place at the beginning of the year, Pactive would have contributed revenue and profit to the Group amounting to AED 9,023 thousand and AED 1,236 thousand respectively.

National Health Insurance Company PJSC (“Daman”)

Effective 1 October 2022, the Group acquired 39% shares of Daman. From the date of acquisition, Daman contributed revenue and profit to the Group amounting to AED 1,153,060 thousand and AED 83,609 thousand respectively. If the acquisition had taken place at the beginning of the year, Daman would have contributed revenue and profit to the Group amounting to AED 4,401,021 thousand and AED 303,237 thousand respectively.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****42 Business combination under IFRS 3 (continued)***Abu Dhabi Health Services Company PJSC (“SEHA”)*

Effective 1 October 2022, the Group acquired 39% shares of SEHA. From the date of acquisition, SEHA contributed revenue and profit to the Group amounting to AED 2,092,512 thousand and AED 547,984 thousand respectively. If the acquisition had taken place at the beginning of the year, SEHA would have contributed revenue and profit to the Group amounting to AED 7,278,000 thousand and AED 902,854 thousand respectively.

The Life Corner LLC (“TLC”)

Effective 1 October 2022, the Group acquired 39% shares of TLC. From the date of acquisition, TLC contributed revenue and profit to the Group amounting to AED 82,318 thousand and AED 42,193 thousand respectively. If the acquisition had taken place at the beginning of the year, TLC would have contributed revenue and profit to the Group amounting to AED 82,318 thousand and AED 27,191 thousand respectively.

SAGA OA DMCC (“SAGA”)

On 19 October 2022, the Group acquired 100% of SAGA International Owners Association Management Services LLC and SAGA OA DMCC (“SAGA”), for a consideration of AED 37 million. From the date of acquisition, SAGA contributed revenue and profit to the Group amounting to AED 2,305 thousand and AED 599 thousand respectively. If the acquisition had taken place at the beginning of the year, SAGA would have contributed revenue and profit to the Group amounting to AED 12,787 thousand and AED 6,435 thousand respectively.

43 Group's reorganisations

- a) During the prior year, an additional 2% ownership interest in Aldar was transferred by related parties under common control without consideration and was treated as an additional contribution by the ultimate parent company. Accordingly, it was recorded at the fair value of AED 754,820 thousand as an investment in a subsidiary with the corresponding amount accounted for in merger reserve.
- b) The Group held 38.95% of PHH. On 30 March 2023, the shareholders of PHH amended shareholders' agreement, pursuant of which shareholder resolutions, which earlier required approval from majority of shareholders, has been amended to unanimous approval. As a result, the Group lost control over PHH and accordingly derecognised carrying value of assets and liabilities of PHH and recognised its interest as an investment in a joint venture at fair value.

The fair value of the retained interest in PHH was determined by a third-party valuation expert at 100% equity stake valued based on a sum of the parts ("SOTP") approach using the discounted cash flow ("DCF") methodology under the income approach as primary valuation methodology to arrive at the enterprise value of each business. The significant assumptions used in the fair value calculation include a discount rate of 9.5% to 15.2% and a terminal growth rate of 3%.

During the year, the Group performed the purchase price allocation ('PPA') of the investment and recognised a gain of AED 7,457 million (31 December 2022: Nil) for the year ended 31 December 2023. The resultant goodwill is based on the fair value of retained interest.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

- c) During the prior year, a Group entity entered into a subscription agreement with an investor to acquire common equity of AED 367 million (USD 100 million) and preferred equity of AED 1,102 million (USD 300 million) of the Group entity. The preferred equity provides a fixed return for three years, following which it mandatorily converts into a fixed number of common shares. The above resulted in the Group disposing 11.121% of its shareholding in that entity for a total cash consideration of AED 1,469 million (USD 400 million). The above transaction does not result in any loss of control and hence is accounted for as an equity transaction.

During the prior year, the Group established a wholly owned subsidiary with its equity split into Class A shares (51%) and Class B shares (49%). Subsequent to its establishment the Group disposed its Class B shares against a consideration of AED 1,836 million (USD 500 million) to AHSPV, a wholly owned subsidiaries of Apollo Capital Management L.P.

43 Group's reorganisations (continued)

- d) On 1 July 2023, the Group reduced its ownership in Aldar Estate Holding Limited ('AEHL') from 32% to 21% and an amount of AED 102 million was transferred to non-controlling interests from retained earnings during the year ended 31 December 2023.

	<u>AEHL</u>
31 December 2023	
Reduction in shareholding (%)	11.04%
Carrying value of the shareholding (AED'000)	921,888
	<hr/>
Difference recognised directly retained earnings (AED'000)	101,780
	<hr/> <hr/>

- e) During the year, the Group acquired 25% additional ownership interest in W Solar Investment LLC for no consideration. As a result, the loss of AED 571 thousand (2022: Nil) was transferred from non-controlling interests to retained earnings in the year ended 31 December 2023.

- f) *Partial disposal of shareholding in a subsidiary due to reorganisation:*

	<u>PHMS</u>	<u>PHH</u>	<u>Total</u>
31 December 2022			
Reduction in shareholding (%)	11.29%	31.88%	
Carrying value of the shareholding (AED'000)	509,907	970,708	1,480,615
	<hr/>	<hr/>	<hr/>
Difference recognised directly in Retained earnings (AED'000)	59,648	300,289	359,937
	<hr/> <hr/>	<hr/> <hr/>	<hr/> <hr/>
Merger reserves (Note 22) (AED'000)	450,259	670,419	1,120,678
	<hr/> <hr/>	<hr/> <hr/>	<hr/> <hr/>

On 1 January 2022, the Group transferred its ownership interest in PHMS to PHH, an investment holding company registered as a limited liability company in United Arab Emirates. As a result of this transaction, the Group's ownership in PHMS was reduced from 63% to 51.71% and an amount of AED 59.7 million and AED 450.2 million was transferred from the retained earnings and merger reserve, respectively, to non-controlling interests during the year ended 31 December 2022.

On 1 October 2022, the Group acquired Daman, SEHA and TLC as a result of this transaction the Group's ownership in PHH was reduced from 70.83% to 38.95% and an amount of AED 670.4 million from merger reserve and AED 300 million from retained earnings, respectively were transferred to non-controlling interests during the year ended 31 December 2022. This also resulted in a settlement of pre-existing relationship with the acquiree amounting to AED 1,080 million (Note 42).

for the year ended 31 December 2023 (continued)**

43 Group's reorganisations (continued)

g) *Partial disposal of shareholding in subsidiaries against consideration:*

	<u>AIHR</u>	<u>AHSPV</u>	<u>ALDAR</u>	<u>Total</u>
31 December 2022				
Reduction in shareholding (%)	11.12%	49.00%	0.01%	
Carrying value of the shareholding disposed-off (AED' 000)	1,489,807	1,813,874	6,055	3,309,736
Add: transaction costs paid (AED' 000)	10,536	36,493	-	47,029
Less: consideration (AED' 000)	(1,469,000)	(1,836,250)	(5,144)	(3,310,394)
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Difference recognised in retained earnings (AED'000)	31,343	14,117	911	46,371
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

During the prior year, a Group entity entered into a subscription agreement with an investor to acquire common equity of AED 367 million (USD 100 million) and preferred equity of AED 1,102 million (USD 300 million) of the Group entity. The preferred equity provides a fixed return for three years, following which it mandatorily converts into a fixed number of common shares. The above resulted in the Group disposing 11.121% of its shareholding in that entity for a total cash consideration of AED 1,469 million (USD 400 million). The above transaction does not result in any loss of control and hence is accounted for as an equity transaction.

During the prior year, the Group established a wholly owned subsidiary with its equity split into Class A shares (51%) and Class B shares (49%). Subsequent to its establishment the Group disposed its Class B shares against a consideration of AED 1,836 million (USD 500 million) to AHSPV, a wholly owned subsidiaries of Apollo Capital Management L.P.

h) *Increase of shareholding in subsidiaries without consideration:*

	<u>PHMS</u>
31 December 2022	
Increase in shareholding (%)	10.52%
Carrying value of the shareholding account (AED' 000)	326,407
	<u> </u>
Difference recognised in retained earnings (AED'000)	326,407
	<u> </u>

On 1 October 2022, the Group acquired additional 10.52% of PHMS as result of this transaction and AED 326.4 million was transferred from non-controlling interest to retained earnings.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****43 Group's reorganisations (continued)***i) Increase of shareholding in subsidiaries against consideration:*

During the prior year, the Group acquired 20% additional ownership interest in Mawarid for AED 800 million. The difference between the carrying value and the proceeds were directly recognised in the retained earnings.

44 Segment information

IFRS 8 *Operating Segments* requires operating segments to be identified on the basis of financial performance and internal reports about components of the Group in order to allocate resources to the segment and to assess its performance. For operating purposes, the Group is organised into the following business segments or revenue streams:

- (i) Industrial, which includes to the provision of dredging and associated land reclamation works and execution of engineering, procurement and construction contracts;
- (ii) Construction, which provides contracting services relating to commercial and residential buildings, infrastructure development and civil construction works;
- (iii) Real estate, which includes rental income from properties and income from investment in real estate companies or sale of real estate;
- (iv) Healthcare, which includes hospitals and medical management services and laboratory diagnostic services; and
- (v) Services and other segments which comprise management services, hospitality income as well as a variety of smaller ancillary activities. This includes investment, insurance revenue, and Islamic financing.

Non-current assets	63,523,088	3,348,503	66,871,591
31 December 2022			
Revenue	34,817,299	5,232,690	40,049,989
Gross profit	8,628,824	1,108,885	9,737,709
Non-current assets	53,910,634	2,235,170	56,145,804

45 Fair value measurement

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market bid prices at the close of the business on the reporting date.
- The fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

45 Fair value measurement (continued)

Fair value of the Group's assets that are measured at fair value on recurring basis

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities, grouped into Levels 1 to 3 based on the degree to which the fair value is observable and gives information about how the fair value of these financial assets are determined:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table gives information about how the fair value of the Group's assets are determined.

	Fair value as at 31 Dec		Fair value hierarchy	Valuation techniques and key inputs	Significant unobservable input	Relationship of unobservable inputs to fair value
	2023 AED '000	2022 AED '000				
Financial assets / (liability)						
Quoted equity investment -investment in financial assets at FVTPL	2,114,333	2,197,977	Level 1	Quoted prices in active markets	None	Not applicable
Quoted equity investment -investment in financial assets at FVTOCI	-	244,235	Level 1	Quoted prices in active markets	None	Not applicable
Unquoted equity investment - investment in financial assets at FVTPL	5,223,691	3,132,773	Level 2	Significant observable inputs	Net assets value	Higher the net assets value of the investees, higher the fair value.
Unquoted equity investment - investment in financial assets at FVTOCI	286,065	851,734	Level 3	Comparable method	None	Not applicable
Derivative financial assets	32,913	248,792	Level 2	Significant observable inputs	None	Not applicable
Derivative financial liabilities	(12,138)	(50,171)	Level 2	Significant observable inputs	None	Not applicable
Non-financial assets						
Biological assets	19,039	27,008	Level 2	Significant observable inputs	None	Not applicable
Investment properties						Not applicable
- Plots of land	1,395,952	626,291	Level 3	Refer to Note 8	None	Not applicable
- Commercial and residential properties	24,950,789	23,628,129	Level 3	Refer to Note 8	None	Not applicable
- Property under construction	820,510	114,763	Level 3	Refer to Note 8	None	Not applicable

There were no transfers between the levels during the year. There are no financial liabilities which should be measured at fair value and accordingly no disclosure is made in the above table. There were no unobservable inputs to the fair value.

**Notes to the consolidated financial statements

Capital risk management

The Group manages its capital to ensure it will be able to continue as a going concern while maximising the return on equity. The Group does not have a formalised optimal target capital structure or target ratios in connection with its capital risk management objectives.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

46 Financial instruments (continued)

Capital risk management (continued)

At end of the year, the net debt to equity ratio is as follows:

	2023 AED '000	2022 AED '000
Debt	24,179,990	20,718,663
Less: cash and bank balances	(20,183,615)	(25,488,098)
Net surplus / (deficit)	<u>3,996,375</u>	<u>(4,769,435)</u>
Net equity	<u>75,977,031</u>	<u>70,038,960</u>
Debt to equity ratio (%)	<u>31.83%</u>	<u>29.58%</u>

Financial risk management objectives

The Group monitors and manages the financial risks relating to the operations of the Group. These risks include market risk, credit risk, insurance risk, and liquidity risk. The Group does not enter into or trade in derivative financial instruments for speculative or risk management purposes.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the finance income or finance cost of the Group. The Group is exposed to cash flow interest rate risk on its bank borrowings at floating interest rates.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for interest bearing financial instruments at the end of the reporting year. For variable rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the end of the reporting year was outstanding for the whole year.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

46 Financial instruments (continued)

Interest rate risk (continued)

Interest rate sensitivity analysis (continued)

If interest rates had been 75 basis points higher / lower throughout the year and all other variables were held constant, the Group's profit and equity for the year ended 31 December 2023 would decrease / increase by approximately AED 68,050 thousand (2022: decrease / increase AED 73,873 thousand).

Interest rate swap contracts

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the fair value of issued fixed rate debt held and the cash flow exposures on the issued variable rate debt held. The fair value of interest rate swaps at the reporting date is determined by discounting the future cash flows using the curves at the reporting date and the credit risk inherent in the contract and is disclosed below. The average interest rate is based on the outstanding balances at the end of the financial year.

The notional principal amounts and terms of interest rate swaps are disclosed in Note 29.

Foreign currency risk

Foreign currency risk is the risk that a financial instrument will fluctuate due to changes in foreign exchange rates. Assets are typically funded in the same currency as that of the business being transacted to eliminate exchange exposures. Management believes that there is a minimal risk of significant loss due to exchange rate fluctuations and consequently the Group does not necessarily hedge its foreign currency exposure.

	2023		2022	
	Liabilities AED '000	Assets AED '000	Liabilities AED '000	Assets AED '000
Egyptian Pound (EGP)	3,836,532	5,550,932	3,629,112	5,751,073
Euro (EUR)	435,318	1,759,002	46,053	72,210
Great Britain Pound (GBP)	1,093,314	1,573,794	-	-
Others	63,297	75,670	1,705	10,034

Foreign currency sensitivity analysis

The Group is mainly exposed to Egyptian Pound (EGP), Euro (EUR) and Great Britain Pound (GBP). The exchange rate of the UAE Dirham is pegged to the US Dollar and therefore the risks associated therewith are considered to be insignificant.

The following paragraph details the Group's sensitivity to a 10% increase or decrease in the UAE Dirham against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents the Group's assessment of the reasonably conceivable change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year-end for a 10% change in foreign currency rates.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)****46 Financial instruments (continued)****Foreign currency risk (continued)***Foreign currency sensitivity analysis (continued)*

Based on the sensitivity analysis to a 10% (2022: 10%) increase / decrease in the Egyptian Pound against the UAE Dirham with all other variables held constant will result in equity for the year to be higher or lower by AED 171,440 thousand (2022: AED 212,196 thousand) mainly as a result of foreign exchange differences on translation of Egyptian Pound denominated amounts.

Based on the sensitivity analysis to a 10% (2022: 10%) increase / decrease in the Euro against the UAE Dirham with all other variables held constant will result in equity for the year to be higher or lower by AED 132,368 thousand (2022: AED 2,616 thousand) mainly as a result of foreign exchange differences on translation of Euro denominated amounts.

Based on the sensitivity analysis to a 10% (2022: 10%) increase / decrease in the Great Britain Pound against the UAE Dirham with all other variables held constant will result in equity for the year to be higher or lower by AED 48,048 (2022: AED Nil) mainly as a result of foreign exchange differences on translation of Indian Rupee denominated amounts.

The Group believes that the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting year does not reflect the exposure during the year.

Equity price risk

The Group is exposed to equity price risks arising from equity investments.

Equity investments in unlisted entities (see Note 12) are held for strategic rather than trading purposes. The Group does not actively trade these investments.

The Group invested in a portfolio of listed shares which are held-for-trading (see Note 12). This type of investment is approved by the Board as the alternative to investment in money market funds in order to generate higher investment return on the spare funds.

The Group's listed equity securities are susceptible to market price arising from uncertainties about future values of the investment securities. The Group manages equity price risk through diversification and placing limits on individual and total equity investments.

The sensitivity analyses below have been determined based on the exposure to equity price risks at the reporting date. If equity prices had been 5 per cent higher / lower:

- Net profit for the year ended 31 December 2023 would increase by AED 105,717 thousand (2022: AED 109,899 thousand) as a result of the changes in fair value of the investments in listed shares and vice versa.
- Other comprehensive income would increase by AED Nil (2022: AED 12,212 thousand) as a result of the changes in fair value of the investments in equity instruments and vice versa.

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

46 Financial instruments (continued)

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. As at 31 December 2023, the Group's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties and financial guarantees provided by the Group arises from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise credit risk, the Group develops and maintains its credit risk grading to categorise exposures according to their degree of risk of default. The credit rating information is based on available financial information and the Group's own trading records to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. The tables below detail the credit quality of the Group's financial assets, contract assets and financial guarantee contracts, as well as the Group's maximum exposure to credit risk by credit risk rating grades.

	Notes	External credit ratings	Internal credit ratings	12 month or lifetime ECL	Gross carrying amount AED '000	Loss allowance AED '000	Net carrying amount AED '000
31 December 2023

Other receivables	15	N/A	(i)	12-month ECL	2,966,124	(15,864)	2,950,260

**Notes to the consolidated financial statements
for the year ended 31 December 2023 (continued)**

46 Financial instruments (continued)

Credit risk (continued)

	Notes	External credit ratings	Internal credit ratings	12 month or lifetime ECL	Gross carrying amount AED '000	Loss allowance AED '000	Net carrying amount AED '000
31 December 2022							
Trade receivables	15	N/A	(i)	Lifetime ECL	10,181,371	(603,501)	9,577,870
Retention receivables	15	N/A	(i)	Lifetime ECL	730,245	(48,406)	681,839
Contract assets	13	N/A	(i)	Lifetime ECL	7,268,192	(81,873)	7,186,319
Due from related parties	18	N/A	(i)	12-month ECL	2,038,184	(398,791)	1,639,393
Bank balances	19	BB	NA	12-month ECL	25,519,003	(30,905)	25,488,098
Financial investments	12	N/A	(i)	12-month ECL	257,082	(23)	257,059
Other receivables	15	N/A	(i)	12-month ECL	3,553,658	(226,101)	3,327,557

- (i) For trade receivables, retention receivables and contract assets, the Group has applied the simplified approach under IFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix.

Liquidity risk

Ultimate responsibility for liquidity risk rests with the management, which has built an appropriate liquidity risk management framework for the planning of the Group's short, medium and long-term funding and liquidity management requirements.

The Group manages liquidity risk by maintaining adequate reserves by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

**Notes to the consolidated financial statements
for the year ended 31 December 2022 (continued)****48 Subsequent events**

Subsequent to year end, the Group has entered into the following transactions:

- a) Acquisition of 51 % stake in Alpha Mind Holding Limited ('Alpha Mind'), a company incorporated in Abu Dhabi, UAE on Abu Dhabi Global Market ('ADGM') for an amount of AED 254.2 million by ADMO. Alpha Mind is involved in the hospitality business; and
- b) The Group has formed a joint venture entity, Enersol Rsc Ltd, in collaboration with ADNOC Drilling Company PJSC (referred to as 'ADNOC Drilling'), wherein ownership stakes are distributed as 49% and 51% respectively. The principal objective of this venture is to spearhead the development of an oil field services technology platform, with a total commitment amounting to US\$ 1,500 million. As an integral part of this endeavour, the Group has contributed its 25% stake in Gordon Technologies LLC to Enersol Rsc Ltd, for a consideration of US\$ 87 million.

The cover features a dark, grayscale background image of a business meeting. Several people are seated around a table, some looking at documents or laptops. Overlaid on this image are large, thick red lines that form a stylized, abstract shape, possibly representing a large number '3' or a similar graphic element. The text 'CORPORATE GOVERNANCE REPORT' is centered in the left half of the image, overlaid on the red graphic.

Introduction

Alpha Dhabi Holding PJSC (“ADH” or the “Company”), listed in Abu Dhabi Exchange (“ADX”) since June 2021, is focused on generating value for its investors and all key stakeholders, while also supporting the Abu Dhabi Economic Vision 2030, a government-led strategy to transform the emirate into a diversified, innovative and knowledge-based economy by the end of the decade. With its fast-growing portfolio in construction, healthcare, hospitality, industries, and investments in promising sectors, ADH is committed to maximizing the performance of its subsidiaries, in addition to unleashing boundless potential with synergized businesses. Alpha Dhabi Holding stands poised to make a significant impact in both local and international markets as the leading holding company in the UAE.

This corporate governance report of the Company gives an overview of ADH’s corporate governance systems and procedures as of 31st December 2023. It is being filed with Securities and Commodities Authority (SCA), posted on the ADX website and the Company’s website. This report is governed by the Resolution of the Board of the Securities and Commodities Authority (“SCA”) No. 3/Chairman. of 2020 as amended from time to time on the Corporate Discipline and Governance Standards of Public Joint-Stock Companies (“Resolution 3/2020”). The format of this report is prescribed by SCA.

Corporate Governance within ADH

ADH, its subsidiaries and affiliates (together termed as the “Group”) has been organized into eight verticals and the operating business units (subsidiaries, joint ventures, and affiliates) have been grouped under one of these verticals for efficient operations as below.

Vertical 1 Industrial

Vertical 2 Construction

Vertical 3 Hospitality

Vertical 4 Healthcare

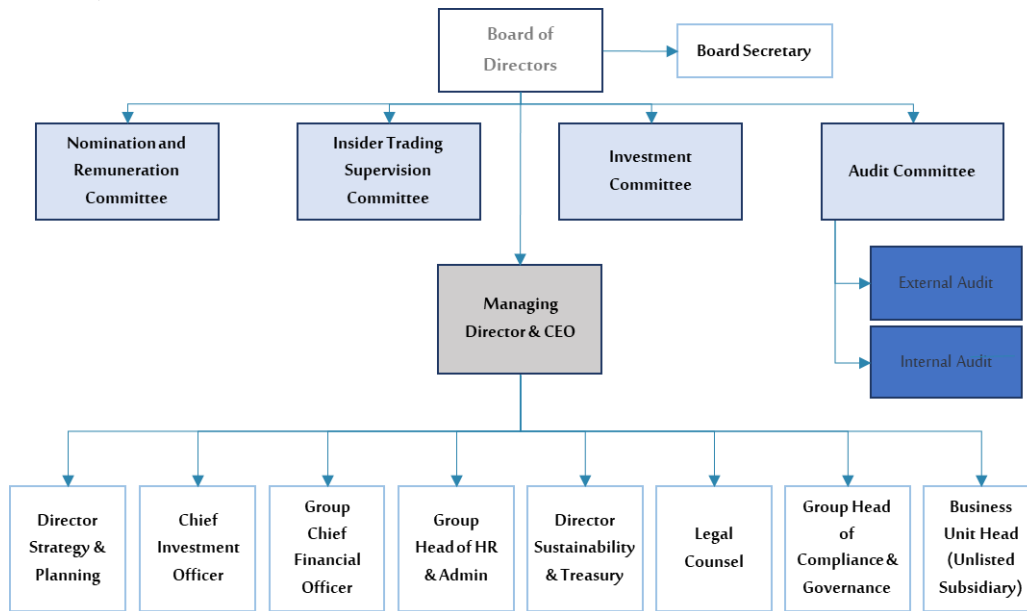

Vertical 5 Investments

Vertical 6 Energy

Vertical 7 Climate Capital

Vertical 8 Real Estate

ADH's Group Structure is as below:

The shareholders are the ultimate decision-makers in respect of the direction of the Company as they are responsible for appointing the Board of Directors. The General Assembly Meeting is the highest decision-making body in the Company and is the forum in which shareholders express themselves and exercise their right to decide on the Company's direction.

The Board is the primary decision-making body for all matters that are material to the Group. The Board plays a critical role in ensuring that the Group conducts its business in a manner which is consistent with the highest standards of corporate governance and ethical behaviour contributing positively to the economy and wider society. The Board is and shall remain responsible for the overall governance of the Group and for those matters that are reserved for the Board.

The Company is managed by the Board of Directors composed of five members appointed by the ordinary general assembly for a period of three years. The Board's roles and responsibilities are set out in the Board Charter (under review by the Board Audit Committee), which include:

- Set ADH's strategic direction / goals, approve and monitor corporate strategy (including subsidiaries), business plan, annual budget, and any amendments thereto;
- Review financial performance considering the strategy, business plan and budget of ADH ensuring that where necessary, corrective action is taken;
- Approve investment related decisions – mergers, acquisitions, reorganisation and exits;
- Establish, promote, and maintain proper processes and controls to maintain the integrity of accounting and financial records and reporting;
- Approve the risk management framework of ADH including risk appetite, maximum limits, or indicators of risk appetite and ensuring a balanced approach between risk management and growth objectives;
- Receive regular reports from ADH Management on actual and anticipated strategic risks confronting the Group, including updates from the Audit Committee, as appropriate;
- Adopt and oversee implementation of corporate governance practices;
- Review Board composition and performance;
- Recruitment, termination, reward, compensation and benefit matters for the Managing Director and CEO as well as senior management of ADH;

-
- Determine Managing Director and CEO's delegated authority;
 - Ensure that there is an effective subsidiary governance programme in place to assure itself that "downstream governance" reflects the same values, ethics, controls and processes as at the ADH board level;
 - Establishing, approving, overseeing and ensuring the implementation of an Environmental, Social, Governance (ESG) framework, policies and ESG systems for ADH.

The four Committees in place are: Audit Committee, Nomination and Remuneration Committee, Investment Committee and Insider Trading Supervision Committee which review and monitor key areas on behalf of the Board and make recommendations for its approval. Each Board Committee operates under written terms of reference and information on the activities and composition of each Committee is set out in the following sections.

Delegation of Authority to the Board Members and Executive Management

The ADH Board has delegated, through a Power of Attorney to the Chairman and Vice-Chairman, the authority to represent, attend, act, and sign (with wider authorities) on behalf of the Company its subsidiaries in all matters or transactions and other acts that any of the entities may do or assume. The Power of Attorney is provided for a period of 3 years and was attested by the notary public.

The ADH Board has also delegated, through a Power of Attorney to the Managing Director & CEO, the authority, and powers necessary to manage the business affairs of the Group. This power of attorney is also provided for a period of 3 years and was attested by the notary public. This includes the power to:

- represent and manage the Company, its subsidiaries and affiliates in all transactions and documents before the Government, Semi-Government and Private entities;
- represent and sign all contracts and agreements on behalf of the Company, its subsidiaries, and affiliates inside and outside of the United Arab Emirates;
- appoint and terminate managers for the Company, its subsidiaries, and affiliates; and
- manage the Company, its subsidiaries, and affiliates' operations;

The Managing Director & CEO and / or the Board may further delegate authority to one or more leaders of an operational group or legal entity ("Business Unit") but they remain accountable for all authorities delegated. The Group has a decentralized corporate structure in which the overall management of operational activities is largely performed by the respective Business Unit leadership team. To enable this, the Managing Director & CEO and / or the Board of the Business Unit (wherever applicable) may have delegated part of their authorities, on operational matters, to the Business Unit heads necessary to run the business. The delegation of such authorities are effected through a notarised power of attorney.

Corporate Governance Policies and Procedures

ADH continues to develop frameworks, policies and procedures adapted to its changing needs as it grows and progresses in life cycle stage. In this context, ADH has developed the following frameworks, policies and procedures (under review by the Board Audit Committee):

- Risk Appetite Framework, addressing the Board's risk appetite and tolerance for the different buckets of risks it encounters during this stage of its life cycle and growth.
- Investment & Portfolio Management Risk Framework, Policies & Procedures, addressing the measures that ADH shall take with respect to the investment decision making and management process during this stage of its life cycle and growth.

-
- Anti-Money Laundering-Terrorist Financing-Sanctions Policy & Standard Operating Procedures, addressing the measures that ADH shall take to safeguard against Money Laundering, Terrorism Financing and the breaking of sanctions lists set by the UAE, the United Nations (UN), the US Office of Foreign Assets Controls (OFAC), the European Union (EU).

In addition, ADH has developed a set of 20 Internal Control Policies related to finance (under review for final approval). These are meant to enhance and codify the way control is exercised over the management and processing of financial matters at ADH. These internal control policies that have been developed include: Accounts Payable; Petty Cash; Chart of Accounts; Internal Control Policy Framework; Monthly Closing; Consolidation and Financial Statement Finalization; Capex and Fixed Assets Approval, Capitalization, Depreciation, Write-off and Sale/Discard; General Accounting day-to-day Bookkeeping; Taxation; Expenses, Leases and Admin Procurement; Bank Management (Payments, Receipts and Reconciliations); Contract Management (Consultants, Auditors, etc.); Payroll; Balance Confirmations; Business Planning, Budgeting, Forecasting and Reporting; Accounts Receivables; Related Party Transactions; Finance Department's Responsibilities; Management Accounting and Reporting including Management Information System (MIS).

The preponderance of risk carried by ADH continues to rest in its exposure to Public Joint Stock Companies (PJSC) and third party managed funds. These comprise investments in Pure Health Holding PJSC (Pure Health), ALDAR Properties PJSC (ALDAR), National Marine Dredging Company PJSC (NMDC) and WIO Bank PJSC (WIO Bank); Joint Ventures with Abu Dhabi National Oil Company (ADNOC) and Mubadala; and investments in Alpha Wave funds. Pure Health, ALDAR and NMDC are publicly traded companies listed on the Abu Dhabi Stock Exchange (ADX) and fall under the supervision of the UAE's Securities and Commodity Authority (SCA). They have developed their own respective sets of policies and procedures and presented them to their respective Boards, on which ADH has representation. WIO Bank is licensed, regulated, and supervised by the Central Bank of the UAE. It has developed its own set of policies and procedures adhering to its respective regulators, including the Central Bank of the UAE. Notwithstanding this, Alpha Dhabi has undertaken a third party conducted ESG gap analysis on itself and the two key subsidiaries under its direct control (Trojan Construction Group (TCG) and Mawarid Holding Investment (MHI)). Consequently, Alpha Dhabi has developed the below listed policies for itself, TCG and MHI.

Alpha Dhabi has updated and submitted the below set of frameworks, policies, procedures, and charters (under review by the Board Audit Committee):

- Conflict of Interest Policy & Procedures, addressing matters related to the identification and handling of potential and actual conflicts of interest involving the Group.
- Whistle Blower Policy and Procedures, addressing matters related to the promotion of anonymous reporting of wrongdoings all the while promoting the anonymity and job security of the whistleblower.
- Anti-Fraud-Bribery-Corruption Policy, addressing matters related to the framework for the prevention and detection mechanisms against the risk of fraud, bribery, and corruption.
- Dividend Policy, addressing matters related to the framework and methodology for determining dividends.
- Charters for effective functioning of the Board and the Board Committees.
- Delegation of Authority Policy Framework, addressing matters related to the framework required for decision making that balances empowerment and control.

Alpha Dhabi has developed the below policies with Trojan, which can be found on Trojan's website <https://trojanconstruction.group/en/group-policies>:

- Code of Conduct and Business Ethics Policy, addressing matters related to honest and ethical behaviour aligned to core values, including on matters related to anti-bribery, anti-corruption, and anti-money laundering.

-
- Environmental Policy, addressing matters related to environmental factors such as resource management, climate change and greenhouse gas emissions.
 - Executive Compensation Policy, addressing matters related to executive remuneration practices.
 - Operational Health and Safety Policy, addressing matters related to safeguarding the health and life of employees.
 - Human Rights Policy, addressing matters related to treating people with integrity, respect and fairness.
 - Privacy and Data Security Policy, addressing matters related to safeguarding the confidentiality, integrity, availability and privacy of information.
 - Quality Policy, addressing matters related to services of consistently high-quality standards to customers and external parties.
 - Supplier Code of Conduct Policy, addressing matters related to expectations of ethical conduct by external parties that deal with Trojan.
 - Whistleblower Policy, addressing matters related to the reporting and related investigation of wrongdoings while taking measures to protect whistleblowers from retaliatory actions.

Alpha Dhabi has developed the below policies with MHI, which are now under Board review for final approval:

- Supplier Code of Conduct Policy, which addresses ethical conduct by external vendors such as suppliers and contractors.
- Diversity, Equity, and Inclusion Policy, which addresses promoting diversity, equity, and inclusion in employment.
- Human Rights Policy, which addresses treating people with integrity, respect, and fairness.
- Executive Remuneration Policy, which addresses the alignment of executive remuneration with shareholder interests to promote long-term value creation.
- Community Relations Policy, which addresses engaging with relevant stakeholders.
- Code Of Conduct Policy, which addresses ethical business practices as relates to items that include anti-bribery, anti-corruption and Anti-Money Laundering (AML).
- Whistleblowing Policy, which addresses supporting stakeholders to report any fraudulent, unethical, or malicious activities; all the while ensuring the safety and protection of the whistleblower and the confidentiality of the information reported.
- Health and Safety Policy, which addresses the safeguarding of health, safety and well-being of employees and external parties.
- Environmental Policy, which addresses environmental factors such as Green House Gas (GHG) emissions, resource management, pollution prevention, waste management, biodiversity & land use management.
- Quality Policy, which addresses delivering services to customers according to respectable standards of quality.
- Privacy and Data Security Policy, which addresses safeguarding privacy and personal data.
- Responsible Investment Policy, which addresses integrating environmental, social, and governance (ESG) consideration into investment decision making.
- Voting and Investee Engagement Policy, which addresses guidelines when exercising voting rights and engaging with subsidiaries and associated companies that grant shareholder voting rights to MHI.

Subsidiary Governance

The ADH Board and its committees are responsible for the oversight and effective implementation of subsidiary governance on an enterprise level.

Subsidiaries and affiliates that have their own respective board of directors develop their own respective frameworks, policies, procedures and control mechanisms that are presented and overseen by their respective Boards, on which ADH has representation where appropriate and required. Alpha Dhabi works closely with subsidiaries that do not have their own respective boards to support them in developing policies, procedures and practices as described above in the cases of TCG and MHI.

Mr. Syed Basar Shueb

Position and Committee Memberships

Vice Chairman of ADH Board, Non - Independent/Non-Executive

Member, Audit Committee

Chairman, Investment Committee

Skills, Experience and External Appointments

Alongside his tenure at Alpha Dhabi, Syed Basar has held the position of Group CEO of the Pal Group of Companies since 2000 and holds leadership positions on several other high-profile companies, including Reem Finance PJSC, Chimera Investments, and Keyhole TIG (K-TIG) Limited, and is one of the key players in the UAE's utilities services sector through PAL District Cooling.

In addition to becoming CEO, Managing Director and a member of the Board of Directors of IHC, Syed Basar was elected to the Board of Directors of the Abu Dhabi Chamber of Commerce and Industry, besides his board membership in Invictus Investment PLC.

An accomplished and respected senior executive, he has substantial and diversified experience in the processing, manufacturing, construction, finance and service industries, and was listed in Top10 Middle East's CEOs by Forbes in 2023; Basar is known to be a decisive and pragmatic leader, and for his skill in creating and nurturing cohesive and focused business units that grow profitable bottom lines.

He has played an integral part in International Holding Company (IHC) continually being in the top performers of Abu Dhabi Bourse's listed companies.

Mr. Hamad Salem Mohamed Binlouteya Alameri

Position and Committee Memberships

Board Member, Non-Independent/ Executive

Managing Director

Member, Nomination and Remuneration Committee

Member, Investment Committee

Skills, Experience and External Appointments

Eng. Hamad Alameri is the Managing Director and Group CEO of Alpha Dhabi Holding PJSC, one of the fastest growing Abu Dhabi based investment holding companies, with more than 250 businesses spread across healthcare, renewable energy, petrochemical and other industries as well as real estate, construction and hospitality.

Since being appointed Group CEO of Alpha Dhabi in 2021, Eng. Alameri has spearheaded a rapid and comprehensive transformation of the group as a strategic contributor to the UAE economy and is committed to drive continuous growth for its stakeholders through investments in emerging businesses, supporting innovation and diversity.

He has guided Alpha Dhabi through a number of strategic firsts, including the group's IPO on the Abu Dhabi Stock Exchange in June 2021. Since its IPO he has continued to transform the group by leading a multi-billion dollar M&A and Investment strategy which saw the group enter new sectors including Renewable Energy, Petrochemicals and Fintech.

Alpha Dhabi is now one of the top 15 listed companies in the MENA region with a market capitalization of almost USD 50 billion. Under his leadership he has implemented a strategy to increase the geographic reach of the group and in the first year since its IPO overseas revenues increased by over 500%.

Eng. Alameri also holds key positions in some prominent listed and private companies in the UAE including Vice Chairman of National Marine Dredging Company PJSC, Chairman of Abu Dhabi National Hotels Company PJSC, Board Member of Aldar Properties PJSC, Board Member of ADC Acquisition Corporation PJSC Shares, Board Member of Mawarid Holding Investment.

Sofia Lasky has been with IHC since April 2020, and brings considerable experience in asset management, mergers and acquisitions, private equity, portfolio management, alternative investments, funds, valuation, financing, capital markets and corporate structuring through her 18-year tenure at Royal Group.

She has overseen the acquisition of numerous companies in a variety of core industries, including real estate, contracting, food processing, preventive healthcare, and capital investments. Her contribution towards the growth of companies within the Royal Group has been invaluable.

She holds a Bachelor's Degree in Management Information Technology from the United Kingdom and has held and continues to occupy a position on the Board of Directors of a number of companies, including ADH, ALDAR and National Corporation for Tourism and Hotels (NCTH). Sofia has also served as a Board Member of Macquarie Capital Middle East LLC.

The Board Secretary

Ms. Denise Chamoun was appointed as Board Secretary in March 2022. Ms Chamoun has a bachelor's degree from the Lebanese University, she is a Certified Board secretary from Hamwkamah and holder of Advanced Corporate Governance Certificate from UK Governance Institute. Ms. Chamoun is also pursuing her studies to become a Chartered Secretary/ Governance Professional from the same Institute.

The responsibilities of the Board Secretary are as follows:

- Documenting Board meetings and preparing their minutes;
- Maintaining the reports submitted to the Board of Directors and the reports prepared by the Board;
- Providing the members of the Board of Directors with the agenda of the meeting of the Board of Directors, papers, documents and relevant-information, and any additional information related to the topics covered in the agenda items requested by any Board member;
- Ensuring the compliance of the members to the procedures approved by the Board of Directors;
- Notifying the members of the Board of Directors of the dates of the Board meetings sufficiently before the date set for the meeting;
- Submitting the draft minutes to the Board members to express their opinions thereon before signing it;
- Ensuring that the members of the Board of Directors receive without delay a copy of the minutes of the Board of Directors' meetings, and the information and documents related to the company;
- Communicating the decisions of the Board of Directors and its committees to the Executive Management of the company and submitting reports on their implementation and application;
- Supporting the Board of Directors' evaluation process; and
- Coordination between members of the Board of Directors and the Executive Management Team in the Company.

Key focus areas for the Board during 2023

During 2023, the Board of Directors focused and made decisions on various areas as below.

- Listing of core portfolio company Pure Health Holding on the ADX;
- Acquisitions of various strategic investments;
- Updates from the Management on Group performance;
- Review of Proposed changes to the Articles of Association;
- Review and approval of Annual budget;
- Review of various operational matters as listed under "allowances 2023" (later in the report).

The Board of Directors' Other Statements

Method of Determining the Remunerations of Board of Directors

The Board of Directors' remuneration shall be determined in accordance with the Articles of Association of the Company, subject to the provisions of Federal Law No. (32)/2021 regarding commercial companies. The remuneration of the members of the Board of Directors is subject to approval of the shareholders at the Annual General Assembly meeting.

The Company may also pay additional expenses or fees or monthly salary to the extent determined by the Board of Directors for any of its members, if this member is working in any Committee, or exerts exceptional efforts or performs additional work to serve the Company, beyond his or her normal duties as a member of the Board. In all cases, Directors' remuneration should not exceed 10% of the net profit after deducting all amortizations and reserves.

Total Remunerations paid/proposed to the Members of Board of Directors in 2023

AED 10 million remuneration has been approved and paid in 2023 to the Board of Directors for the year 2022.

AED 10 million remuneration to the Board of Directors has been proposed for the year 2023, subject to approval by the shareholders at the Annual General Assembly in 2024.

- **Details of the allowances for attending sessions of the committees emanating from the Board, which were received by the Board members for the year 2023.**

No allowances were paid for attending the meetings of the Board of Directors or the Committees emanating from the Board for the year 2022.

- **Details of the additional allowances, salaries or fees received by a Board member, during the year 2023, other than the allowances for attending the committees and their reasons.**

No allowances, salaries, or additional fees were disbursed during the year 2023.

Board of Directors' Committees

The Four Board Committees assist the Board in discharging its responsibilities. The Committees operate in line with their respective charters (under review by the Board Audit Committee for final approval by the Board of Directors) which set out their roles, responsibilities, the scope of authority, composition, and procedures for reporting to the Board.

Audit Committee

It is the responsibility of the Committee to provide the board with independent, objective advice on the adequacy of management's arrangements with respect to the following key aspects of the management of the Company.

Audit Committee Acknowledgment

The Chairperson of the Audit Committee acknowledges responsibility for discharging the Audit Committee's mandate across the Group including review of its work mechanism and ensuring its effectiveness in line with the Audit Committee Charter.

Members of the Audit Committee as of 31st December 2023

S. No	Name	Title	Category
1	Ms. Sofia Abdellatif Lasky	Chairperson	Independent/ Non-Executive
2	Mr. Sultan Dhahi Alhemeiri	Member	Independent / Non-Executive
3	Mr. Syed Basar Shueb	Member	Non - Independent /Non-Executive

Audit Committee Functions

Financial Reporting

- Reviews with the management and the external auditors all significant matters including audit opinions on the quarterly, half-yearly (as applicable) and year-end financial statements and recommend its adoption by the Board;
- Monitors compliance with financial reporting standards and regulatory requirements;
- Reviews significant accounting and reporting issues;
- Reviews the Company's financial and accounting policies and procedures;
- Reviews any management letter from the external auditors and ensures corrective actions by executive management; and
- Reviews any related party transactions and reviews compliance with such rules for the conduct and approval of such transactions.

Corporate Governance

- Oversees and monitors the implementation of the corporate governance framework within ADH and ensures compliance to the regulatory requirements;
- Reviews the Company's procedures by which employees, vendors/ contractors may, in confidence, raise concerns about improprieties in matters of financial reporting or other matters. The Committee shall ensure that these arrangements allow independent investigation of such matters and appropriate follow-up action; and
- Reviews and recommends to the Board, the Annual Governance Report submitted to the regulatory authorities.

Internal Control and Risk Management

- Monitors the risks that the Company may face and provides guidance to management, as needed;
- Reviews adequacy and monitors effectiveness of the risk management policy by evaluating the risk management processes and systems. The purpose of such processes and systems is to determine, report and manage key risks of a strategic and commercial nature;
- Requires periodic progress reports from management on the implementation of risk management controls, mitigation strategies and action plans, and determines whether they are adequate and make recommendations to the Board as appropriate;
- Ensures an annual review of internal control system is performed to determine the overall adequacy and effectiveness of ADH's Internal Control System; and
- Ensures that resources are available for internal control functions and reviews/monitors the effectiveness of the function.

External Audit

- Oversees and makes recommendation on the appointment of external auditors to the Board, their fees, and any questions relating to their resignation or removal;
- Approves their terms of engagement, including any engagement letter issued at the start of each audit and the scope of the audit;
- Assesses annually their independence and objectivity considering relevant professional and regulatory requirements and the relationship with the auditor, including the provision of any non-audit services;
- Meets regularly with the statutory auditor to discuss the auditor's remit and any issues arising from the audits;
- Evaluates on an annual basis the external auditor's qualifications, performance and independence; and
- Ensures that Senior Management is taking necessary corrective actions to address the findings and recommendations of statutory auditors in a timely manner.

Group Internal Audit

- Reviews and approves the Internal Audit Charter;
- Reviews and approves audit plans, budget, staffing, and organisational structure of the Internal Audit Function and related Internal Control activities;
- Reviews the appointment, resignation or dismissal of the internal audit staff and the internal audit service provider, in case of an outsourced service provider;
- Reviews all reports submitted to the Committee by the Internal Audit Function and monitors management response and action to the findings and recommendations. Ensures that control weaknesses, non-compliance with policies, laws and regulations and other problems identified by internal auditors are adequately and timely addressed by Executive Management.
- Reviews performance of the Internal Audit Function/Outsourced Internal Audit service provider (as applicable) and evaluates its performance on an annual basis; and
- Reports to the Board all matters presented to the Audit Committee by virtue of the delegation.

Compliance Monitoring

- Monitors the status of ADH's compliance with applicable laws, regulations and agreements; and
- Reviews the related parties' transactions with the Company and ensures that there is no conflict of interest and recommends them to the Board of Directors before their conclusion.

Executive Management

Executive Management Profile

Eng. Hamad Salem Mohamed Binlouteya Alameri, Managing Director

Eng. Hamad holds a BSc. in Civil Engineering from the American University of Dubai and a Masters Degree in Business Administration from the Canadian University.

Eng. Hamad Alameri is the Managing Director & Group CEO of Alpha Dhabi Holding PJSC, one of the fastest growing Abu Dhabi based investment holding companies, with more than 250 businesses spread across healthcare, renewable energy, petrochemical and other industries as well as real estate, construction and hospitality.

Since being appointed Group CEO of Alpha Dhabi in 2021, Eng. Alameri has spearheaded a rapid and comprehensive transformation of the group as a strategic contributor to the UAE economy and is committed to drive continuous growth for its stakeholders through investments in emerging businesses, supporting innovation and diversity.

He has guided Alpha Dhabi through a number of strategic firsts, including the group's IPO on the Abu Dhabi Stock Exchange in June 2021. Since its IPO he has continued to transform the group by leading a multi-billion dollar M&A and Investment strategy which saw the group enter new sectors including Renewable Energy, Petrochemicals and Fintech.

Alpha Dhabi is now one of the top 20 listed companies in the MENA region with a market capitalization of almost USD 50 billion. Under his leadership he has implemented a strategy to increase the geographic reach of the group and in the first year since its IPO overseas revenues increased by over 500%.

Mohammad Yaser Bader, Group Chief Financial Officer

A graduate of Philadelphia University Jordan, Mohammad Yaser began his career as a Finance and Accounting specialist in 2005, working on finance, accounting, mergers & acquisitions, investments, and financial management strategies. Today, he is a Certified Management Accountant and Internal Auditor with impeccable management experience garnered during a career approaching 18+ years with leading organizations in the region.

Since joining the International Holding Company (IHC) in 2011, he has been accountable for corporate finance functions and accounting, aiding top management, and devising financial plans for leading organizations in the UAE.

Derek Nicholson, Director Strategy & Planning

A qualified accountant who has also completed courses at INSEAD and Harvard Business School, Derek Nicholson has over 28 years of experience, 11 of which have been in the Middle East, with expertise gained in multiple business sectors, including investment banking, oil & gas, real estate, and healthcare. As the Director of Strategy & Planning at Alpha Dhabi Holding, he leads the group's research to identify diversification opportunities into new sectors and countries, in addition to driving strategic growth across Alpha Dhabi's existing portfolio.

During his long career, Derek has led multiple mergers and acquisitions, investment, and divestment transactions across all stages of the business cycle. Previous roles include a position at Barclays and Standard Life Investments (now ABRDN), as well as a large private conglomerate in the UAE.

Khalil Massoud, Chief Investment Officer

Holding a Master's in accounting and finance from the London School of Economics and a Bachelor's in business administration from the American University of Beirut, Khalil is a seasoned executive with over 19 years of experience and a demonstrated track record in Mergers & Acquisitions (M&A), capital markets, private equity, and the investment management industry in the MENA region.

At Alpha Dhabi Holding, Khalil heads the Investments Division and is responsible for originating and executing investment opportunities for the group, in addition to supporting portfolio companies in their M&A activities. In addition, Mr. Massoud is also responsible to manage the existing portfolio and serves on several committees and boards representing the company's interests. Prior to joining FH Capital, Mr. Massoud spent over 14 years at The National Investor PJSC (TNI), most recently as Director – Merchant Banking. During his time at TNI, Mr. Massoud gained a varied experience in private equity and investment banking, across most sectors in the MENA region, in addition to working on some of the UAE landmark IPOs.

Some of the board positions he has held include companies such as NAS United Healthcare Services, Finance House Securities, and Grako.

Rashid Khalfan Almheiri, Group Head of Human Resources & Administration

Rashid Khalfan Almheiri brings to bear 16 years of relevant experience gained at the Dubai Public Prosecution, Emirates Group (Airline), the UAE Ministry of Foreign Affairs, and Massar Solutions PJSC. Throughout his career journey, Rashid consistently demonstrated his commitment to fostering a positive workplace culture, enhancing employee engagement, and ensuring compliance with regulatory requirements. Rashid's qualifications include a CIPD Diploma in Human Resources Management and a bachelor's degree in E-Business Management from the Higher Colleges of Technology. He has also completed executive training courses at KPMG, INSEAD, and the London Business School.

Basma Bouazzi, Legal Counsel

Basma Bouazzi joined Alpha Dhabi in October 2022, and acts as a general lawyer, handling all legal matters within the organization and working closely with external lawyers. She oversees all corporate legal processes. Basma is an experienced Legal Counsel with over 20 years of progressive legal and compliance experience in the UAE, including corporate, licensing, litigation, due diligence, IP issues, trademark, copyright, AML, and all related Legal and Compliance matters.

Prior to joining Alpha Dhabi, Basma held the VP Legal and Compliance position at The National Investor PJSC, based in Abu Dhabi, and during her tenure there was responsible for all legal, compliance and investor relations matters, serving as the Board of Directors' Secretary. Basma has also worked for the Al Fahim Group as in-house Senior Legal Counsel, and for Clyde & Co., one of the largest international law firms in the Middle East.

In addition to holding a Bachelor's Degree in Private Law, Basma has completed a range of courses from the CCL Academy

Samy Ben - Jaafar, Director Sustainability & Treasury

Samy heads the Group's Sustainability and Treasury functions. He has 25 years of experience in impact and ESG investing, CSR and banking; with assignments in Europe, the Middle East, Africa and East Asia.

Samy has successfully launched three financial institutions as inaugural CEO and Investments Director, including the Dubai Green Fund and the United Nations' US\$ 10 billion Green Climate Fund in South Korea. He started his career at Citibank New York and served as Maghreb Corporate & Investment Bank Head; Asia Pacific & Middle East Region Director for Investment Finance; and CSR officer.

Ignacio Varona Lopez, Group Head of Compliance & Governance

Ignacio Lopez leads the team dedicated to the management of Compliance, Governance and Risk. Ignacio brings to bear subject matter expertise in matters of Compliance, Governance, Assurance and Fraud Management. He was part of EY's Fraud Investigation Team and served as a PwC Financial Crime Manager. Most recently, Ignacio was responsible for Compliance Governance at Commercial Bank of Dubai (CBD). In this role, he oversaw CBD's AML/CFT and KYC functions; lead Quality Assurance reviews of processes; managed the implementation of new systems; and was designated a Subject Matter Expert to advise to the first line of defence and provide the relevant trainings.

Total salaries, allowances & bonuses paid to the Executive Management during the year 2023 are as follows;

Related Parties Transactions

Summary of transactions with related parties amounting to 5% or more of Company's capital for the year 2023

The Company has entered into transactions with companies and entities that fall within the definition of a related party under the Corporate Governance Code or the International Accounting Standards 24: Related Party Disclosures. The nature of such transactions relate to the Company's normal course of business and details of such transactions are disclosed in the Company's 2023 audited financial statements.

The Company did not have transactions with any related parties amounting to 5% or more of Company's capital for the year 2023

Risk Management and Internal Control System

The Board of Directors acknowledges its responsibility for the Company's risk management and internal control system and its review and effectiveness.

Risk Management

Risk Management is the responsibility of the Board and is integral to the achievement of our strategic objectives. The Board is responsible for establishing the system of risk management, setting the risk appetite of the Group and for maintaining a sound internal control system. The Audit Committee and the Audit Committees of Business Units listed in the financial markets oversee the risk management process and assesses the effectiveness of risk management within the Group and / or the Business Units (wherever applicable).

The preponderance of risk carried by ADH continues to rest in its exposure to Public Joint Stock Companies (PJSC) and third party managed funds. These comprise investments in Pure Health Holding PJSC (Pure Health), ALDAR Properties PJSC (ALDAR), National Marine Dredging Company PJSC (NMDC) and WIO Bank PJSC (WIO Bank); Joint Ventures with Abu Dhabi National Oil Company (ADNOC) and Mubadala; and investments in Alpha Wave funds. Pure Health, ALDAR and NMDC are publicly traded companies listed on the Abu Dhabi Stock Exchange, fall under the supervision of the UAE's Securities and Commodity Authority and all of which have respective Boards that ensure and oversee the management of their respective risks. Alpha Dhabi has Board representation in these entities.

The preponderance of residual risk at the ADH level has been, during this rapid growth phase, related to the making of investments. To mitigate this risk, the services of third party financial, advisory, accounting and legal firms have been retained to conduct due diligence on investment targets as and when required.

Internal Control System

The Board is responsible for establishing and maintaining an effective system of internal control to assess the methods and procedures of risk management, ensure proper application of the Governance Code, comply with applicable laws and regulations and internal policies, and review the financial information used in the preparation of the Company's financial statements. This system of internal control is embedded in all key operations and is designed to provide reasonable assurance that the Group's business objectives will be achieved. The Audit and Committee reviews the effectiveness of the system of internal controls in accordance with its remit.

The Board of Directors' Acknowledgement of its Responsibility for the Internal Control System and its review and effectiveness

The Board of Directors acknowledges its responsibility for the Company's internal control system and its review and effectiveness.

Internal Control Function- Profile

Mr. Khalil Ahmed Khan is the Internal Control and Compliance Officer performing the duties relating to internal control in addition to the duties of compliance. Khalil holds a bachelor's degree in commerce in addition to other professional certifications and has more than 15 years of experience in accounting and internal auditing with the offices of certified auditors, commercial companies and contracting companies. He has been with the Company since 2017.

To adapt to the changing and growing needs of the organization and to reinforce the capacity and subject knowledge matter provided by Mr. Khalil Ahmed Khan, ADH has taken the following measures. It has retained the services of AJMS as the Company's outsourced Compliance Officer for the management of the Company's KYC and Anti-Money-Laundering-Terrorism Financing-Sanctions. It has further retained the services of Renoir Group to conduct an Environmental, Social and Governance gap analysis for the Company and two of its key subsidiaries (i.e. TCG and MHI) under its direct control. It further used Renoir Group and RubikZ Consulting for the development of relevant frameworks, policies and documents addressing control in compliance, governance and finance for the Company and two of its key subsidiaries. It has created a unit solely dedicated to the management of compliance, governance and risk. And it has retained the services of Protiviti as the company's outsourced internal audit function, submitting its reports directly to the Company's Board's Audit Committee. The outsourced

Internal Audit Function governs itself by adherence to the Institute of Internal Auditors' mandatory guidance, including the definition of internal auditing, the code of ethics and the international standards for the professional practice of internal auditing (standards).

AJMS (<https://www.ajmsglobal.com>) is a reputable firm with presence in the Middle East, Asia and Europe that include offices in Dubai, Abu Dhabi, Riyadh, Amsterdam, London, Hong Kong and Manama. AJMS employs 400 people and its client list, include Emirates Digital Wallet, DU Telecom, Emirates Development Bank, Dubai Economic Department, Port Authority of UAE and Dubai Insurance. Renoir Group (www.renoirgroup.com) has 350 employees with hubs in the UK, UAE, Malaysia, Brazil and India. Its practice include operational excellence, business transformation and environmental, social and governance, with a client base which includes multinationals such as Shell. RubikZ Consulting is led by a professionally qualified Chartered Accountant and Certified Public Accountant with Internal Audit and Control experience across Conglomerates and Big 4 Consulting Firms.

Protiviti (www.protiviti.com) is a reputable firm that has been operating in the region for a number of years, with particular experience in internal audit services. Protiviti and its independent, locally owned member firms also provide consulting and managed solutions in finance, technology, risk and internal audit through its network of offices. Protiviti is a wholly owned subsidiary of Robert Half, which was founded in 1948, and is a member of the S&P 500 index.

Considering regulatory requirements and the nature of business complexities, where appropriate subsidiaries that have their own Board and are publicly traded have setup independent internal control function within the respective units reporting to their respective Audit Committee and / or Board.

Working Mechanism of the Internal Control Function

The internal control function is established by the Board of Directors, supported by the Audit Committee. The department's responsibilities are defined by the Audit Committee as part of their oversight role.

The duties and responsibilities of the internal control department will be to provide timely feedback to the Audit Committee on matters relating to:

- Reliability and integrity of financial and operating reports;
- Effectiveness and efficiency of operations;
- Safeguarding of assets; and
- Compliance with laws, regulations, directives, and contractual obligations.

The in-house and the outsourced internal audit functions are responsible for independent, objective assurance, to systematically evaluate and propose improvements for more effective governance, internal control and risk management processes. The process of internal control and risk management has been developed to provide reasonable assurance that the Group's goals are met in terms of efficient operations, compliance with relevant laws and regulations and reliable financial reporting. Internal audit assignments are conducted according to a risk-based plan developed annually, reviewed periodically, and approved by the Audit Committee.

The audit plan is derived from an independent risk assessment conducted by the outsourced Internal Audit team to identify and evaluate risks associated with the execution of the company strategy, operations, and processes. The plan is designed to address the most significant risks identified within the Group and its business areas. The audits are executed using a methodology for evaluating the design and effectiveness of internal controls to ensure that risks are adequately addressed, and processes are operated efficiently. Opportunities for improving the efficiency in the governance, internal control and risk management processes identified in the internal audits are reported to responsible business unit management for action. A summary of audit results is provided to the Audit Committee, as is the status of management's implementation of agreed actions to address findings identified in the audits.

The Annual Review includes the following components in particular

- Key control elements including financial control, operations and risk management;
- Changes since the last annual review on the nature and extent of the major risks and the Company's ability to respond to changes in its business and external environment;
- The scope and quality of the Board's ongoing control of risks, the internal control system and the internal auditor's work;
- The number of times the Board of Directors or its committees have been informed about audit work results to enable it to assess the internal control position of the Company and the effectiveness of risk management;
- Failures or weaknesses in the detected control system or unexpected contingencies which have affected or may have a material impact on the performance or financial position of the Company;
- The effectiveness of the Company's financial reporting and compliance with listing and disclosure rules.

Number of Reports issued by Internal Control Function

During the year 2023, 47 reports were issued by the internal control functions within the Group. No significant operational internal control failures were identified. However, process level improvements were identified and accepted by management for implementation towards the continuous improvement of internal controls of the Group.

External Auditor

Brief about the Company's External Auditor

Deloitte & Touche (M.E.) LLP ("Deloitte") was appointed as the company's external auditor for the fiscal year 2023, and Mr. Mohammad Khamees Al Tah is the Engagement Partner. Deloitte is the affiliate for the territories of the Middle East and Cyprus of Deloitte NSE LLP, a UK Limited Liability partnership and member firm of Deloitte Touche Tohmatsu Limited. Deloitte is a leading professional services firm established in the Middle East region since 1926 and provides Audit and Assurance, Consulting, Financial Advisory, Risk Advisory and Tax services.

The scope of the audit for the financial year 2023 is as follows:

1. Provides an audit opinion on the annual consolidated financial statements in accordance with International Financial Reporting Standards;
2. Provides an audit opinion on the financial statements of ADH and its subsidiaries in accordance with International Financial Reporting Standards; and
3. Provides a review of quarterly interim condensed consolidated financial statements in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting".

External audit fees, Services & Costs

Below are the details and breakdowns of the external audit costs paid during 2023

- The external audit services fees of Deloitte & Touche (M.E.) for 2023 amounted to **AED 1,018,500** (including a cost overrun for AED 47,250 related 2022). These fees are against annual audit and interim review of financial statements of ADH and subsidiaries.
- The fees for services, which were delivered to the Company in 2023 by other Audit firms, other than the Company's auditors, amounted to **AED 12,367,580**. These fees were against advisory services particularly outsourced internal audit Services, Purchase Price Allocation and Due Diligence Services (Financial and Legal) for various acquisitions by ADH, Corporate Governance services and Sustainability reporting services. The firms, which delivered these services were as follows:
 - Acquara Management Consultant
 - GLS Solutions Pte. Ltd
 - RubikZ Consulting FZCO
 - ESG Integrate FZE
 - HadeF & Partners LLC
 - KPMG Lower Gulf Limited
 - Ardent Advisory & Accounting LLC
 - Freshfields Bruckhaus Deringer LLP
 - Protiviti Member Firm Middle East Consultancy LLC
 - BDO India LLP
 - Norton Rose Fulbright (Middle East) LLP
 - Pricewaterhousecoopers Business Solutions – PwC
 - AJMS Global Consulting
 - Grant Thornton Audit and Accounting Limited
 - Ashurst LLP
 - Latham & Watkins LLP
 - Clyde & Co LLP

External Auditor's opinion on the financial statements

The Company's external auditor did not have any reservations to any item of the interim and annual financial statements during 2023.

Violations Committed by the Group during the year 2023

During the year 2023, the Group was not subject to any material fines or penalties imposed by SCA or any statutory authority on any matter related to capital markets. Additionally, there have been no cases of material non-compliance with any applicable rules and regulations.

Corporate Social Responsibility (CSR) initiatives

ADH recognizes the vital role it plays as a member of the Abu Dhabi community. Accordingly, ADH places importance on promoting the societal well being of stakeholders, be they employees, customers or communities in which its subsidiaries operate. ADH works closely with subsidiaries under its direct control to develop and implement CSR plans that provide meaningful benefit to these stakeholders in a manner that is aligned with the United Nations Sustainable Development Goals (UNSDGs).

For example, Trojan employees volunteered 150,000 person-hours to clean local beaches and communities (UN SDGs 11 & 15). They also provided 150 person-hours of accounting training to University of Al Ain students and of crane operational safety training to Al Dhafra Municipality employees (UN SDG 4).

As relates to the good health and wellbeing of internal stakeholders / employees (UN SDG 3), the following examples highlight ADH's approach. Trojan has implemented continual safety trainings, measures and precautions through which it has achieved 0.02% accident frequency rate among its project on more than 160 million person-hours (UN SDG 3). NMDC provides its labor force with support for Umrah and Hajj, sports activities, general check ups, and health awareness campaigns.

Sustainability initiatives

ADH continues to work towards enhancing its sustainability goals and achievements, and aligning itself with the sustainability related objectives set in Abu Dhabi Vision 2030 and "We the UAE 2031" Vision. As part of this process, ADH initiated a third party conducted ESG exercise on itself and the key subsidiaries it controls (TCG and MHI).

For example, Trojan has developed an Environmental Policy aligned with regulations and industry best practices, emphasizing clean technologies, Resource Management, Pollution Prevention, and Waste Management. It has secured ISO certifications in Environmental Management Systems (ISO 14001:2015) and Energy Management (ISO 50001). In 2023 Trojan generated 90% of its revenues from sustainable rated projects, such as LEED and ESTIDAMA (UN SDG 11). Similarly, Mawarid has developed a Responsible Investment Policy. In addition, it achieved a reduction in waste of 9 tons per 100 sq meters built up area and a 92% waste recycling rate (UN SDG 12). Similarly, Mawarid has been promoting new water smart technologies aimed at reducing water consumption of plants by 30% - 50% (UN SDGs 13 & 15) as it continues to manage 18 million trees covering 240,000 hectares that host over 65,000 animals from 25 different species.

ADH has also hired an external firm to prepare the sustainability report for 2023 and the report can be accessed as part of ADH's Integrated report.

Investor Relations Affairs

The Board is committed to communicating its strategy and activities clearly to its investors and maintains an active dialogue with investors through various Investor Relations activities. ADH regularly announces its results to SCA, ADX and shareholders by way of interim management statements, quarterly results, and the annual report and annual financial statements. Significant matters relating to ADH, and Group entities are disclosed to SCA, ADX and general public by way of market disclosures and announcements in accordance with the related provisions of applicable laws and regulations, in addition to press releases and postings on the Group's website. Contact with investors is largely managed by the Investor Relations team.

A special investor relations page has been created on the company's website to be constantly updated and maintained in line with international standards, including Investor Relations Department data and contact information such as, a dedicated phone number and e-mail, providing all reports on financial results whether recorded or published, Financial year data, including the dates of publication of financial results data, minutes of meetings of the General Assemblies, and any other important events.

Ms. Rasha Abdallah has been appointed as The Investor Relations Officer. She holds the following qualifications:

- Holds Bachelor of Business Administration in Finance and Master's degree in Business Administration from Abu Dhabi University.
- Aware of the relevant legal and legislative requirements.
- Has full knowledge of the company's activities and opportunities.
- Has the ability to use different channels of communication and has the skills to communicate with investors in securities.

Information and data disclosed to regulators, markets or the public are posted on the company's website at the following link:

Significant Events During 2023

January 2023

- Established MICAD Credit JV RSC Ltd with Mubadala to invest USD 2.5 billion in global private credit opportunities sourced through its strategic partnership with Apollo (NYSE: APO).

May 2023

- Acquisition of 36.4% (AED 730 million) shareholding in National Corporation for Tourism and Hotels.

July 2023

- Signed a Memorandum of Understanding (MOU) with Turkey-based Limak Group to Drive Sustainable Development in UAE and Turkey.

August 2023

- Acquisition of Circle Health Group valued at \$1.2 billion by Pure Health, an associate of Alpha Dhabi Holding PJSC .

September 2023

- Signed Sales and Purchase Agreement (SPA) for the acquisition of major stake in Metito Holdings Ltd, a global leader in the water and wastewater industry, subject to satisfaction of conditions precedent and regulatory approvals.

October 2023

- Acquisition of 35.1% of Em Sherif Holding Ltd. and 99.1% of L Capital KDT Ltd. through subsidiary ADMO Lifestyle Holding Ltd.
- Signed SPA for the acquisition of 51% stake in NTS Amega Global, a premium provider of innovative manufacturing, repair and rental solutions for customers and end users across the Oil & Gas sector, subject to regulatory approvals.

December 2023

- Established a strategic investment joint venture with ADNOC Drilling Company PJSC to invest up to \$1.5 billion to acquire technology-enabled companies in the oilfield services (“OFS”) and energy sectors.

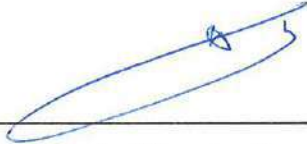

Initiatives and Innovations During 2023

ADH is attune to the fact that its continued impact as a member of the Abu Dhabi commercial, financial and environmental ecosystem requires it to scan for and adopt new technologies.

Trojan, for example, has adopted Building Information Modelling (BIM), data science tools, cloud services, and drones to enhance operational efficiencies while minimizing environmental impacts. And, it is calculating and addressing its Green House Gas Emissions in the context of its data management systems. Similarly, Mawarid has turned to technological innovations to better manage the irrigation of plants. Mawarid has introduced MIIT (Mawarid Intelligent Irrigation Technologies), a system that revolutionizes traditional irrigation systems through the integration of autonomous irrigation powered by Artificial Intelligence (AI). This cutting-edge technology leverages wireless sensors; plant and soil data; and weather stations to optimize water usage in irrigation (with the aim of reducing water consumption by over 30%).

About This Report

(GRI 2-1, GRI 2-2, GRI 2-3, GRI 2-4, GRI 2-5, G7, G8, G9)

In 2023, a pivotal year for sustainability as the UAE hosted COP28, Alpha Dhabi Holding (ADH) has worked on enhancing its Environmental, Social and Governance (ESG) efforts for effectiveness, scalability and impact. Recognizing the profound implications of climate change on our environment, the communities we serve and our business operations, we have taken measured steps to integrate these concerns into our strategic planning and adopted an approach of more closely collaborating with subsidiaries to identify, monitor and manage critical ESG topics.

In this 2023 Sustainability report, we lay out our approach to promoting greater consideration to ESG factors across the ADH Group and highlight the ESG performance of ADH's largest subsidiaries. To gain a more complete perspective of our achievements and challenges, we recommend reviewing this document alongside the latest ESG reports of our subsidiaries, found on their respective websites.

REPORTING SCOPE AND BOUNDARY

This report provides information for the period from 1 January to 31 December 2023 unless otherwise stated.

The subsidiaries encompassed in this report's disclosures contribute to 88% of ADH's consolidated revenue:

1. Mawarid Holding Investments LLC
2. Trojan Construction Group – SP LLC
3. Aldar Properties PJSC
4. National Marine Dredging Company PJSC

Key factors in this assessment include our operational control over these entities, and prioritizing subsidiaries that have a high potential for ESG impact. Our strategic aim is to methodically expand ESG coverage and initiatives across the entire ADH Group, focusing on areas where our efforts could be most effective. Last year, PureHealth underwent an Initial Public Offering (IPO) on the Abu Dhabi Securities Exchange in December 2023, and is no longer financially consolidated as part of ADH's financials (derecognition). In addition, PureHealth disclosures were not considered for this report.

For a more in-depth view of both segregated and consolidated ESG performance data pertaining to the entities included in this report, readers can consult the Key ESG Performance Indicators section found in the Appendices. For further information on each entity's ESG strategy and performance, readers can refer to the latest ESG reports available for each entity on their respective websites.

FORWARD-LOOKING STATEMENTS

While all efforts have been made to ensure data accuracy, ADH operates in global and local markets where external factors outside its control can impact our

operations. Therefore, ADH bears no obligation to publicly update or revise any/all forward-looking statements included in this report unless required to do so by applicable laws and regulations.

For any queries or feedback about this report, please contact our investor relations team at IR@alphadhabi.com

A Letter from the Managing Director & CEO

(GRI 2-2)

We place great importance on the integral role that Alpha Dhabi Holding plays as a member of the Abu Dhabi and UAE social, commercial, financial and environmental fabric. We are guided by and deeply committed to the overarching developmental, economic and sustainability objectives set by the government of Abu Dhabi, the UAE and the United Nations SDGs.

The UAE's hosting of COP 28 in 2023 is a realization of the philosophy and vision of the UAE's founding father, His Highness the late Sheikh Zayed. He inextricably linked the UAE's environment to its future development, its history and its culture when he stated that "From the beginning, the UAE has regarded the protection of the environment as a main aspect of its development policy....it is one of the essential ingredients of our history and heritage." It is in this context that Alpha Dhabi Holding approaches sustainability.

We view sustainability as an ongoing iterative journey, marked by quantitative and qualitative milestones. We navigate this journey by capitalizing on the rich diversity of our stakeholders. We have adopted a consultative and collaborative bottom-up approach designed to engage and empower stakeholders to form and implement sustainability programs and initiatives that are meaningful to them.

In 2023, we worked closely with some of our key subsidiaries and affiliates to roll out nuanced sustainability programs that are tailored to their specific respective challenges, needs and opportunities. This enabled us to maximize impact. For example, having heard from stakeholders, we initiated WIO digital bank's offering of the region's first credit-card-linked Carbon Calculator; this empowered UAE residents to align their spending behaviour with their climate related values. Simultaneously, we rolled out catalytic, demonstrative and comprehensive tailored ESG exercises at two of our subsidiaries. We drew satisfaction when our efforts were recognized by an MSCI Provisional ESG rating of "A" for Trojan Construction Group, without losing sight of the multiple lessons learnt that can be of benefit to both Trojan and our other subsidiaries.

We expect to continue encountering challenges during the sustainability journey we have undertaken; particularly given that each of our subsidiaries have distinct operations, emissions hotspots, mitigation tools, value chains, as well as varying levels of data availability and quality. Our commitment to sustainability is integral to our being part of the Abu Dhabi ecosystem, and we view every challenge as a learning opportunity. Going forward, we are looking to cross-pollinate lessons learnt across our subsidiaries. We are also looking to increasing the degree to which technology and digitization are part of our group's sustainability journey, believing that the transition to a decarbonized circular Net-Zero economy is dependent on reliable data that can readily be analysed.

Eng. Hamad Salem Mohammed Saeed Al Ameri
Managing Director & Chief Executive Officer

About Alpha Dhabi Holding

OUR BUSINESS

(GRI 2-6, GRI 2-7, GRI 2-8, GRI 2-28)

Established in 2013, Alpha Dhabi Holding (ADH) has rapidly ascended as a leading investment holding company in Abu Dhabi with a diversified portfolio encompassing over 250 businesses, organized into eight verticals: (i) Industrial; (ii) Construction; (iii) Hospitality; (iv) Healthcare; (v) Investments; (vi) Energy; (vii) Climate Capital; and (viii) Real Estate.

ADH invests in emerging businesses and pioneering sectors, in alignment with Abu Dhabi Economic Vision 2030 and We the UAE 2031 vision. In so doing, we are dedicated to participating in the shaping of the UAE's economic future by fostering innovation, embracing diversity and driving continuous advancement for our stakeholders.

As we move forward, our focus remains on expanding our reach and impact. Our decisions are guided by a vision to support the dynamic development of the UAE economy, staying aligned with the nation's aspirations. ADH's journey is marked by strategic investments that yield financial results all the while contributing to a sustainable and diversified UAE economy.

ESG Approach at ADH

(GRI 2-29, GRI 2-30, GRI 3-1, GRI 3-2)

At ADH, we place importance on exploring and addressing how our business decisions resonate within the broader societal and environmental context, all the while addressing the need to deliver shareholder value. In this vein, we work to enhance ESG practices within our current assets, viewing this as an investment in the future resilience and prosperity of our portfolio. While continuously seeking to align with the UAE government's vision for economic diversification and sustainable development, we are laying the groundwork for a future where our commitment to sustainability is progressively interwoven with our strategy and business operations, thus serving our dual objective of creating shareholder value and advancing a responsible footprint.

OPERATIONALIZING ESG

Our approach to ESG is built on the premise of continuous improvement across our subsidiaries. In 2022, we conducted a materiality assessment that spanned across the Group's industries. This analysis generated a spectrum of material ESG topics, paving the way for a more nuanced approach. In 2023, we have been working with our subsidiaries to support them in spearheading their own assessments to pinpoint and address ESG topics that are most pertinent to their individual operations. This decentralized approach allows for more precise and operation-specific ESG initiatives and reporting, moving away from the one-size-fits-all model. The aim is to foster an environment where ESG integration is a strategic matter that is made highly relevant and responsive to the distinct contexts of each subsidiary and its stakeholders.

STAKEHOLDER ENGAGEMENT

Stakeholder engagement is an important component of ADH's ESG strategy, reflecting the company's commitment to a collaborative approach to addressing ESG topics. Recognizing the diverse interests and influences of its stakeholders, ADH is promoting a structured engagement approach to actively engage stakeholders into ADH's ESG initiatives. ADH's stakeholder engagement approach includes a mix of digital and personal interactions that promote bi-directional communication between ADH sustainability professionals and those directly involved in corporate operations and decision-making. For external stakeholders, ADH employs a blend of direct engagement and community events. These ongoing forms of engagement better enable ADH to identify relevant emerging ESG trends and related stakeholder positions and concerns.

ESG MATERIAL TOPICS

ADH’s ESG approach is decentralized in assessment and unified in vision. We aim to empower our subsidiaries with the autonomy they require to advance their ESG practices in alignment with overarching ADH values and objectives.

Drawing on stakeholder feedback, inhouse expertise in investment, sustainability and risk management, as well as insights from sustainability industry experts, and utilizing global frameworks like the Global Reporting Initiative (GRI) and the Sustainability Accounting Standards Board (SASB), we have pinpointed the following as our key focus areas:

- **Economic Development:** Ensuring fiscal practices that support sustainable growth.
- **Corporate & Sustainability Strategy:** Aligning corporate and sustainability objectives to stay adaptive and responsive to local and global ESG trends.
- **Compliance & Ethical Behaviour:** Maintaining robust governance frameworks and upholding ethical sourcing and supply chain integrity.
- **Human Capital Development:** Cultivating talent, prioritising employee satisfaction and well-being and ensuring an inclusive equal opportunity workplace.
- **Environmental Management:** Management of environmental risks and opportunities prioritizing carbon emissions and energy efficiency.

Common material topics across subsidiaries – **Compliance & Ethical Behaviour, Human Capital Development, Environmental Management and Health & Safety** – are integrated into ADH's reporting framework. This ensures that, while subsidiaries maintain autonomy over their ESG agendas, there is harmony in addressing issues that are universally important across the group.

OUR SUPPORT FOR GLOBAL GOALS AND OUR NATION'S VISION

In its capacity as one of the largest publicly traded entities in the UAE, ADH holds significant ownership in various key organizations that substantially bolster the local economy. Consequently, ADH is keen to play an active role in continually supporting the UAE's sustainability goals and objectives as expressed in the nation's Nationally Determined Contributions (NDCs), Abu Dhabi Economic Vision 2030 and We the UAE 2031 Vision. ADH also gives due consideration to international frameworks such as the United Nations' Paris Agreement and the Sustainable Development Goals (SDGs). For example, in 2023, ADH sought to align with specific targets under the UN SDGs. In so doing, by identifying SDGs that intersect most significantly with ADH's strategy and operations, ADH seeks to maximize its contribution to SDGs by focusing on those where it can be impactful.

SDG GOALS	TARGETS THAT ALIGN WITH OUR GROUP'S OPERATIONS	OPERATIONS WITH DIRECT INTERSECTION
	<p>Target 8.2 DIVERSIFY, INNOVATE AND UPGRADE FOR ECONOMIC PRODUCTIVITY</p> <p>Target 8.7 END MODERN SLAVERY, TRAFFICKING AND CHILD LABOUR</p> <p>Target 8.8 PROTECT LABOUR RIGHTS AND PROMOTE SAFE WORKING ENVIRONMENTS</p> <p>Target 8.A UNIVERSAL ACCESS TO BANKING, INSURANCE AND FINANCIAL SERVICES</p>

Responsible Owner and Employer

(GRI 202-2, GRI 401-1, GRI 401-2, GRI 403-8, GRI 403-9, GRI 404-1, GRI 404-2, GRI 404-3, GRI 405-1, GRI 405-2, GRI 406-1, S2, S3, S4, S5, S6, S7, S8, S11, G1)

OUR INVESTMENT STRATEGY

ADH continues to diversify its revenue streams while expanding into new markets, both geographically and across different sectors. This approach is in line with our long-term vision of being a catalyst by supporting businesses to elevate and realize their potential. We do so in a manner that is aligned with the UAE's vision for economic diversification and sustainability. Our choices and decisions are influenced by parameters that include technology, sustainability, global economics, consumer trends and community considerations. These factors guide ADH's approach to identifying growth opportunities, both domestically and internationally.

ADH focuses on identifying and filling market gaps, often through synergetic strategic partnerships and collaborations. ADH subscribes to the belief that a rapidly changing local and global environment requires adapting business models to suit relevant and prevalent market conditions, as well as continuously monitoring emerging technologies and adopting those that are cost effective when appropriate. ADH continues to monitor the evolution of blockchain, Internet of Things (IoT) and Artificial Intelligence (AI) for their potential applicability towards enhanced automation and decision-making.

GOVERNANCE

(GRI 2-9, GRI 2-10, GRI 2-11, GRI 2-15, GRI 2-16, GRI 2-17, GRI 2-18, GRI 2-19, GRI 2-20, GRI 2-21, GRI 2-23, GRI 2-24, GRI 2-25, GRI 2-26, GRI 2-27, GRI 205-1, GRI 205-2, GRI 205-3, GRI 417-1, GRI 417-2, S1, S9, S10, G2, G3, G4, G5, G6)

At ADH, the Board of Directors is the primary decision-making body for all matters that are material to the Group. The Board of Directors and ADH's Managing Director and CEO draw on their collective wealth of experiences, skills and subject matter knowledge to set the group's strategy, make decisions and ensure ADH's good governance.

Mr. Mohamed Thani Murshed Ghannam
Alrumaithi
Chairman

Mr. Syed Basar Shueb Syed Shueb
Vice Chairman

Mr. Hamad Salem Mohammed Saeed Alameri
Board Member, Managing Director and CEO

Ms. Sofia Abdellatif Lasky
Board Member

Mr. Sultan Dhahi Sultan Massam Alhemeiri
Board Member

The Board charts ADH’s strategy and guides management in its execution. The Board also ensures that ADH implements and adheres to good governance and ethical practices. Four board committees support the board, each dedicated to a distinct aspect of governance or operations. These are the Audit Committee; the Nomination and Remuneration Committee; the Insider Trading Supervision Committee; and the Investment Committee.

At the core of ADH's rapid ascent in recent years are our people, who drive our progress with their dedication and expertise. ADH, along with its subsidiaries, is deeply committed to nurturing a workplace environment that is meritocratic, equitable, ethical and devoid of discrimination. Whilst ADH continues to develop policies in line with these values, its leadership puts the accent on promoting a company culture that promotes integrity and fairness.

RISK MANAGEMENT & COMPLIANCE

ADH recognizes that its greatest ESG related risks lie within its subsidiaries, each varying in complexity. The preponderance of risk carried by ADH rests in its exposure to Public Joint Stock Companies (PJSC) and third party managed funds that have risk management and compliance policies, procedures and practices in line with the requirements set by their respective board of directors – on which ADH has representation when appropriate - and relevant regulatory authorities.

With respect to the residual risk carried directly at the level of ADH, and the subsidiaries that it controls directly, ADH has undertaken a number of measures to enhance risk management and compliance practices. It has created a unit

solely dedicated to the management of compliance, governance and risk. It has also undertaken a third party conducted ESG gap analysis; consequently, developed relevant policies and procedures (under review for approvals by board committees and board) with input from consultants; and retained the services of third-party service providers to reinforce its internal capacity.

ADH perceives ESG related risks and regulatory evolution as an opportunity for positive and impactful innovation. For example, Trojan Construction Group – SP LLC, one of ADH’s largest subsidiaries, adopted ISO 50001 on its energy management practices. This resulted in more efficient energy management and preferential electricity tariffs from the relevant utility.

WORKPLACE CULTURE AND VALUES

In 2023, we have made significant strides in diversifying our workforce, with women's representation increasing to 44% from 33% in the previous year, and our team now boasting members from 12 different nationalities. Moreover, in alignment with the UAE's emiratization

objectives, we have successfully increased the proportion of Emirati nationals in our team to 8%. Our team's diversity stands as a hallmark of our inclusive workplace culture. Our HR strategy, deeply rooted in a people-centric approach, emphasizes the dual objectives of attracting top talent and enhancing the diversity of thought and perspectives within our organization.

Beyond fostering diversity and inclusion, ADH is committed to providing meaningful employment. This encompasses financial security, job stability and employee well-being. Our HR team promotes fair compensation and a balanced work-life environment. All our employees are full-time and permanent and are eligible for a benefits package that includes life insurance, healthcare, parental leave and end-of-service provisions. Additionally, we place emphasis on personal and professional growth opportunities as a means of promoting employee satisfaction. This is reflected in our low turnover rate of 4% in 2023, underscoring the success of our employee-focused initiatives and the strength of our workplace culture.

Stewardship in Integrating ESG Across Subsidiaries

ESG PROGRAM IMPLEMENTATION

ADH adopts a progressive approach with its subsidiaries to enhance their ESG practices incrementally and meaningfully, recognizing that the transformation necessary for sustainable development is a complex and multifaceted challenge. Our focus has been on education and direct engagement with our subsidiaries to empower them to understand, measure and address ESG impact inherent to their respective operations. ADH worked closely with third-party sustainability consultants to build a modulated and comprehensive ESG program tailored to the individual needs and operations of key subsidiaries for an impactful integration that aligns with the overarching ESG objectives of the ADH Group. In 2023, we successfully rolled out and implemented the program with MHI Group and TCG.

We do not adhere to a top-down directive, one-size fits all, approach. Rather, we subscribe to a collaborative approach that must resonate with the specific challenges, complexities and stakeholders of each subsidiary.

Materiality Assessment & Gap Alignment

The program began with a comprehensive materiality assessment and gap alignment. We used globally recognized frameworks including the GRI, SASB and MSCI; local regulatory requirements; and sustainability ambitions. Subsidiaries were able to identify and align with material ESG factors through a double materiality approach, developing a nuanced understanding of the environmental, social and governance issues that are most material to their respective operations. They were able to simultaneously assess the specific ESG risks pertaining to their respective operations, and how their respective practices impact ESG factors.

ESG Strategy Development

After identifying material ESG topics and gaps, subsidiaries established their ESG strategic priorities. They articulated a clear statement and ESG pillars that resonate with each of their respective core values, vision and mission. The identified pillars, each with a set of clear objectives, help translate ESG priorities into tangible actions. These objectives were in turn operationalized through targeted initiatives, each backed by specific key performance indicators, offering a measurable and transparent framework for tracking ESG progress.

Policy and Procedural Improvements

With a better understanding of their ESG roadmaps and key performance indicators, subsidiaries then engaged in drafting policies and refining existing procedures with the aim of having their ESG commitments align with industry best practices all the while resonating with the relevant geographic and stakeholder context.

Embracing Global and Local ESG Initiatives

The program culminated in engaging relevant global initiatives like the United Nations Global Compact and United Nations Principles for Responsible Investment (PRI), as well as supporting local initiatives, such as the UAE Climate-Responsible Companies Pledge. This step was important to align with the principles and missions of these esteemed bodies.

ADH believes that ESG integration is about empowering subsidiaries to take ownership and lead an evolutionary change in their respective visions, strategies, operations and community engagement. It's an approach that value individual subsidiary dynamics while fostering a collective commitment to sustainability, social responsibility and good governance. Having rolled out the program on MHI Group and TCG, ADH is encouraging its other subsidiaries to follow suit.

CARBON ACCOUNTING PROGRAM

(GRI 302-1, GRI 302-2, GRI 302-3, GRI 303-5, GRI 305-1, GRI 305-2, GRI 305-3, GRI 305-4, GRI 306-3, GRI 307-1, E1, E2, E3, E4, E5, E6, E7, E8, E9, E10)

ADH views carbon emissions tracking and management as a potential source of cost savings, risk mitigation and operational efficiency. It stands to reason that a reduction in energy and resource utilization per dollar of revenue generated should result in better profits, all the while reducing our exposure to the price volatility of scarce commodity resources.

The cornerstone of ADH's emissions reduction efforts has been to promote and establish GHG inventory taking across the group. This foundational step, focused initially on material operations, has been challenging. Each of our subsidiaries have distinct operations, emissions hotspots, mitigation tools, challenges and value chains. We have had to navigate the complexities of dealing with varying degrees of data quality and availability across different operations and industries. These challenges have given us the opportunity of living several learning moments, from which we drew invaluable lessons. Our aim is to now cross-pollinate lessons learnt across subsidiaries, so that they can each benefit from each other's experiences.

As of 2023, all of ADH Group's largest subsidiaries, Aldar, NMDC, TCG and MHI Group calculate and disclose their annual GHG emissions including Scopes 1 and 2. Some subsidiaries are already expanding their Scope 3 calculations and have set science-based targets as part of their decarbonisation plans.

Most recently, ADH has been taking steps and encouraging initiatives to move subsidiaries towards digitizing their carbon accounting process. ADH believes that the transition to a decarbonized Net-Zero economy is dependent on reliable data that can readily be analysed. ADH views carbon accounting software as a means to ultimately improve the availability, accuracy and overall quality of the energy and emissions related data. Aldar, MHI Group and TCG are leading the way on this front. ADH and these subsidiaries have been assessing different digital platforms using the below criteria:

1. **Compatibility with ESG Maturity level and Data Availability**, to make allowances for varied levels of ESG maturity across subsidiaries so that each subsidiary can effectively track and manage its emission data.
2. **Cost-Benefit and Affordability**, balancing advanced functionalities with affordability so that subsidiaries can onboard without financial strain.
3. **Integration and Data Consolidation with Other Systems**, allowing for efficient consolidation of data across the group.
4. **Training and Support**, enabling subsidiaries to maximize usage of functionalities.

ESG Developments and Continuous Learning

MAWARID HOLDING INVESTMENT: FOCUSED ENVIRONMENTAL IMPACT

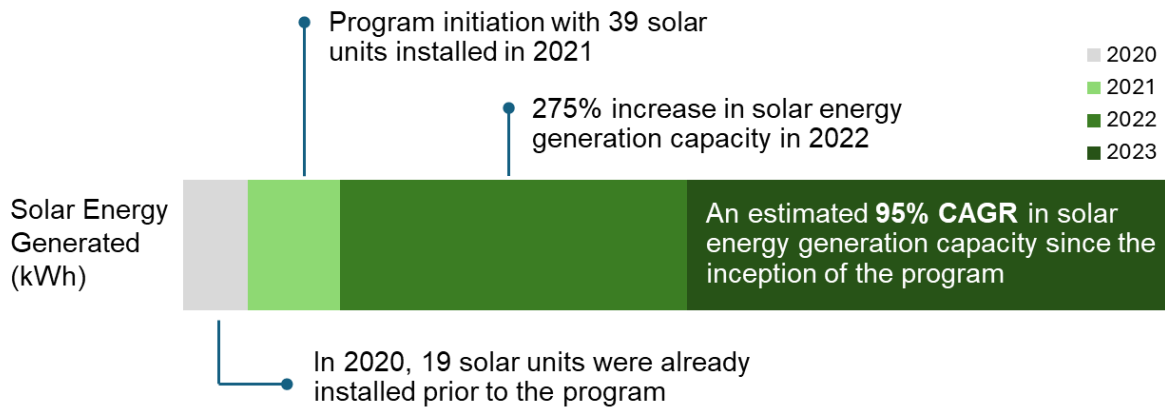

Founded in 2016, Mawarid Holding Investment (MHI) is a major player in natural capital conservation services in the UAE. The MHI Group, primarily focused on forest and wildlife management through its major subsidiaries Barari Natural Resources and Mawarid Services, is naturally aligned with sustainable practices. MHI Group manages over 400 individual forest sites and protected areas spread across circa 200,000 hectares in Abu Dhabi with more than 13.5 million predominantly native trees. MHI Group oversees the welfare of more than 100,000 individual wild animals, operates the world's largest breeding center for the endangered Arabian Tahr and cares for more than 120,000 wild birds, including over 30 endangered species. Consequently, the Group's inherent commitment to sustainability forms the backbone of its operations.

In 2023, MHI strategically embarked on an ESG program with the aim of documenting, aligning and formalizing ESG elements into the Group's existing operations to better measure, manage, amplify and benchmark its ESG risk and impact.

MHI's ESG program was set in motion with the dual objectives of aligning with global sustainability standards and building a framework to streamline and improve its sustainability practices. This began with securing leadership buy-in and was bolstered by a stakeholder engagement process, which played a crucial role in shaping the company's approach to ESG. By understanding the concerns and priorities of key internal and external stakeholders, the Group could align its ESG initiatives with MHI's broader business objectives, ensuring feasibility, relevance and impact. MHI's ESG strategy, underpinned by a comprehensive materiality assessment, outlines clear ESG statements and strategic pillars. It also creates a structured framework for sustainability-related programs and initiatives that can be used by all its business units. Building the strategy also involved a revision of material policies and procedures, ensuring that practical ESG tools and frameworks further support operations and ESG risk management across the MHI Group.

MHI is now better equipped to engage with sustainability-related global initiatives, as exemplified by its participation in the United Nations Global Compact, supporting its move to align with the UN Sustainable Development Goals (SDGs) and the UAE's Net Zero by 2050 Strategic Initiative. MHI's journey in ESG integration underscores its commitment to sustainable development as it continues to enhance its operations and align its business practices with broader sustainability goals.

Environmental Initiatives Enhanced by an ESG Framework

MHI rolled out a program in 2021 to replace fossil fuel generators with solar units as part of its transition towards renewable energy sources for some of its core operations. Although the complete effects of this transition are yet to be fully realized, the Cumulative Annual Growth Rate (CAGR) of solar energy generation capacity was estimated at 95% between 2021 and 2023. MHI Group was able to utilize the ESG framework to measure, understand and report its performance and will continue to follow this systematic approach to set targets and track progress towards its larger environmental goals. By leveraging its evolving Greenhouse Gas (GHG) inventory, the Group is equipped to prioritize interventions at sites with the highest emission rates first. Identifying emission hotspots within MHI Group's vast operational expanse exemplifies a practical application of MHI's Group ESG framework to improve environmental impact and resource efficiency.

Similarly, MHI Group places importance on water and waste management as an important sustainability factor that reduces operational costs all the while creating a competitive advantage. Barari Natural Resources, an MHI subsidiary, manages and operates Abu Dhabi Compost Plants (ADCP) through which it processed circa 71,000 tons of green waste into compost in 2023. In addition, MHI has been testing, promoting and implementing smart agriculture technologies to reduce water consumption and combat soil degradation in the management of nature-based resources. In 2023, The UAE Ministry of Energy & Infrastructure awarded Mawarid Desert Control (MDC) first place in its 2022-2023 Research and Innovation Awards under the Water Security and Sustainability category.

TROJAN CONSTRUCTION GROUP: LEVERAGING TECHNOLOGY AND INNOVATION

Trojan Construction Group (TCG) is a leading entity in the construction industry within the Gulf Cooperation Council (GCC) region. Headquartered in Abu Dhabi, TCG, a wholly owned subsidiary of ADH, is known for its multidisciplinary approach and a group of specialist subsidiaries.

Since its inception in 2012, The group has expanded its operations across the Middle East, Africa and Europe, becoming one of the fastest-growing construction firms in the UAE. It boasts a multinational workforce of over 35,000 employees and possesses a fleet of plants and machinery valued at nearly AED 1.2 billion.

In 2023, TCG developed an ESG program customised to suit its unique operational context in the construction and engineering industry. Its strategic ESG pillars – Environmental Stewardship, Responsible Builder and Community-Centred – are tailored to reflect TCG’s core business and corporate values.

TCG’s commitment to ESG and sustainability is underscored by its undertaking of an MSCI ESG rating exercise, culminating in a preliminary “A” rating. It is further underscored by the fact that in 2023 circa 90% of TCG's total revenues were from projects compliant with green building standards. Additionally, TCG delivered 250 hours of external training to students and governmental sectors, 36 hours of training for each employee, and 150,000 volunteering hours in campaigns for cleaner beaches and communities. TCG has also maintained zero fatalities in the last three years and was recognised by SEHA as one of the top three entities that have provided continuous support and community engagement within the larger Abu Dhabi area.

Embracing Clean Technology

TCG has actively pursued opportunities in clean technology, an area of significant relevance in the construction industry. The group has employed Building Information Modelling (BIM), data science tools, cloud service and drones to enhance operational efficiencies and reduce environmental impacts. Complying with Abu Dhabi’s Estidama standards, TCG ensures that most of its projects emphasize water conservation, energy efficiency and sustainable material use. This strategy is underscored by TCG’s Reem Readymix subsidiary, which focuses on R&D in green concrete, contributing to high Estidama Pearl Ratings and setting TCG on a track to become a leader in sustainable construction practices. Clean technology solutions are leveraged across the Group:

- **TCG’s vehicle tracking initiatives:** After introducing activity-monitoring devices across almost 2,000 assets, idle hours were reduced by 60% for heavy machinery and 50% for pickups and buses, resulting in an increase in productivity by 25 and 32 percentage points, respectively. As a result, savings in diesel amounted to around 864,847 gallons and cost savings of approximately AED 15.8 million per year.
- **Green-certified buildings:** In 2023, approximately 90% of TCG's total revenues were from projects compliant with Estidama green building standards.

- **On-site wastewater treatment solutions:** In 2023, the Group built a sewerage treatment plant at its Alfaya camp with an expected capacity of more than 1.15 million m³ of treated wastewater per year for use in cooling plants and washrooms, in addition to more than 0.2 million m³ of gray water per year used for irrigation. Logistics demand for water transported through tankers was reduced by 68%.

- **Mobile concrete crusher units:** The Group recycles concrete waste using on-site mobile crushers through a third-party provider. In addition to transportation-related energy and emissions reductions, the crushed concrete is reintroduced into the value chain offering an estimated waste management cost savings of AED 32 per tonne amounting to an average of AED 4.8 million per project.

NMDC GROUP: PIONEERING HEALTH AND SAFETY

NMDC Group has established itself as a trailblazer in health and safety and is keen on going the extra mile to ensure its employees safety and wellbeing. Their consistent efforts and strategic approaches towards Health and Safety have set new benchmarks, positioning them at the forefront of industry standards. Since 2010, NMDC D&M (and later NMDC Group after the merger) has diligently engaged in an annual benchmarking exercise to evaluate its HSE performance against leading local and global industry peers. A testament to their success is the significant 37.5% reduction in the Lost Time Injury Frequency Rate (LTIFR), which stood at 0.05 in 2023, well below its set target of 0.2 and ranking amongst the lowest in its peer group.

NMDC Group's Approach

The integrated HSE Management System (HSEMS) at NMDC Group, certified by Bureau Veritas and in adherence to ISO-14001:2015 and ISO-45001:2018 standards particularly within the D&M BU, as an example, underscores their commitment to international best practices. The NMDC Group conducts a statistical data analysis of its HSE performance across all business units. The annual deep dive concludes with an extensive report that is fundamental to identifying areas of improvements and highlighting best practices. Closely monitoring insights and trends across its operations, the Group has been able to maintain a proactive stance towards enhancing the safety culture evident in NMDC's multifaceted and targeted approach.

In 2023 alone, and based on report findings in the previous year, NMDC Group initiated and expanded on seven major HSE campaigns aimed to ensure it meets its HSE targets across its operations:

- Hazard Identification & Observation Reporting Campaign
- Housekeeping Campaign
- Preventing Slip, Trip & Falls Campaign
- Beat the Plastic Pollution Campaign
- Heat Stress Campaign
- Safe Lifting Operation Campaign
- Proper waste disposal campaign

These campaigns are complemented by more tailored independent HSE initiatives at the project level.

Health and Safety Beyond Basic Compliance

NMDC Group's commitment to fostering a safe work environment also necessitates a proactive and preventative approach. In 2023, the NMDC Group conducted a total of 716,154 training hours delivered, both in-house and through approved external providers. The NMDC Group also rolled out 2,178 drills and practical exercises conducted across various business units aimed to specifically enhance emergency preparedness and response awareness. The QHSE team conducted 13,823 Behavioural Safety Audits across all projects within NMDC Group to reinforce the company's safety culture and emphasize Safety as its priority.

The holistic and comprehensive employee training regimen has been instrumental in allowing NMDC Group to achieve most of its set targets in 2023. These accomplishments reflect the effectiveness of its HSE initiatives in reducing risks, minimizing incidents and enhancing overall safety culture.

NMDC's focus on employee wellness is integral to their HSE strategy and the Group's dedication to creating a safe and supportive work environment extends beyond the conventional. Regular wellness programs, including health screenings and fitness challenges, emphasize the Group's commitment to the physical and mental well-being of its workforce. Additionally, the Group has partnered with sister company Response Plus Holding (RPM), a leading onsite healthcare provider, to conduct ergonomics assessments aimed at optimizing workspace design, thereby enhancing employee satisfaction and comfort. NMDC Group continuously evaluates the effectiveness of these initiatives through employee engagement surveys and monitoring of reported injuries such as musculoskeletal issues.

These initiatives exemplify NMDC Group's forward-thinking strategy in ensuring a safety conscious work culture that set a benchmark for the industry and drive forward the standards of health and safety practices.

ALDAR PROPERTIES: NET-ZERO JOURNEY AND SUSTAINABLE DEVELOPMENT

The year 2023 marked a pivotal milestone for Aldar with the launch of the Net Zero Plan, a comprehensive initiative that reflects the company's steadfast commitment to sustainability and responsible growth. The plan outlines Aldar's science aligned targets in its decarbonization journey, aiming to achieve net-zero in Scope 1 and 2 emissions and a 45% reduction in Scope 3 emissions intensity by 2030, with the long-term goal of reaching net-zero across all emissions scopes by 2050.

the Net-Zero Plan shows Aldar's commitment to decarbonizing its sector, taking a holistic approach across the value chain from design and construction to asset management and acquisitions. This integration of sustainability ensures that Aldar's growth aligns with both societal and environmental goals, exemplifying the company's proactive dedication to a future where corporate success is synonymous with positive impact.

Eight Levers Guiding Aldar's Net Zero Approach

Aldar strategically implemented eight key decarbonization levers across its development and investment activities to systematically reduce emissions throughout the lifecycle of its assets.

01 LOW CARBON DESIGN

We are implementing an Aldar Sustainable Design Standard to embed low carbon active and passive design options, maximising energy efficiency, building performance, and asset climate resilience.

02 LOW CARBON SUPPLY CHAIN

We are incentivising the supply chain to innovate around low carbon products, materials, and manufacturing processes.

03 GREEN CONSTRUCTION

We are taking a whole lifecycle approach to assets that prioritises low carbon site practices and construction material procurement.

04 CLEAN ENERGY

We are prioritising use of clean energy through grid decarbonisation and procuring clean energy generated by government instruments.

05 RESOURCE EFFICIENCY & MANAGEMENT

We are upgrading our current systems to reduce leakage and improve asset efficiency in use.

06 TENANT INITIATIVES

We are developing a programme of tenant engagement across all leased and managed assets, offering guidance and incentives for more sustainable behaviours.

07 CIRCULAR ECONOMY

We are focusing on better waste management during design, build and use phases, prioritising diversion from landfill, increasing greywater recycling and supporting the local waste sector.

08 SUSTAINABLE ACQUISITIONS

We are ensuring that all new investments and acquisitions will be guided by criteria that formally integrate sustainability considerations into the end-to-end investment decision making process.

In 2023, Aldar fostered collaboration with various partners and government entities to address both immediate and long-term challenges in the decarbonization journey of the built environment across all eight levers. In this case study, we focus on the tangible outcomes of initiatives within Clean Energy, Low-Carbon Supply Chain, Circular Economy and Resource Efficiency and Management.

Clean Energy

During the past year, Aldar conducted a detailed analysis of the cost and benefits of deploying solar photovoltaic systems (PV) on a select number of real estate assets. Subsequently, a partnership was signed to deploy PVs across 45 assets

under Aldar's management. This transition to solar power is expected to avoid 23,000 metric tonnes of carbon dioxide equivalent (tCO₂e) emissions in the first year, marking a 12% reduction in Aldar's Scope 2 greenhouse gas emissions related to purchased electricity compared to the 2022 baseline. Over the project's 20-year lifespan, we anticipate over 560,000 tCO₂e of avoided emissions. This strategic partnership is set to increase Aldar's average clean energy consumption by 12% across its entire portfolio.

Low-Carbon Supply Chain

In 2023, Aldar remained dedicated to enhancing supply chain practices. Bi-annual educational sessions were extended to all registered suppliers, focusing on Aldar's sustainability procurement programs. Additionally, a new sustainability training for contractors was introduced at each project's commencement stage, aiming to familiarize contractors with Aldar sustainability requirements, data collection processes and green site practices.

In a significant effort toward supporting the decarbonization of its supply chain, most of Aldar's construction projects use green concrete, which have accelerated the reduction of Aldar's overall embodied carbon by 13%. In line with the company's objectives and national environmental ambitions, Aldar is collaborating with steel and cement manufacturers to explore opportunities to increase the use of low-carbon materials, thereby further reducing embodied carbon in construction by up to 60% in steel-related emissions and up to 70% in cement-related emissions.

Circular Economy

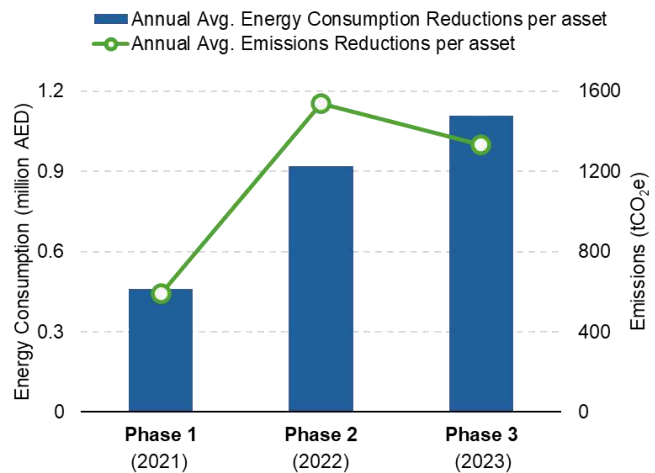

During COP28, and in collaboration with prominent local and international companies specializing in circular economy practices, Aldar announced the development of Ecoloop, a waste management integrated facility designed to treat all waste streams across Aldar communities and operations. Aligned with Aldar's goal to reduce landfill waste and associated emissions, Ecoloop is projected to eliminate an estimated 32,500 tCO₂e emissions annually.

Ecoloop will implement circular economy principles by diverting all municipal solid waste from landfills, treating it and converting it into by-products. The waste collection process involves segregation across four new transfer stations, with delivery to a newly developed waste-treatment facility in Abu Dhabi. The segregation process spans a wide range of recyclable materials, from plastics and glass to energy recovery, wood processing and biogas processing.

Resource Efficiency and Management

Building on the success of the initial two phases of the Aldar Energy Retrofit project involving 52 assets, Aldar launched Phase 3 in 2023. This expansive project, one of the largest retrofit projects in the UAE, included the retrofitting of nine additional assets within Aldar's portfolio. This initiative significantly contributes to sustainable development and yields financial benefits by reducing energy costs through the installation of more efficient equipment and systems.

In the span of three years, Aldar invested a total of ~AED 141 million across 61 owned or managed assets with a direct return on investment of an estimated AED 40 million in energy savings annually. The expected packback period is only 3.5 years in addition to an estimate of 55,000 tCO₂e emissions reduced yearly.

Investing in Sustainable Businesses

WIO BANK: BRINGING SUSTAINABILITY TO BANKING

Wio Bank PJSC is a customer-centric digital bank. As a primary and founding shareholder, ADH is proud to add Wio Bank PJSC to its portfolio of subsidiaries that continuously seek to demonstrate a commitment to integrating ESG principles into their business models and practices.

At the core of its ESG framework, Wio Bank focuses on five key components through which it intends to drive impactful and inclusive initiatives:

1. Greener and more Eco-efficient Operational Practices
2. Commitment to Diversity and Inclusion
3. Robust Security and Financial Oversight
4. Innovation in Sustainable Financial Products
5. Ethical and Sustainable Partner Engagement

Wio Bank champions a digital-first approach and sets new standards in eco-conscious banking. It has no branch offices and no on-premises data centres. Also, its digitized processes (from onboarding to payments and account maintenance) significantly reduce its environmental impact through minimized paper usage.

Wio Bank emphasizes social responsibility and inclusive practices. It has a diverse workforce, with over 38 nationalities and 34% female representation as of December 2023. And its product programs are designed to promote accessibility to banking services for diverse segments of the population and SMEs.

ADH has worked with Wio Bank on the roll out a card linked Carbon Calculator; the first and only such initiative in the EEMEA region in 2023. This calculator enables Wio customers to understand and consider the environmental impact of their purchases. The Carbon Calculator, powered by the independently verified Doconomy Åland Index¹, provides users with the estimated carbon emissions generated by their Wio Personal card-based purchases. The Carbon Calculator is integrated into the Wio Personal application and is a powerful tool designed to raise awareness among users on the environmental implications of their consumer habits and decisions. It achieves this by translating carbon emissions of purchased products and services into comprehensible emission equivalents. It promotes sustainable lifestyles by empowering Wio customers to align their personal spending behaviour to their respective values on climate change. As part of this initiative, Wio customers can also directly donate to support the Emirates Nature – WWF project, aimed at restoring 50,000 mangroves over 10 Hectares in the Northern Emirates.

“Our aim at Wio Bank is to continuously support our customers with the right tools and give them the confidence when it comes to their spending habits. The Carbon Calculator is one more way that will enable them to understand, visualise

¹ Doconomy Åland Index is a global index solution for CO2 emission calculations that guide consumers in their everyday consumption towards more sustainable choices.

and spend in a way that will serve our planet better. This is a step towards a more sustainable future, fostering a new way of thinking about our actions and their effects on the world we live in,” said Jayesh Patel, Chief Executive Officer at Wio Bank.

Wio Bank has become a proud member of Mastercard's Priceless Planet Coalition, which unites the efforts of consumers, financial institutions, merchants and cities to fight climate change through the restoration of 100 million trees.

ALPHA DHABI CLIMATE CAPITAL

At a time where environmental sustainability has become a global imperative, the UAE has taken a leading global role in establishing itself as a financial and knowledge-sharing hub for sustainability. In this context, and as a core member of Abu Dhabi’s commercial and financial ecosystem, ADH has established the Alpha Dhabi Climate Capital vertical.

This initiative underscores ADH’s commitment to channel investments towards climate-conscious projects and companies that foster innovation and align with global and local environmental goals. ADH is determined to establish a regional platform of reference that demonstrates the symbiotic relationship between profitability and sustainability, and that acts as knowledge-sharing hub between companies on their respective sustainability journeys.

Alpha Dhabi Climate Capital is initially focusing on energy efficiency; renewable energy; water and wastewater management; nature based commercial initiatives that promote or safeguard biodiversity; water smart food security; waste management; sustainable mobility and infrastructure projects that contribute to reducing carbon or methanol emissions; and companies that use technology to redefine industry standards on emission metrics.

Detailed Disclosures

Due to changes in the reporting boundaries for subsidiaries featured in this report, the historical data for some entities may differ from that presented in the 2022 report. For a comprehensive breakdown of the revised reporting boundaries and the data included for each entity, please see below:

Breakdown of the data boundary for the below mentioned entities:

- *Disclosures for Alpha Dhabi Holding PJSC pertain exclusively to the parent level.*
- *Disclosures for Trojan Construction Group encompass all subsidiary entities and operations.*
- *Disclosures for Mawarid Holding Investment LLC encompass all subsidiary entities and operations.*
- *Disclosures for NMDC Group pertain to NMDC Dredging & Marine and NMDC Energy data combined**

**For detailed reporting criteria, please refer to NMDC Group's Integrated Report 2023.*

Numbers presented by Alpha Dhabi Holding and each of the respective subsidiaries within this report have not been assured by third party auditors. However, respective management of each subsidiary have made every effort to provide accurate numbers which have been independently verified by third party consulting firm, Renoir Consulting.

Breakdown of the data boundary for Aldar Properties PJSC –

- *HR - Aldar Properties PJSC*–HSE - Aldar Properties PJSC*
- *Carbon Emission and Energy - Aldar Group***

These limited boundaries for Al Dar Properties PJSC were set based on available information at the time of this report.

For comprehensive externally assured data covering the entirety of Al Dar PJSC along with related detailed reporting criteria please refer to Aldar Sustainability Report 2023.

CARBON EMISSION & ENERGY

NOTE: Given the specified changes in the organizational boundaries for each entity, we have opted to only present Scope 1 and Scope 2 data for 2023. For detailed emissions and energy disclosures, including historical and Scope 3 data, please refer to each entity's sustainability report.
